Trump's Reckless Move on Paris

President Trump is withdrawing the United States from the Paris Agreement, the global commitment by nearly 200 nations to collectively combat climate change.

This grave mistake threatens more than just the environment—it hurts the economy and puts national security at risk. We have a right to demand better.

Subject: Canada's caribou need some TLC

[VIEW IN BROWSER](#)

Protect the Boreal, Protect the Woodland Caribou

Unchecked logging, mining, and road-building in Canada's boreal forest has put the woodland caribou's 57 remaining herds at risk of extinction. These industrial activities also threaten the hundreds of First Nation communities that call the boreal home and jeopardize the forest's ability to regulate our global climate. Urge Canada to step up now—these icons need protection before it's too late.

Subject: Now on Trump's chopping block: energy savings

[DONATE](#)

Save Energy Star!

The iconic blue-and-white star indicating energy efficiency has become one of

the most widely recognized consumer product labels. That Energy Star—certification program, in place since 1992, has saved Americans an astounding \$430 billion on utility bills and reduced greenhouse gas emissions by 2.8 billion metric tons. Now President Trump and his congressional allies want to slash Energy Star's budget. Join retailers, builders, and utilities in urging Congress to save this critical energy-saving program.

Say No to Park Fee Hikes!

The Trump administration recently proposed to double, even triple, entrance

fees to some of the country's most iconic national parks—making them unaffordable to many Americans. At the same time, U.S. Department of the Interior Secretary Ryan Zinke is rolling out the welcome mat for fossil fuel companies vying to drill and mine on these treasured lands. Tell the National Park Service you're against this massive fee increase.

nrhc_org The frightening effects of climate change on public health are now impossible to ignore. One of the world's most prestigious medical journals, The Lancet, recently released its assessment of the health effects of climate change. The results are alarming. Weather disasters, exposure to heat waves, and increased levels of pollution are causing disease, malnourishment, and death across the world. How many more warnings do we need? We have to take action NOW to prevent this global health crisis from getting worse. Join the fight to save our health, and our planet. in our profile link.

Dear Friends of Phil Metzger,

We are celebrating Phil's career at EPA on Tuesday March 21, 2017 from 2:00 – 4:00 pm in EPA East Room #1153.

We will be assembling a memory book, so whether you are able to attend or not, please feel free to send via email any notes that you want to include ahead of time. The memory book will also be available the day of the event for signing. Please also let us know if you would like to be added to the line-up of speakers.

We will be serving light refreshments and collecting on a voluntary basis for a parting gift.

Please feel free to send your notes for the memory book, let us know if you want to be in the line-up of speakers, or provide your voluntary contributions to Beri Hull at hull.beri@epa.gov and 202-564-2185. Please let me or Beri know if you have any questions.

We look forward to seeing you!

Andy Battin

Subject: Puget Sound NDZ

Dear Mr. Costanzo,

Thank you for your messages below to Senators Benton and Erickson regarding EPA's final determination, issued pursuant to Section 312(f)(3) of the Clean Water Act that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available in Puget Sound. I have been asked to provide a response on behalf of EPA. EPA's final determination was published today, February 21, 2017, in the Federal Register at 82 Fed. Reg. 11218. This determination was made after careful review and consideration of the issues raised by the maritime industry in your written comments and in our meeting with you on December 1, 2016.

Your messages raise concerns regarding publication of EPA's final determination in light of the President's directive, issued on January 20, 2017, entitled *Regulatory Freeze Pending Review*. The President's directive applies to regulations, not adjudications such as this determination. As our final determination explains, and as set forth in Section 312(f)(3) of the Clean Water Act, EPA's role in the no-discharge zone process is to determine, upon application of a state, whether adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for waters to which the discharge prohibition would apply. An EPA determination that such facilities are reasonably available in the specified waters is a prerequisite to a *state* designation of a no-discharge zone in such waters. EPA's final determination for Puget

Sound does not itself constitute the designation of a no-discharge zone. Rather, the State may now, in its discretion, finalize their proposed designation and discharge prohibition in accordance with State law. With this in mind, and as explained in more detail in our response to comments, EPA's final determination does not constitute issuance of a regulation. Therefore, it was not subject to the President's directive entitled *Regulatory Freeze Pending Review*. We have encouraged the State to work closely with the maritime industry as the State's process moves forward.

You also raised concerns regarding the number of available pump out facilities as well as the effect that the establishment of a no-discharge zone would have on the use of onboard sewage treatment devices. EPA acknowledges these concerns and directs you to our response to comments, which sets forth in detail our findings on the issues that you raise. Both documents are available for your review at:

<https://www.epa.gov/puget-sound/epas-final-determination-no-discharge-zone-puget-sound>.

I hope this information addresses your questions. If you would like to discuss EPA's determination further please let me know and we can work with you to arrange a time.

Thank you,

Michelle L. Pirzadeh

Subject: RE: Puget Sound NDZ [WARNING: DKIM validation failed]

Importance: High

Dear Senators Ericksen and Benton:

I received the attached copy of the attached prepublication of the February 21 Federal Register stating that EPA is moving ahead with a Final Affirmative Determination of the Puget Sound NDZ.

As you might understand, this is extremely disappointing and surprising given that we understood from several communications that the Determination would be subject to the regulatory freeze authorized by President Trump's January 20 directive.

At this point, we are wondering if anything can be done to hold this determination or roll it back until former RA Dennis McLerran's justification for determining the adequacy of pumpout capacity in Puget Sound for commercial vessels can be fully understood and evaluated.

Your assistance is urgently requested.

Thank you!

- Charlie

Subject: Puget Sound NDZ

Dear Senators Ericksen and Benton:

I write on behalf of The American Waterways Operators (AWO), the national trade association for the tugboat and barge industry, to ask for your assistance rolling back the Puget Sound No-Discharge Zone (NDZ), a badly misguided and procedurally-flawed joint regulatory proposal of the Dept. of Ecology and the EPA. The policy would force vessel owners to abandon federally-approved onboard sewage treatment systems despite the absence of scientific evidence to suggest these systems harm the marine environment in any way. The policy would force vessel owners to install holding tanks onboard the vessel and pump untreated sewage to a shore-based treatment system. For my industry alone, the regulation would cost operators over \$15 million and provide zero benefit to the environment.

On the evening before President Trump was inaugurated, EPA representatives called maritime industry advocates to let them know that then-EPA administrator Dennis McLerran had signed a determination that the capacity of shoreside facilities was sufficient to accommodate the regulated community. The determination should be invalidated because there is exactly one shoreside facility in all of Puget Sound (at the Port of Bellingham) that could even accommodate a typical tugboat, fish processor, or small cruise vessel. McLerran's determination was signed, and shortly after the inauguration Senator Benton confirmed to Cliff that the determination was subject to the President's regulatory freeze declaration of January 20 and that it will not be noticed in the Federal Register.

We are working to ensure that RA McLerran's determination is never noticed and that the Puget Sound NDZ, as promulgated by the Dept. of Ecology, is never implemented. It's bad policy and we can articulate better ways that the industry and regulators can achieve water quality improvement from onboard sewage treatment. We would love the opportunity to talk with you by phone or in person about this issue. It's extremely important for the commercial and recreational boating community in Washington State. It even impacts which out of state vessels can trade in our waters.

I am copying in several other maritime industry advocates who worked over a period of years to persuade Ecology to adopt sensible NDZ policy for Puget Sound. They are Peter Schrappen of the Northwest Marine Trade Association (NMTA), Doug Levy from the Recreational Boaters of Washington, and Cliff Webster who works in Olympia for both AWO and NMTA. We have a much larger coalition of maritime industry groups that engaged on this issue with Ecology to no avail. I attach a letter that describes the coalition and our position. I also attach a letter from Rep. Dave Reichert to EPA urging them to exercise caution on this issue. It appears that EPA didn't take the Congressman's advice and instead opted for an 11th hour rulemaking.

Please let me know if you can find some time to meet with us or chat by phone. I'm happy to accommodate your schedule however works best.

Thank you so much!

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

WASHINGTON, DC 20510-6175

REINHARD M. RUSSELL, MAJORITY STAFF DIRECTOR
 GABRIELLE BATIN, MINORITY STAFF DIRECTOR

February 10, 2017

The Honorable Reince Priebus
 Assistant to the President & Chief of Staff
 The White House
 1600 Pennsylvania Avenue, N.W.
 Washington, DC 20500

Dear Mr. Priebus:

Thank you for your January 20, 2017, Executive Memorandum entitled "Regulatory Freeze Pending Review" (hereinafter "Priebus Memo"). This type of memo is a routine, but important step during a transition to allow an incoming President and his designees to review and assess any pending administrative actions. The Priebus Memo established a regulatory freeze on almost all pending matters as of noon on January 20, 2017.

Despite this clear directive, on Friday, February 3, 2017, the Environmental Protection Agency (EPA) published a final rule that disapproves parts of Wyoming's state implementation plan relating to interstate transport and the 2008 ozone standard, entitled "Approval and Disproval and Promulgation of Air Quality Implementation Plans; Interstate Transport for Wyoming," Final Rule, 82 Fed. Reg. 9142 (Feb. 3, 2017). I am surprised and concerned this rule was finalized after January 20, 2017 without going through a comprehensive review in accordance with the Priebus Memo.

It is our understanding that EPA told Wyoming officials that this rule was exempt from the Priebus Memo because the agency was acting pursuant to a judicial deadline of January 17, 2017. However, EPA is under no judicial deadline relating to this matter. EPA and the Sierra Club have *proposed* a consent decree to resolve a pending lawsuit relating to EPA approval of a number of state plans. The court has not yet entered that decree. Accordingly, EPA's disapproval of Wyoming's state implementation plan should have been subject to the Trump Administration's regulatory freeze, as provided under the Priebus Memo.

The action taken by EPA on February 3rd also raises significant policy concerns. Wyoming submitted its state implementation plan in February 2014 using EPA's 2013 guidance on plan development. In September 2015, the Sierra Club sued EPA regarding the agency's review of state plans. Wyoming had no notice of this lawsuit until June 2016. At that time, EPA published a notice in the Federal Register of its intent to settle the lawsuit by agreeing to deadlines for action on state plans, including that of Wyoming. Around the same time, again with no notice to Wyoming and other states, EPA replaced the 2013 guidance that Wyoming had relied upon. EPA's new methodology for evaluating ozone transport in the West uses a model developed for Eastern states that fails to account for Western topography and exceptional events,

such as wildfires. In November 2016, EPA proposed to disapprove Wyoming's plan to address the 2008 ozone standard. After sitting on Wyoming's submission for over two and a half years, EPA gave Wyoming only 30 days to comment. Wyoming asked for a 90-day extension to address EPA's new methodology. EPA denied that request, stating that it could not agree because the Sierra Club did not concur. This sequence of events left Wyoming with no opportunity to develop an approvable plan.

The actions described above took place during the Obama Administration. However, EPA continues to disregard Wyoming's legitimate concerns. EPA chose to violate the Priebus Memo by finalizing the disapproval of Wyoming's implementation plan instead of using its lawful discretion to work cooperatively with the state.

It is important that agencies such as the EPA follow the Priebus Memo and its strictures, to ensure that states such as Wyoming are not harmed by ill-conceived actions set in motion during the Obama Administration.

Sincerely,

A handwritten signature in black ink, appearing to read "John Barrasso", is written over a horizontal line.

John Barrasso, M.D.
Chairman
Committee on Environment and Public Works
United States Senate

Hello:

Apologies for the late notice, but since this letter (linked to in the release) references a number of EPA regs, do you have any on-the-record comment to the allegations that Administrator Pruitt is violating the Administrative Procedure Act? My deadline is 9 p.m. tonight.

Thanks,

E&C Democratic Leaders: Trump Administration Violating Rulemaking Process

“These ‘final rules’ are not valid and stand to create dangerous confusion”

Washington, D.C. – Energy and Commerce Committee Ranking Member Frank Pallone, Jr. (D-NJ), Energy Subcommittee Ranking Member Bobby Rush (D-IL), Environment Subcommittee Ranking Member Paul Tonko (D-NY), and Congresswoman Doris Matsui (D-CA) sent a [letter](#) to Office of Management and Budget (OMB) Director John Michael Mulvaney today expressing grave concern over the Trump Administration’s pattern of disregard for the legal requirements of the Administrative Procedure Act (APA), which outlines the federal rulemaking process. The members requested immediate withdrawal of two recent Environmental Protection Agency (EPA) actions and one pending Department of Energy (DOE) action that violate the APA.

The APA outlines the federal rulemaking process, including proper notice, comment periods, and publication prior to implementation. It is designed to provide guarantees of due process, and was called by its author, the late Senator Pat McCarran (D-NV) in 1946, “a bill of rights” for the Americans whose affairs are “regulated in one way or another by agencies of the Federal Government.” In the last week, EPA Administrator Scott Pruitt has issued two final rules without proper notice, the required comment period, and without the required 30 days between publication and implementation.

“We request that you withdraw these regulations immediately,” Pallone, Rush, Tonko and Matsui wrote. **“These ‘final rules’ are not valid and stand to create dangerous confusion among regulated entities if they are not withdrawn. Even more importantly, failure to withdraw these new ‘final rules’ will put workers and communities nationwide in danger by delaying needed safeguards.”**

The two rules finalized by Administrator Pruitt are intended to prevent a number of federal safety regulations from going into effect by suspending their implementation date. The pending rule expected to be published by the Department of Energy tomorrow would similarly delay five energy conservation rules finalized in December and January. Under the law, changing the effective date of a regulation qualifies as a substantive amendment that must follow the rulemaking process established by APA.

The federal regulations in question are largely intended to improve public health and safety standards. One of the regulations provides a safety standard designed in response to the West Fertilizer explosion that claimed the lives of fifteen people, another implements a public health standard to prevent exposure to the toxic carcinogen formaldehyde, and another strengthens protections for Superfund sites contaminated by hazardous pollutants.

In addition to the immediate withdrawal of the rules, the four Committee leaders are requesting additional information pertaining to how these rules were finalized, including:

- Copies of all records relating to the Action Development Process for this rulemaking including records of any agency work groups (including names of employees and offices represented in the work group), work group meeting dates (including teleconferences), as well as all emails and materials detailing the internal agency process used to draft this rulemaking.
- Copies of all emails and other communications between Mr. Pruitt and all other current EPA political appointees with representatives and employees of the American Chemistry Council, the American Forest & Paper Association, the American Fuel & Petrochemical Manufacturers, the American Petroleum Institute, the Chamber of Commerce of the United

States of America, the National Association of Manufacturers, and the Utility Air Regulatory Group.

A copy of the letter is available [here](#).

Dear Friends of Phil Metzger,

We are celebrating Phil's career at EPA on Tuesday March 21, 2017 from 2:00 – 4:00 pm in EPA East Room #1153.

We will be assembling a memory book, so whether you are able to attend or not, please feel free to send via email any notes that you want to include ahead of time. The memory book will also be available the day of the event for signing. Please also let us know if you would like to be added to the line-up of speakers.

We will be serving light refreshments and collecting on a voluntary basis for a parting gift.

Please feel free to send your notes for the memory book, let us know if you want to be in the line-up of speakers, or provide your voluntary contributions to Beri Hull at hull.beri@epa.gov and 202-564-2185. Please let me or Beri know if you have any questions.

We look forward to seeing you!

Subject: FW: Senate Committee on Environment and Public Works: Letter from Chairman Barrasso Regarding EPA's compliance with Mr. Priebus' January 20 "Regulatory Freeze" Memorandum

This is the action where the consent decree had been filed with the court on 10/15 but has not been lodged. OP raised this as an issue; OGC advised [REDACTED] **Ex. 5 Attorney Client (AC)** p, and so we included it on the list of actions to move forward on that basis.

Please let me know how you would like me to respond to David – he will need further justification as to why we let this one go.

Subject: Don't let Trump industrialize our oceans

[DONATE](#)

Defend Our Marine Monuments

Commerce Secretary Wilbur Ross has released recommendations to President

Trump that could include shrinking or eliminating protections for nearly a dozen marine monuments and sanctuaries, including the Northeast Canyons and Seamounts Marine National Monument off the coast of Cape Cod. Sacrificing these areas to oil and gas drilling or industrial fishing would threaten endangered species, jeopardize the livelihoods of coastal communities, and put some of our most fragile ecosystems at risk. Stop Trump's attack on these treasured areas before it's too late.

Stop Offshore Drilling

The Trump administration just pledged to open up 90 percent of America's

offshore areas to development as part of its new five-year plan for oil and gas drilling. A reversal of President Obama's offshore drilling ban, this disastrous proposal threatens marine life and coastal communities and contributes to the ever-growing dangers of climate change. Tell U.S. Department of the Interior Secretary Ryan Zinke to start putting the public good before polluter profits and protect our fragile coastal waters.

Hi Allyn- I recall that and no one is suggesting otherwise, so folks should not see this as raising a concern from within EPA. Still, it would be good for the agency to respond to the incoming and that is what I was suggesting would be best from one of the three offices other than OGC. I'm sure Carol Ann and Steve (or their offices) are happy to help with that.

Importance: High

Dear Senators Ericksen and Benton:

I received the attached copy of the attached prepublication of the February 21 Federal Register stating that EPA is moving ahead with a Final Affirmative Determination of the Puget Sound NDZ.

As you might understand, this is extremely disappointing and surprising given that we understood from several communications that the Determination would be subject to the regulatory freeze authorized by President Trump's January 20 directive.

At this point, we are wondering if anything can be done to hold this determination or roll it back until former RA Dennis McLerran's justification for determining the adequacy of pumpout capacity in Puget Sound for commercial vessels can be fully understood and evaluated.

Your assistance is urgently requested.

Thank you!

Subject: Puget Sound NDZ

Dear Senators Ericksen and Benton:

I write on behalf of The American Waterways Operators (AWO), the national trade association for the tugboat and barge industry, to ask for your assistance rolling back the Puget Sound No-Discharge Zone (NDZ), a badly misguided and procedurally-flawed joint regulatory proposal of the Dept. of Ecology and the EPA. The policy would force vessel owners to abandon federally-approved onboard sewage treatment systems despite the absence of scientific evidence to suggest these systems harm the marine environment in any way. The policy would force vessel owners to install holding tanks onboard the vessel and pump untreated sewage to a shore-based treatment system. For my industry alone, the regulation would cost operators over \$15 million and provide zero benefit to the environment.

On the evening before President Trump was inaugurated, EPA representatives called maritime industry advocates to let them know that then-EPA administrator Dennis McLerran had signed a determination that the capacity of shoreside facilities was sufficient to accommodate the regulated community. The determination should be invalidated because there is exactly one shoreside facility in all of Puget Sound (at the Port of Bellingham) that could even accommodate a typical tugboat, fish processor, or small cruise vessel. McLerran's determination was signed, and shortly after the inauguration Senator Benton confirmed to Cliff that the determination was subject to the President's regulatory freeze declaration of January 20 and that it will not be noticed in the Federal Register.

We are working to ensure that RA McLerran's determination is never noticed and that the Puget Sound NDZ, as promulgated by the Dept. of Ecology, is never implemented. It's bad policy and we can articulate better ways that the industry and regulators can achieve water quality improvement from onboard sewage treatment. We would love the opportunity to talk with you by phone or in person about this issue. It's extremely important for the commercial and recreational boating community in Washington State. It even impacts which out of state vessels can trade in our waters.

I am copying in several other maritime industry advocates who worked over a period of years to persuade Ecology to adopt sensible NDZ policy for Puget Sound. They are Peter Schrappen of the Northwest Marine Trade Association (NMTA), Doug Levy from the Recreational Boaters of Washington, and Cliff Webster who works in Olympia for both AWO and NMTA. We have a much larger coalition of maritime industry groups that engaged on this issue with Ecology to no avail. I attach a letter that describes the coalition and our position. I also attach a letter from Rep. Dave Reichert to EPA urging them to exercise caution on this issue. It appears that EPA didn't take the Congressman's advice and instead opted for an 11th hour rulemaking.

Please let me know if you can find some time to meet with us or chat by phone. I'm happy to accommodate your schedule however works best.

Thank you so much!

Stop Interior Secretary Zinke's Environmental Assault

It's been one year since Ryan Zinke took control of the U.S. Department of the Interior. It's staggering how much damage he's trying to inflict on our public lands and waters. He's dismantled Bears Ears and Grand Staircase-Escalante national monuments, is auctioning off nearly all of America's coastlines to dangerous offshore drilling, and reopening loopholes to benefit the oil, coal, and natural gas industry. For his anniversary gift, tell Zinke we've had enough.

Save the Bears Ears National Monument

President Trump is considering a drastic plan to rescind the national monument status of Utah's Bears Ears. These spectacular public lands—spanning 1.35 million acres near Canyonlands National Park—have been home to Native American tribes for millennia. Trump's plan would leave the region vulnerable to oil and gas drilling, mining, and other dangers. Urge Interior Secretary Ryan

Zinke to honor tribal heritage and protect this wildland from destruction.

Sent: 3/16/2017 9:49:07 AM
To: Kenny, Shannon [Kenny.Shannon@epa.gov]
Subject: Morning Energy, presented by American Fuel & Petrochemical Manufacturers: Massive cuts for EPA in Trump budget — Trump team eyes expanded energy executive order — Interior vows to rewrite contested fracking rule

By Anthony Adragna | 03/16/2017 05:46 AM EDT

With help from Annie Snider, Ben Lefebvre and Alex Guillén

TRUMP TO SEEK 'SIGNIFICANT' EPA CUTS: President Donald Trump will seek "significant" reductions in EPA's budget in his budget blueprint today, but OMB Director Mick Mulvaney told reporters "the core functions of the EPA can be satisfied — in fact, beyond the core functions can be satisfied with this budget." The New York Times and Washington Post report Trump's administration will call for a \$2.6 billion — or 31 percent — cut to the agency's funding, an even deeper cut than Trump's initial proposed reduction of \$2 billion. Those reports said the Interior Department would see a 12 percent cut, while the Energy Department would face a 6 percent slash in its funding.

As Pro's Andrew Restuccia reports, specific EPA programs "that don't line up with the president's view on things like global warming and alternative energies" can expect targeted funding reductions, though agency heads will have a "tremendous amount of flexibility" on how top-line cuts can be implemented. And according to POLITICO's Nancy Cook, agencies including EPA, State and Energy are expected to see calls for wholesale elimination of programs involving solar energy, biofuels or anything that looks like the government propping up one sector over another. "I am looking to see who is being protected," one source from Trump's presidential transition team who worked on policy issues told Nancy. "Other than that, I don't expect to learn much more from the budget."

Meanwhile, a short set of administration talking points obtained by ME indicates the Energy Department's budget will focus on increasing "reliance on the private sector" for developing energy technologies, emphasize tech that will "enable American energy independence" in the near- and mid-term, and boost nuclear capabilities. Budgets for the Offices of Energy Efficiency and Renewable Energy and Fossil Energy will be "significantly" scaled back. And programs targeted for elimination include ARPA-E, loan guarantees, advanced vehicle technology loans and the Weatherization Assistance Program.

Democrats vow vigorous defense: Top Senate Democrats vowed to defend EPA's budgets against the looming deep cuts. "The appropriators know what's happened to the budget of EPA in recent years," EPW Ranking Member Tom Carper told reporters. "They understand that any further cuts would not cut fat, they'd cut the bone." Sen. Tom Udall, who oversees the Appropriations subpanel responsible for EPA funding, vowed to use "every tool" to ensure the agency was properly funded: "There's a lot of talk [about cuts] but when it gets down to having to take votes then I think we're in a different situation," he said. Over 130 environmental groups today sent members of Congress a letter urging them to oppose the budget. And some top Republicans have also expressed uneasiness over the extent of the cuts sought by the Trump administration.

ADMINISTRATION MULLS BROADER ENVIRONMENTAL ORDER: Trump's team is mulling expanding its forthcoming energy executive order to roll back a broader list of Obama-era environmental rules, according to a draft summary obtained by your ME host. The document, labeled "draft" and "speculative," details Trump's "Energy Independence Executive Order," which would expand the order to include withdrawing or reviewing rules on fracking, methane and four of former President Barack Obama's climate-related executive orders.

That's in addition to calling for the EPA to "rewrite" the Clean Power Plan and a similar rule setting carbon dioxide emission limits for new power plants. The draft order would also direct the Justice Department to request all legal proceedings underway on those rules be placed on hold, call for an interagency working group to "reconsider" the social cost of carbon figure and ask the Council on Environmental Quality to rescind guidance requiring agencies to consider the impacts of climate changes during National Environmental Policy Act reviews. The White House spokeswoman declined to comment on the draft document and told ME "we do not have any announcements to make" on the order's timing.

WELCOME TO THURSDAY! I'm your host Anthony Adragna, and DOE's Diane Meck was first to identify Pennsylvania, Virginia, Massachusetts and Kentucky as our nation's four commonwealths. For today: Name the only two states (arguably three) whose names begin with double consonants. Send your tips, energy gossip and comments to aadragna@politico.com, or follow us on Twitter [@AnthonyAdragna](https://twitter.com/AnthonyAdragna), [@Morning_Energy](https://twitter.com/Morning_Energy), and [@POLITICOPro](https://twitter.com/POLITICOPro).

FRACKING RULE GETS REWRITE: Trump's Interior Department plans to rewrite an Obama-era regulation governing hydraulic fracturing on public lands, saying in a court filing BLM's 2015 fracking rule "does not reflect" the "policies and priorities" of the new administration, Pro's Ben Lefebvre [reports](#). BLM asked the 10th U.S. Circuit Court of Appeals in a [motion](#) to put a lawsuit over the rule on hold until a new version can be written and Interior plans to launch a new rulemaking process to rescind it within the next 90 days.

ANOTHER SETBACK FOR DAKOTA ACCESS OPPONENTS: A US district judge [denied](#) another attempt to stop construction of the Dakota Access Pipeline even as the pipeline operator said it could start shipping oil next Monday. The Cheyenne River Sioux had asked that construction on the \$3.8 billion pipeline be halted as it prepared an appeal for a decision it lost on March 7. The District Court for the District of Columbia rejected the request, saying that the stop would cause undue financial and logistical burdens on pipeline developer Energy Transfer Partners. Meanwhile, Energy Transfer said it is nearly finished laying the last pieces for construction. The company will test the line and expects to start shipping oil through it sometime between Monday and Wednesday of next week, it said in a [court filing](#).

**** A message from American Fuel & Petrochemical Manufacturers:** Progress means taking on challenges to enhance standards of living for millions in the United States and for growing populations across the globe. Learn how American Fuel & Petrochemical Manufacturers are making our lives easier, healthier, safer and more productive at <https://www.afpm.org/>. At AFPM, we make progress. **

CALIFORNIA SLAMS AUTO RULE ROLL BACK: California politicians slammed the [Trump administration's decision](#) Wednesday to reopen the EPA's midterm review of auto emissions standards for 2022-2025 model year vehicles. Gov. Jerry Brown called it "an unconscionable gift to polluters" that "put the interest of big oil ahead of clean air and politics ahead of science" in a [letter](#) to Pruitt. "If Washington continues down this road, California will take the necessary actions to preserve current standards," he wrote. And Sen. [Kamala Harris](#) [asked](#) Pruitt to reverse the decision, saying it contradicted an answer he gave her under oath during his confirmation hearing. In addition, a coalition of Democratic attorneys general vowed in a [statement](#) to "vigorously oppose attempts by the Trump Administration to weaken our vehicle emission policies," while the state of California [asked](#) late Wednesday to intervene in a lawsuit filed by the Alliance of Automobile Manufacturers in the D.C. Circuit challenging the Obama administration's January determination.

ENVIROS PUT HEAT ON PRUITT: The Sierra Club [asked](#) the EPA's inspector general on Wednesday to probe whether Pruitt violated the agency's scientific integrity policy by making [false](#) statements about the causes of climate change on television. "Administrator Pruitt's comments are not only erroneous, but appear to be politically motivated," the green group wrote. And the Center for Biological Diversity filed an [administrative appeal](#) of a denial of their Freedom of Information Act request seeking copies of all Pruitt's communications since taking office. The agency had said the request was overly broad in scope.

ZINKE'S COAL SHOULDER: Interior Secretary Ryan Zinke on Wednesday approved a \$23 million coal lease for more than 6,000 acres of national forest land in Utah's Greens Hollow that is estimated to hold 55 million tons of recoverable coal. The lease sale in January moved forward despite the Obama administration's coal leasing moratorium — which is technically still in place — because its environmental review had already been completed before the moratorium was issued. Canyon Fuels Co. was the only bidder, at \$22.85 million; the company already operates a mine on adjacent lands that Interior said employs 660 people.

Right said Nedd: Zinke has also ordered that Mike Nedd serve as acting director of the Bureau of Land Management. For the past decade, Nedd has been BLM's assistant director for energy, minerals and realty management, and has been at BLM in various posts since 1991. Zinke called Nedd "an energy guy who understands the balance we must strike when developing resources and creating jobs on our public lands." Since Neil Kornze stepped down as director on Jan. 20, BLM was run by Kristin Bail, assistant director for resources and planning.

NOT SO SLOW, NOW: Environmental groups backing the Obama administration's Waters of the U.S. rule are fighting the Trump administration's move to put legal challenges on hold while it reviews and reworks the contentious regulation per the direction of a recent executive order. The groups, led by the Natural Resources Defense Council and the National Wildlife Federation, filed a brief with the Supreme Court late Wednesday urging justices to deny the administration's request to put litigation related to the rule on hold, or else deem industry's petition improvidently granted and return the case to the 6th Circuit Court of Appeals to consider the merits of the rule. The groups argued granting the administration's request to pause the litigation would allow an end run around the Administrative Procedure Act's requirements for repealing a rule, which include notice and comment periods and an opportunity to challenge the move in court.

GIVE ME (SAFE) WATER! The House Energy and Commerce Environment Subcommittee today looks at how to invest and rehabilitate the nation's drinking water delivery systems. Key issues include determining a realistic amount of federal funding to commit to such infrastructure projects and challenges for local communities in making upgrades. The hearing gavel in 10:00 a.m. in Rayburn 2322.

FIGURING OUT PARK INFRASTRUCTURE NEEDS: The House Natural Resources Subcommittee on Federal Lands today looks at "innovative ways to finance needed improvements, reduce federal costs, and decrease the time necessary to complete construction and rehabilitation projects" for the National Park Service and Forest Service. As ME readers likely know, the backlog of deferred maintenance within the Park Service is nearly \$12 billion and the Forest Service faces a maintenance backlog of \$5.2 billion. The hearing begins at 10:00 a.m. Longworth 1324.

CAPITO, THE CAUTIOUS OPTIMIST: There is "a sense of optimism" in coal country after Trump's repeal of the Stream Buffer Rule and anticipation of the forthcoming Clean Power Plan executive order, but Sen. Shelley Moore Capito (R-W.Va.) is trying to keep expectations realistic: "We know it's not coming back to where it was," she told ME. "I think we're just looking for a stable market so people can plan."

OFFSHORE WIND BLOWS FORWARD: Trump's administration is moving forward with plans to erect hundreds of offshore wind turbines along the U.S. coastline in spite of the president's years-long criticism of the structures, Pro's Esther Whieldon reports. Today, for example, the Bureau of Ocean Energy Management will auction offshore wind leases for 122,405 acres of the Atlantic Ocean near North Carolina and the agency took initial steps last week toward opening up other areas near the Massachusetts and New York coasts. But developers think the president's past broadsides — he's called offshore wind a " lousy idea " — are specific to installations near his own properties. "I think that Trump's experience with offshore wind is really specific to a piece of real estate that he owned that highly valued the view" in Scotland, said Chris Wissemann, managing director of offshore advisory firm New Power Ventures.

HEY THERE, TOUGH GUYS! Energy Secretary Rick Perry met with Zinke on Thursday afternoon, but the tough guys opted to stage their photo op outside, in sub-30 degree weather, without coats. Zinke said they were "talking energy, infrastructure, and maybe a little football," but later tweeted they moved inside because it was "a little chilly."

TAKE A GLANCE! The Environmental Council of the States is out with a report finding the budgets of state environmental agencies have modestly increased over the past few years, while average federal funding to those agencies experienced a small decline. "States need these federal funds to fully carry out their [environmental agency budget's] critical functions of advancing human health and protecting the environment," Alexandra Dunn, the group's executive director, said in a statement.

DEMOCRATS: RESPOND TO OUR LETTERS: Senate Democrats slammed the Trump administration Wednesday for failing to respond to their letters related to governmental oversight, including more than half a dozen related to EPA, several aimed at DOE and at least three concerning Interior. A full list of the outstanding requests is available here.

SPOTTED: Someone got some face-to-face interaction with Trump on Air Force One and that someone is EPA Administrator Scott Pruitt! Fox News Host Tucker Carlson tweeted a behind-the-scenes picture ahead of his interview with the president that showed Pruitt in the bottom right corner.

CATHOLICS PETITION TRUMP ON CLIMATE: More than 15,000 Catholics petitioned Trump Wednesday to honor the Paris Agreement on climate change; continue providing funds to the Green Climate Fund, which helps developing countries adapt to climate change; and implement EPA's Clean Power Plan.

CRUZ QUIP: Speaking outside at in bone-chilling, sub-30 degree weather on the need to fully repeal Obamacare, Sen. Ted Cruz quipped: "We have provided, for our friends in the media, definitive proof that the election of conservatives across the government has ended global warming."

ROAST TIME! The National Capital Area Chapter of the U.S. Association for Energy Economics hosts a roast and toast for former EIA Administrator Adam Sieminski tonight at 6:00 p.m. at the Barking Dog in Bethesda (which your ME host, as a Bethesda native, can testify is a good spot for this). Attendees will also get to enjoy live jams from Bob McNally and his band "Sound Policy."

MOVER, SHAKER: Paul Bledsoe, a Clinton White House climate aide, has joined American University's School of Public Affairs Center for Environmental Policy as an adjunct professorial lecturer; he's also become a senior fellow at the Progressive Policy Institute.

Staffing up: Erin Jensen and Patrick Davis have joined the Friends of the Earth Communications Team.

White House: EPA proposal calls for 'significant' budget cuts [Back](#)

By Andrew Restuccia | 03/16/2017 12:02 AM EDT

President Donald Trump's budget blueprint will include "significant" reductions to EPA's funding, White House Office of Management and Budget Director Mick Mulvaney told reporters.

But Mulvaney said heads of federal agencies will have a "tremendous amount of flexibility" to determine how top-line cuts should be implemented.

Still, the budget is expected to include funding reductions for specific programs within the EPA that Trump opposes. "You can expect reductions in the EPA that don't line up with the President's view on things like global warming and alternative energies," Mulvaney said in a conference call on Wednesday.

Mulvaney argued that EPA won't be totally decimated, as many environmental groups fear.

"The core functions of the EPA can be satisfied — in fact, beyond the core functions can be satisfied with this budget," Mulvaney said.

Mulvaney did not disclose the exact budget reduction at EPA, but sources familiar with the plan have said they expect about a 25 percent cut, and Trump administration officials have been mulling slightly bigger reductions.

Trump administration officials developed the budget by reviewing the president's public statements.

"This is the 'America First' budget. In fact we wrote it using the president's own words," Mulvaney said. "We went through his speeches, we went through articles that have been written about his policies, we talked to him, and we wanted to know what his policies were, and we turned those policies into numbers."

Other agencies will also face big cuts, including the State Department, which will see a 28 percent reduction to its budget, while the Defense Department and Department of Homeland Security will get hikes.

Mulvaney added that the Energy Department's nuclear weapons budget will also be increased.

Trump's budget delivers red meat to GOP base [Back](#)

By Nancy Cook | 03/15/2017 05:21 PM EDT

President Donald Trump's first budget proposal this week will be like many of his policy ideas so far — big on showmanship and playing to his base, short on details.

The blueprint is expected to call for taking an ax to programs and agencies that Republicans love to hate like EPA, Energy, Interior, State, HUD and Commerce; foreign aid; the federal workforce; and Education and Labor training programs, while boosting defense spending by roughly \$54 billion — and that covers only so-called discretionary spending, which accounts for just a third of the federal government's budget.

Agencies that are expected to see boosts include the FBI and Homeland Security, including Customs and Border Protection, since they will be crucial to carrying out the administration's travel ban policy and the building of the so-far hypothetical wall with Mexico.

Other agencies will see anywhere from a 15- to 20-percent cut, said one policy expert on the transition team — with the EPA seeing a proposed cut north of 25 percent. "I am looking to see who is being protected," said one source from Trump's presidential transition team who worked on policy issues. "Other than that, I don't expect to learn much more from the budget."

Yet none of this may matter to Trump's base, who elected him based on his promise to upend Washington and dismantle the federal government. Voters rarely want to sweat all of the details; they want action. And Trump's

budget will offer that reward by pinpointing the winners and losers within the federal bureaucracy in broad strokes, according to transition sources.

Most agency cuts are expected to lack specificity, transition sources said; they will require each Cabinet secretary to find savings by eliminating programs, cutting the workforce or both.

The exception may be swaths of the EPA, Commerce, State and Energy departments, where the budget is expected to call for the wholesale elimination of programs involving solar energy, biofuels or anything that looks like the government propping up one sector over another, an idea that's anathema to conservatives.

"Foreign aid is a complete waste of money," said Stephen Moore, a senior economist at the Heritage Foundation who worked on the budget draft during Trump's presidential campaign. Moore stressed that he had not seen the final blueprint. That document is being so closely held that even political appointees at various agencies have not seen it.

The White House plans to release a fuller version of its budget sometime in May.

"The big question is whether the political system can absorb these cutbacks," Moore added. "If this was a business, they could cut by 10 to 15 percent. Some of the agencies should be cut 100 percent. The argument that President Trump needs to make is that businesses downsize. They suck in their gut. The government has not done that."

Yet long-time Republican budget leaders and staffers remain skeptical of Trump's first stab at budget politics because it will lack so many key details. The "skinny budget," as the administration calls this proposal, will not tackle mandatory spending like Medicare or Social Security — entitlement programs that are the main drivers of cost for the government over the next decade and which Republicans have long wanted to overhaul.

Nor is the plan expected to include tax proposals, as budgets typically do. It also promises to boost defense spending by billions of dollars, without taking into account the budget caps still in place from the sequester — to override those to hit the spending level Trump wants, the Senate would need 60 votes to change the law, votes that are not assured.

"That makes the budget anorexic, not skinny," says the former Republican director of the Congressional Budget Office, Douglas Holtz-Eakin. "It will be politics as usual. Trump's base will like it. Other Republicans won't. He'll divide the GOP the same way he always does."

For policy-making, the implications will be even starker. This lack of detailed accounting in Trump's proposal will either force Congress to make many of the hard decisions in its appropriations bills, or simply delay congressional action entirely as leadership awaits further direction from the White House — a scenario that played out with the botched roll-out of the House Republican health care bill.

"The budget is not going to be that revealing," said G. William Hoagland, the former Republican staff director of the Senate Budget Committee. "We'll have to wait until the full budget comes at end of April and in May. What the appropriators need are the account-level details."

The possibility of wholesale elimination of departments, meanwhile, terrifies government workers, as well as the unions that represent them.

"If budgets cut require reductions in force, then federal workers will be concerned about their job and taking care of their family, but they're also concerned about being able to care for everyone that their jobs are meant to support," said Tim Kauffman of American Federation of Government Employees that represents roughly 700,000 workers across federal agencies.

For the past few weeks, the White House's Office of Management and Budget has been negotiating with agency heads over proposed budget cuts behind-closed-doors. At the State Department, for instance, Secretary Rex Tillerson managed to negotiate cuts less severe than the 37 percent outlined in earlier documents, POLITICO reported earlier this week.

One State Department worker, who spoke anonymously for fear of being fired, said workers had been urged not to mention climate change in conversations with OMB officials as the department sought to save programs.

Similarly, State workers tried to rebrand any foreign aid and education programs as ways to boost American or female entrepreneurship, playing into the president's desire to promote business growth, the State employee added.

This process of negotiations has been happening across agencies for the past few weeks, as the president assembles his first budget.

It's been a scramble this year, as is often the case in the first year of an administration, said Sandy Davis, former associate director for legislative affairs at the Congressional Budget Office. Typically, the White House sends agencies the first draft of its budget proposal around Thanksgiving, allowing the agencies to go back and forth for weeks before a blueprint is released in the winter. "It's truncated this year, which is typical for a new administration," Davis said.

New OMB Director Mick Mulvaney was not even confirmed until mid-February. Prior to that, much of the budget policy was being run by a former Heritage Foundation and Senate Budget Committee staffer, Paul Winfree, who now works as the White House's Director of Budget Policy.

Winfree also wrote Heritage's budget blueprint in 2016, which has informed much of the administration's thinking on its budget proposal — although Trump departed from the plan by declining to broach the dismantling of entitlements, except for Medicaid which comes in for big cuts in the House Republican health care bill.

Andrew Restuccia, Shane Goldmacher, Marianne Levine, Caitlin Emma and Darius Dixon contributed to this story.

Trump administration mulls broader environmental order [Back](#)

By Anthony Adragna | 03/15/2017 07:38 PM EDT

President Donald Trump is considering a broader roll back of Obama-era environmental regulations than previously expected, expanding the measure to include withdrawing or reviewing rules on fracking, methane and several of former President Barack Obama's climate-related executive orders, according to a [draft summary](#) of the executive order obtained by POLITICO.

The document, labeled "draft" and "speculative," details Trump's "Energy Independence Executive Order" with the aim of reducing "U.S. dependence on other countries for energy." The White House did not immediately respond to a request for comment.

According to the document, the order would ask the EPA to "rewrite" the Clean Power Plan and a similar rule setting carbon dioxide emission limits for new power plants. It would also direct the Justice Department to

request all legal proceedings governing those rules be placed on hold pending the completion of those administrative reviews.

In addition, the order calls for an interagency working group to "reconsider" the social cost of carbon figure, an estimate of the damage caused by climate change, and for the Council on Environmental Quality to rescind guidance requiring agencies to consider the impacts of climate changes during National Environmental Policy Act reviews.

Four Obama-era climate change-related executive orders would be repealed: One seeking to cut federal government greenhouse gas emissions 40 percent over the next decade; another aimed at improving the resilience of communities to flooding; a 2014 order mandating the integration of climate change resilience into international development projects and a fourth from 2013 that aimed to boost federal agency coordination on climate resiliency.

Other mandates in the order call for EPA to "review and recommend an appropriate path forward" for the proposed federal implementation plan for states that choose not to craft their own compliance strategies for the Clean Power Plan and an immediate lift of an Interior Department's moratorium on federal coal leases. BLM would be asked to "rescind" its regulation governing fracking on public lands and to "review" its rule aimed at curbing methane waste on public lands.

[Back](#)

Interior says will rewrite Obama-era fracking rule [Back](#)

By Ben Lefebvre | 03/15/2017 07:30 PM EDT

The Trump administration said today it plans to rewrite an Obama-era rule governing hydraulic fracturing on public lands.

The Bureau of Land Management's 2015 fracking rule "does not reflect" the "policies and priorities" of the new administration, a Justice Department attorney wrote in a motion to the 10th U.S. Circuit Court of Appeals. BLM asked the court to put a lawsuit over the rule on hold until a new version can be written.

Interior started reviewing the fracking rule earlier this year in response to Trump's Jan. 30 executive order directing agencies to find ways to reduce regulations. BLM plans to launch a new rulemaking process to rescind it within the next 90 days, the motion said.

The Obama-era rule in question introduced stricter regulations for oil and gas fracking on public lands. Those included requiring companies to publicly disclose the ingredients they used in their fracking fluid cocktails on the FracFocus website and validating that their wells were strong enough to not crack under pressure.

Some Western states and industry groups sued to block the rule, arguing that it increased their costs and that BLM did not have the jurisdiction over fracking.

The Center for American Progress blasted BLM's decision to write a new rule, saying it "drags the agency back to square one: implementing well-drilling regulations that are more than 30 years old."

[Back](#)

Trump promises auto review will protect jobs [Back](#)

By Alex Guillén | 03/15/2017 03:31 PM EDT

President Donald Trump today said his order to reopen EPA's midterm review of auto emissions standards for 2022-25 model year vehicles will include "commonsense" changes to protect automakers' jobs.

"If the standards threatened auto jobs, then commonsense changes could have and should have been made," Trump told an audience of workers in Michigan while criticizing the Obama administration's "11th-hour executive action" to lock those standards into place.

"We are going to cancel that executive action," he continued. "We are going to restore the originally scheduled midterm review and we are going to ensure that any regulations we have protect and defend your jobs, your factories. We're going to be fair."

EPA has until April 2018 to decide whether to keep the standards in place or to weaken them, an outcome that would be sure to generate litigation from environmentalists and states like California.

Trump moves to kill Obama water rule [Back](#)

By Annie Snider | 02/28/2017 02:45 PM EDT

President Donald Trump took the first step today toward killing a landmark Obama administration rule aimed at protecting the country's rivers, streams and wetlands, but which was fiercely opposed by industries from agriculture to homebuilding as a federal power grab.

The executive order signed by Trump is the latest in a series of moves by the White House to sweep away regulations from the Obama administration that conservatives have blasted as a drag on the U.S. economy. And it's expected to be followed by another order in the coming weeks that targets a separate Obama rule aimed at fighting climate change by curbing greenhouse gas emissions from the power sector.

Trump called the Waters of the U.S. rule "one of the worst examples of federal regulation," that showed the government had "truly run amok," at a West Wing signing ceremony attended by congressional opponents of the rule, county commissioners and new EPA Administrator, Scott Pruitt, who had sued the agency now runs over the regulation in his previous post as attorney general of Oklahoma.

"It was a massive power grab," Trump said at the signing. "The EPA's regulators were putting people out of jobs by the hundreds of thousands, and regulations and permits started treating our wonderful small farmers and small businesses as if they were a major industrial polluter. They treated them horribly. Horribly."

However, the rule had barely taken effect before a federal judge halted it while a series of legal challenges played out. The new Trump executive order will not just move to undo the Obama rule, but also lay the groundwork for a much more limited approach to determining which waterways are protected by the federal government under the Clean Water Act.

Trump on Tuesday criticized the Obama EPA, saying it had wrongly included "nearly every puddle or every ditch on a farmer's land" under the WOTUS rule.

But the Obama administration had explicitly excluded puddles in the regulation, and included exemptions for some -- although not all -- ditches, raising the hackles of environmental groups.

The WOTUS rule was intended to offer clear protections for headwater streams and wetlands under the 1972 water law following years of confusion sparked by two muddled Supreme Court decisions. The administration estimated it would increase the number of waterways protected under federal rules by about 3 percent, but that number was disputed by a slate of industry groups who called it a vast power grab that would intrude on land use decisions.

The American Farm Bureau Federation, one of the most vocal opponents of the rule, cheered today's move, calling it "a welcome relief to farmers and ranchers across the country."

"EPA has too long been characterized by regulatory overreach that disregards the positive conservation efforts of farmers and threatens their very way of life. Today's action is as much a beginning as an end," Farm Bureau President Zippy Duvall said in a statement.

Pruitt told the Farm Bureau Advocacy Conference this afternoon that he has started the process of formally withdrawing WOTUS. "After the president signed the executive order, he and I went back to his office and I sat at his desk and I signed the commencement of the rule to do just that," Pruitt told the conference. "It's on the way, relief is on the way."

But environmental and conservation groups say the move could leave 60 percent of U.S. stream miles and 20 million acres of wetlands unprotected and vulnerable to development or pollution. Chris Wood, president of Trout Unlimited, called the shift toward a more restrictive interpretation of federal protections "an unmitigated disaster for fish and wildlife, hunting and fishing, and clean water."

The order instructs the EPA and Army Corps of Engineers, which together implement the Clean Water Act, to review the water rule and begin the formal process of rescinding or revising it. That process would involve a new rulemaking where the agencies would have to justify the changes — which will open the door for environmental groups and supportive states to sue, something they have indicated they are more than ready to do.

Former EPA Administrator Gina McCarthy, who led the development of the water rule for the Obama administration, argued the Trump administration is unlikely to be able to justify changes to the rule, and that today's order is more bombast than substance.

"An Executive Order may give the illusion they're fulfilling a campaign promise to gut the EPA, but it doesn't 'trump' a rule," she said in a statement. "The only thing these orders do is make clear this Administration will defer needed public health protections for the American people for the sake of partisan politics."

Particularly concerning for environmental groups is a provision of the order instructing the agencies to focus on a 2006 opinion from late Supreme Court Justice Antonin Scalia in any future rule.

That case, *Rapanos v. United States*, was the last time the high court considered the scope of Clean Water Act protections, but justices could not reach a majority opinion. Antonin Scalia led the court's four conservative justices in an opinion that set a test for federal protections that would severely limit which streams and wetlands were covered, while the court's four liberal justices voted to support the government's more expansive interpretation. Justice Anthony Kennedy sided with conservatives in overturning the government's approach, but wrote his own, stand alone opinion setting a separate test for when waterway should receive federal protection.

Since then, five circuit courts have backed Kennedy's test, which says that streams and wetlands with a "significant nexus" to larger downstream water used for navigation should be protected under the Clean Water Act. The Obama administration pegged WOTUS to Kennedy's test, as did the George W. Bush administration in its 2008 guidance on the issue.

Crafting a new rule pegged to Scalia's opinion would significantly shrink federal protections, leaving waterways in broad swaths of the arid West virtually unregulated by the federal government, since most rivers and streams there flow only after rare rain storms. It would also leave major wetlands complexes, like the Dakota's Prairie Potholes region, off limits for federal regulators.

"It would be an all-out assault on the nation's water quality," said Jon Devine, senior attorney for the Natural Resources Defense Council, arguing that wetlands and streams would be easier to bulldoze, subjecting local waterways and downstream rivers to more pollution and leaving them more prone to flooding.

But critics of the Obama rule, including Pruitt, the new EPA administrator, point out that states will still have the right to regulate those waters under their own laws. They contend that states have a better understanding of local conditions and are better poised to regulate wetlands and smaller waterways.

Ultimately, most players expect the issue will end up once more before the Supreme Court. But legal experts argue it will be an up hill battle to convince justices that Scalia's test should become the standard to meet, especially if Kennedy and the court's four liberal justices are still on the bench when the issue arrives.

In the meantime, the widely criticized George W. Bush administration guidance will remain the method that federal regulators use to determine which waterways are protected under the Clean Water Act, and thus require permits if developers want to harm them. Both industry groups and greens alike have complained that policy, which requires regulators to make case-by-case decisions in the field, is laborious, expensive and inconsistent.

Trump's animosity toward offshore wind isn't stopping his administration from leasing [Back](#)

By Esther Whieldon | 03/15/2017 04:41 PM EDT

President Donald Trump is one of the world's leading critics of offshore wind energy, but his administration is moving forward with plans to erect hundreds of turbines along the U.S. coastline.

Trump spent years fighting a wind farm proposed off the coast of one of his golf resorts in Scotland, and believes offshore wind is overall a "[lousy idea](#)," according to one of the many broadsides he has [launched](#) on Twitter.

But Trump is not stopping his Interior Department from continuing to read from the Obama administration's playbook for promoting offshore wind. On Thursday, the Bureau of Ocean Energy Management will auction offshore wind leases for 122,405 acres of the Atlantic Ocean near North Carolina. Late last week, the agency took its first steps toward opening up additional areas for offshore wind development near Massachusetts and New York.

Developers and experts suggest that Trump's disdain for offshore wind doesn't apply to U.S. wind projects.

"I think that Trump's experience with offshore wind is really specific to a piece of real estate that he owned that highly valued the view" in Scotland, said Chris Wissemann, managing director of offshore advisory firm New Power Ventures. "The vast majority of what BOEM is leasing, whether it's in North Carolina or elsewhere, is out of sight — they're all beyond 10 miles" offshore.

The president's supporters also see no contradiction in his administration's work. "I think that personally the president thinks that offshore wind is a loser, the economics of offshore wind is a loser, but I don't see the Interior Department going forward with making leases available is inconsistent with what they're supposed to be doing on federal land" and water, said American Energy Alliance President Tom Pyle, a critic of renewable energy policies who worked on Trump's transition team.

Trump has not nominated anyone to fill Interior Department jobs aside from Secretary Ryan Zinke, leaving BOEM in the care of Interim Director Walter Cruickshank, a more than 30 veteran of the department who took over BOEM after its previous director stepped down in January.

Prompted by growing demand from developers for more lease options, BOEM will this spring begin crafting a plan to offer a new slew of leases up and down the U.S. coastlines, Cruickshank said. He aims to kick it off with a listening session in April.

Cruickshank says Trump's landing team at Interior did not express any animosity toward offshore wind, but he has not yet met with the Interior secretary. Zinke has yet to say what he thinks about offshore wind but he has said his agency should pursue all forms of energy, including wind and solar.

"We've seen nothing but support for our program so far" from the team, Cruickshank told POLITICO. "Offshore wind has the ability to help provide electricity particularly in some areas that have high electricity rates. It's a new industry for the country that can bring new investment and new jobs and help secure our energy independence."

The stakes for offshore wind are high. DOE's National Renewable Energy Laboratory estimated that up to 86 gigawatts of offshore wind generation could be installed by 2050, enough to provide electricity for about 25.8 million homes per year. But developers say that reaching those numbers requires a clear indication that the Trump administration will keep the momentum going after the Obama administration helped launch the U.S. offshore wind industry.

It's "tremendously important that a new administration comes in and basically supports this potentially huge industry," said Thomas Broström, general manager for the North American branch of Danish offshore wind developer DONG Energy. DONG is partnering with utility Eversource Energy to build more than 40 wind turbines offshore Martha's Vineyard in New England. "It's right now that companies are coming in willing to invest millions of dollars into this market here and possibly set up shop here," he said.

The nation last year saw its first offshore wind project come online — Deepwater Wind's 30 megawatt Block Island project off the coast of Rhode Island — and experts believe a handful of additional projects could come online by 2020. While the U.S. market has benefited from lower costs driven by rapid offshore wind growth in Europe, it is still more expensive than other forms of domestic renewable energy. Moreover, it will be years before there are enough projects to support the kind of U.S.-based supply chain that would put a real dent in those costs.

"It's the same pattern we saw with onshore wind and solar — the more of it you have the faster you're going to reach economies of scale," said Keith Martin, a finance attorney and partner at the firm Chadbourne & Parke.

The Obama administration auctioned offshore wind leases for projects stretching from Massachusetts to Virginia, and it laid the groundwork for additional lease sales along the East Coast as well as offshore California and Hawaii. No additional sales are on the calendar beyond the North Carolina auction, but BOEM earlier this week said it would schedule an auction for a parcel offshore Massachusetts where two companies have indicated they want to build. BOEM is also considering whether to lease a parcel offshore New York.

"Prospects for the business in the US is really high," said Stephen Bull, senior vice president for wind and carbon capture sequestration at Statoil, one of the companies interested in the Massachusetts lease. "We think that it's the right time to really sort of make those marks now on the industry and to help to try to build this up a bit more."

Subject: Help get a deadly chemical off Lowe's shelves

[DONATE](#)

Tell Lowe's to Stop Selling Deadly Paint Strippers

Among the home-improvement products at your local Lowe's store are paint strippers containing methylene chloride, a chemical that has been linked to liver toxicity, cancer, central nervous system damage—and nearly 60 deaths. The toxic fumes from these paint removers, from brands like Jasco and Goof Off, have killed unsuspecting users within minutes. Urge Lowe's CEO Robert Niblock to put consumer safety first and stop selling these dangerous items.

Subject: Reminder - Phil Metzger is Retiring

Dear Friends of Phil Metzger,

Just a reminder that we are celebrating Phil's career at EPA on Tuesday March 21, 2017 from 2:00 – 4:00 pm in EPA East Room #1153.

We will be assembling a memory book, so whether you are able to attend or not, please feel free to send via email any notes that you want to include ahead of time. The memory book will also be available the day of the event for signing. Please also let us know if you would like to be added to the line-up of speakers.

We will be serving light refreshments and collecting on a voluntary basis for a parting gift.

Please feel free to send your notes for the memory book, let us know if you want to be in the line-up of speakers, or provide your voluntary contributions to Beri Hull at hull.beri@epa.gov and 202-564-2185. Please let me or Beri know if you have any questions.

A list of former-EPA and non-EPA guests will at the guards desk on the Constitution Ave entrance to aid in accessing the building.

We look forward to seeing you!

Attachments: 02.10.2017 Priebus Memo Regulatory Freeze.pdf; ATT00001.htm

This is the action where the consent decree had been filed with the court on 10/15 but has not been lodged. OP raised this as an issue; OGC advised: Ex. 5 Attorney Client (AC) and so we included it on the list of actions to move forward on that basis.

Please let me know how you would like me to respond to David – he will need further justification as to why we let this one go.

February 10, 2017

The Honorable Reince Priebus
Assistant to the President & Chief of Staff
The White House
1600 Pennsylvania Avenue, N.W.
Washington, DC 20500

Dear Mr. Priebus:

Thank you for your January 20, 2017, Executive Memorandum entitled "Regulatory Freeze Pending Review" (hereinafter "Priebus Memo"). This type of memo is a routine, but important step during a transition to allow an incoming President and his designees to review and assess any pending administrative actions. The Priebus Memo established a regulatory freeze on almost all pending matters as of noon on January 20, 2017.

Despite this clear directive, on Friday, February 3, 2017, the Environmental Protection Agency (EPA) published a final rule that disapproves parts of Wyoming's state implementation plan relating to interstate transport and the 2008 ozone standard, entitled "Approval and Disproval and Promulgation of Air Quality Implementation Plans; Interstate Transport for Wyoming," Final Rule, 82 Fed. Reg. 9142 (Feb. 3, 2017). I am surprised and concerned this rule was finalized after January 20, 2017 without going through a comprehensive review in accordance with the Priebus Memo.

It is our understanding that EPA told Wyoming officials that this rule was exempt from the Priebus Memo because the agency was acting pursuant to a judicial deadline of January 17, 2017. However, EPA is under no judicial deadline relating to this matter. EPA and the Sierra Club have *proposed* a consent decree to resolve a pending lawsuit relating to EPA approval of a number of state plans. The court has not yet entered that decree. Accordingly, EPA's disapproval of Wyoming's state implementation plan should have been subject to the Trump Administration's regulatory freeze, as provided under the Priebus Memo.

The action taken by EPA on February 3rd also raises significant policy concerns. Wyoming submitted its state implementation plan in February 2014 using EPA's 2013 guidance on plan development. In September 2015, the Sierra Club sued EPA regarding the agency's review of state plans. Wyoming had no notice of this lawsuit until June 2016. At that time, EPA published a notice in the Federal Register of its intent to settle the lawsuit by agreeing to deadlines for action on state plans, including that of Wyoming. Around the same time, again with no notice to Wyoming and other states, EPA replaced the 2013 guidance that Wyoming had relied upon. EPA's new methodology for evaluating ozone transport in the West uses a model developed for Eastern states that fails to account for Western topography and exceptional events,

such as wildfires. In November 2016, EPA proposed to disapprove Wyoming's plan to address the 2008 ozone standard. After sitting on Wyoming's submission for over two and a half years, EPA gave Wyoming only 30 days to comment. Wyoming asked for a 90-day extension to address EPA's new methodology. EPA denied that request, stating that it could not agree because the Sierra Club did not concur. This sequence of events left Wyoming with no opportunity to develop an approvable plan.

The actions described above took place during the Obama Administration. However, EPA continues to disregard Wyoming's legitimate concerns. EPA chose to violate the Priebus Memo by finalizing the disapproval of Wyoming's implementation plan instead of using its lawful discretion to work cooperatively with the state.

It is important that agencies such as the EPA follow the Priebus Memo and its strictures, to ensure that states such as Wyoming are not harmed by ill-conceived actions set in motion during the Obama Administration.

Sincerely,

John Barrasso, M.D.
Chairman
Committee on Environment and Public Works
United States Senate

Dear Friends of Phil Metzger,

We are celebrating Phil's career at EPA on Tuesday March 21, 2017 from 2:00 – 4:00 pm in EPA East Room #1153.

We will be assembling a memory book, so whether you are able to attend or not, please feel free to send via email any notes that you want to include ahead of time. The memory book will also be available the day of the event for signing. Please also let us know if you would like to be added to the line-up of speakers.

We will be serving light refreshments and collecting on a voluntary basis for a parting gift.

Please feel free to send your notes for the memory book, let us know if you want to be in the line-up of speakers, or provide your voluntary contributions to Beri Hull at hull.beri@epa.gov and 202-564-2185. Please let me or Beri know if you have any questions.

We look forward to seeing you!

Andy Battin

202-566-2140

Subject: Resignation

Dear colleagues:

Transitions begin and they end. I have been honored to have had the opportunity to serve the Trump Administration, but I have completed as much as I am able. Thus it is time for me to move on.

I will resign effective COB Friday and will be on leave until then.

My contact information for any who wish to remain in touch: Ex. 6 Ex. 6

I wish each of you the best.

David W. Schnare
Assistant Deputy Administrator
US. EPA

Detail

6. Given EPA's previous refusal to cite such information or examples, I hereby wish to submit a FOIA request for all such determinations (minus personally-identifying information, but including other information and correspondence and requests regarding additional information) made within the past four years by Mr. Haig or Mr. Ascencio, in which the I am requesting the following Reasonable Accommodations (RA) data along with racial demographics:

1. Number of RA request approved in the last 3 years.
2. Number of RA request denied in the last 3 years.
3. Race of individuals RA request approved in last 3 years.
4. Race of individuals RA request denied in last 3 years.
5. Disabled veterans RA request approved in last 3 years along with racial demographics.
6. Disabled veterans RA request denied in last 3 years along with racial demographics.

Please provide the following information from 2005 - 2015 broken down by year.

A list of the number of reasonable accommodation request based on a disability as well as the number approved please provide information broken down at the headquarters level by office as well as at the regional level. Please break down I am seeking all internal EPA emails, including those from program offices, regarding Donald Trump, Hillary Clinton or I request a copy of each email sent on November 8th, November 9th, November 10th, or November 11th of this year (2016) to or from any employee at the U.S. Environmental Protection Agency's National Headquarters, which contains To whom it may concern: This is a request for records under the provisions of the Freedom of Information Act. I request a copy of each email sent on or after November 20, 2016 through present to or from any employee at the U.S.

Any and all communications between EPA administrators and President-Elect Trump's transition team members Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of: • All emails sent to or sent from your agency employees in which the Internet domains "trump.com", "trumporg.com", "ptt.gov", "donaldjtrump.com" or "donaldtrump.com" are in email addresses in the To, From, CC, Please provide copies of the following documents in cases in which both USEPA and the State of Oklahoma are parties and that, as of the date of this request, are still pending in any Federal District Court, Federal Circuit Court, or the United Regional Freedom of Information Officer December 8, 2016 U.S. EPA, Region 6 1445 Ross Avenue (6MD-OE) Dallas, TX 75202-2733 Re: Freedom of Information Act Request This is a request for copies of correspondence under the Freedom of Information Act. Specifically, I am requesting copies of correspondence between Environmental Protection Agency staff and Oklahoma Attorney General Scott E. Pruitt from 2010 to the date of this request. I am also requesting copies of correspondence between EPA staff and any email address with the stem @oag.ok.gov during the same To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: 1. Any and all communications between Oklahoma Attorney General Scott Pruitt and the Environmental Protection Agency and/or all representatives of AG Pruitt and the EPA. I also request that, if appropriate, fees be waived as I believe this request is in the public interest. The requested documents will be made available to the general public free of charge as All records of communications from or on behalf of the Trump-Pence Transition Team to the Environmental Protection Requesting communications between PE Trump's transition team and EPA employees.

Any records, documents, emails, questionnaires, memoranda or other correspondence or communications between agency officials and the Trump Presidential Transition Team, regardless of format, medium or physical characteristics and including electronic records and information. The request includes both in-agency and external communications. The likely date range of the records is Sept. 1, 2016 through the present. I am requesting responsive records regardless of format, and the request includes attachments to those records. In addition, please whenever possible produce records electronically in non-proprietary formats such as Excel files or PDF files. Please also provide any and all documentation See attached document

Seeking all communications (emails, letters, PowerPoint presentations, etc.) sent by EPA and received at EPA to and from both the Trump transition team and the Trump "landing team" of select staff from Nov. 15, 2016, to Dec. 14, 2016. The transition team is the one with the website greatagain.gov. The "landing team" is the Trump transition team officials that are working directly with EPA: Myron Ebell, David Schnare, David Kreutzer, Austin Please see attached

Per our discussion and your subsequent November 16, 2015 e-mail, your request will be modified as follows:

1. This request seeks communications between specific EPA employees and the Sierra Club.

2. EPA will search for and review e-mail communications between

a. Sierra Club employees

John Coequyt (john.coequyt@sierraclub.org)

Lena Moffitt;

Michael Brune;

Mary Anne Hitt;

Bruce Nilles,

Verena Owen, and

b. EPA custodians:

Michael Goo,

Gina McCarthy,

Alex Barron,

Lisa Jackson,

Richard Windsor, and

Al Armendariz.

3. The date range for search will be: November 1, 2005 to November 1, 2015.

Please see the attached request for communications and other records regarding New Source Performance Standards. Desire the report and all source materials used to prepare the report produced by Catherine Allen a contractor for SRA International on or about May 2014 that discussed EPA employee Steve Williams in the EPA Office of Homeland Security. Desire information on the contract that was used to produce this report including the cost of the report,

Any and all documents in EPA's possession memorializing or discussing statements made by Lisa Nanko an employee within the EPA Office of the Administrator/Office of Homeland Security regarding Steven Williams an employee within Request the report and all source material prepared by Robert Coomber of the EPA Office of Labor and Employment Request all communications relied upon by then EPA Deputy Administrator Robert Perciasepe in his May 07, 2014

testimony before the House Committee on Oversight and Government Reform regarding Steven Williams, an EPA Any and all documents prepared by or in the possession of EPA Deputy Chief of Staff John Reeder memorializing or

Request any and all documents or communications in EPA's possession prepared and/or transmitted by David Kling or Mario Caraballo, employees within the Office of the Administrator/Office of Homeland Security discussing EPA

I request a copy of the first email(s) sent by EPA Administrator Gina McCarthy from any and all personal email accounts that she uses for agency business. Please conduct a comprehensive search of her email account(s) that are used for agency business in response to my FOIA request. Several agency leaders have been found to have used more than one

I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Gina McCarthy's personal email account(s) from July 18, 2013 to the present day. Other senior administration officials, such as former Secretary of State Hillary Clinton and Defense Secretary Ash Carter, have been found to have used a personal email account for government business. Both of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of

personal email for government business ¬– and also litigation in former Secretary Clinton's case ¬– both former Requesting copies of emails sent to or from Elizabeth Kopits or Alex Martens in the To or From, cc: and/or bcc: fields,

the Subject field, and/or the email body, any of the terms or parties: "SCC", "social cost", Maureen Cropper, Richard

Detail

In most cases buildings of less than 5,000 sf in size are not eligible to receive the EPA's ENERGY STAR building score. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse.

In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf."

I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction.

Here I am attaching one of the technical documents that states this restriction.

See attached pdf file.

See attached documents

Any and all documents regarding the development of EPA's new estimates of methane emissions from natural gas production, processing and related activities (<http://www.epa.gov/climatechange/Downloads/ghgemissions/US-GHG-Inventory-2013-Chapter-3-Energy.pdf>).

Include, but not not limited to, documents which describe the reasons for EPA reducing its estimates of these emissions and any correspondence with the natural gas industry regarding these emissions.

I would like copies (in paper or electronic format) of the following forms received by the Environmental Protection Agency as a part of its Natural Gas Star program from January 1, 2005, through August 29, 2013:

- * All Memoranda of Understanding received for its "Production Program"
- * All Implementation Forms received for its "Production Program"
- * All Annual Reporting forms received for its "Production Program"

A copy of this description is also included in an attached formal letter:

The purpose of this sletter is to make a formal request pursuant to the federal Freedom of Information Act for documents, both hard copies and electronic in form (including emails) pertaining to the decision of the U.S. Environmental Protection Agency in 2003 that greenhouse gases were not pollutants within the meaning of the federal Clean Air Act. More specifically, I am interested in documents relevant to the Agency's decision making between January 1, 2001, and August 28, 2003, when EPA formally denied a petition seeking regulation of greenhouse gas emissions from new motor vehicles under the Clean Air Act, extending to the Agency's defense of that decision before the U.S. Court of Appeals for the D.C. Circuit and the U.S. Supreme Court.

I am seeking access to these documents in support of my research on the history of a Supreme Court case, Massachusetts v. EPA, decided by the Court in April 2007. For this same reason, I would like to request a fee waiver for the associated costs. The exclusive purpose of my research is in support of an academic publication, most likely a book for a general audience, that I believe will be of significant interest and value to the public. The Massachusetts case is one of the most significant environmental law decisions handed down by the U.S. Supreme Court. And my aim is to tell the story of that case in a manner that highlights for the public the challenges of both environmental lawmaking and Supreme Court advocacy. I have published significant scholarship on similar topics. See <http://www.law.harvard.edu/faculty/rlazarus/index.html>,

Please also know that I would be pleased to speak with anyone in your office or any relevant office at EPA about possible ways to make the processing of my request easier and more convenient for those involved. I can certainly travel to DC to review documents in person if that would be helpful and expedite matters.

Requesting documents related to the Paris Climate Change Conference held from November 29 to December 13, 2015.

Requesting documents prepared in connection with the 42nd session of the Intergovernmental Panel on Climate Change (IPCC), which took place on October 5-8, 2015 in Dubrovnik, Croatia.

See attached

National Freedom of Information Officer U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2822T) Washington, DC 20460 (202) 566-1667 This is a request under the Freedom of Information Act. I request that a copy of the following documents be provided to me: Beginning January 1, 2009, any and all analysis, peer review, peer analysis, correspondence, emails, graphs, bar graphs and charts regarding the proposed Protective Action Guides for radiological Incidents. Please include but do not limit documents with the following senders / recipients: • Gina McCarthy, Administrator, US EPA • Susan Stahle, Attorney-Advisor Air and Radiation Law Office, US EPA • Douglas Ammon, Site Assessment and Remedy Decisions Branch Chief, US EPA • Sara DeCair, Health Physicist, US EPA • Charmagne Ackerman, Environmental Engineer at EPA • John Cardarelli, Health Physicist, US EPA • Stuart Walker, Superfund remedial program National Radiation Expert at US EPA • Carrie Wehling, Assistant General Counsel at US EPA • Carrie Wehling, Assistant General Counsel, US EPA • Charles A. Openchowski, General Attorney, US EPA In order to help to determine my status to assess fees, I am a representative of the news media affiliated with the NBC News Bay Area and this request is made as part of news gathering and not for a commercial use. To Whom It May Concern:

I'm a reporter with Reuters News in New York.

We would like to request via the Freedom of Information Act any and all communications between the U.S. Environmental Protection Agency and members of industry, representatives from the White House, or members of Congress regarding the Renewable Fuel Standards program since May 1, 2014.

I expect the fee to be waived as I am a member of the press, employed full-time by Reuters, the world's largest news organization. The disclosure of these documents will inform the public record and contribute to public understanding of the issue. Neither I nor my employer have any commercial interest in the disclosure of the information sought.

Additionally, please provide the responsive records on a rolling basis and in an electronic format by email instead of paper records, where possible.
Please see attached letter for a description of the request.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to and copies of e-mails and documents sent between the Environmental Protection Agency and employees, executives or directors at Volkswagen AG regarding a technology that turns off emission controls in diesel-equipped VW Beetle, Golf, Jetta and Passat and Audi A3 models for sale in the U.S. in the model years 2009-2015. I am requesting correspondence covering the period from Aug. 1, 2015 to the present ("the Records"). This request is ongoing, seeking copies of (or access to) all Records as they are filed with the Environmental Protection Agency. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. I am a reporter for Bloomberg News, an accredited and recognized news-gathering organization. I request the Records to inform the public about matters of public concern. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Please waive all applicable fees. In the event a fee waiver is not granted, I agree to pay reasonable fees for the Records, including actual costs up to \$250. If you estimate that actual costs will exceed this amount, please contact me so that I may make the appropriate arrangements for payment.

Dear FOIA Officer: This is a request for records made under applicable provisions of the Freedom Of Information Act (5 U.S. Code § 552). On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board and Volkswagen met to discuss diesel vehicle emissions. I seek copies of: • Records produced for and collected from that meeting. These may include, but are not limited to, agendas, list of attendees, minutes, memos, power-point presentations and photographs. This information is being sought for dissemination to the general public in the process of news gathering, and I request, if appropriate, fees be waived, as I believe this request is in the public interest. If fees are imposed, please limit them to reasonable standard charges for document duplication, as these records are not sought for commercial use. Please notify me if fees are expected to exceed \$100. If you withhold any parts of these records from disclosure, please specify in a written response the legal and factual basis for doing so. If you have any questions about this request, or believe there are any ambiguities in the way in which it is framed, please let me know as soon as possible. I can be reached via phone at (303) 443-4441 or via email at peter.bigelow@ex. 6 I look forward to a response from you under the applicable timeline required by law, and appreciate your attention to this request.
Sincerely, Pete Bigelow Reporter | AOL 3723 Ryan Drive Dexter, Michigan 48130

I request disclosure from the EPA Office of Air and Radiation and the Air and Radiation Law Office any and all correspondence, which includes but is not limited to letter, emails, text messages, reports, memos, with Volkswagen and officials and executives from Volkswagen between January 1, 2015. I request EPA search all of its systems of record to locate responsive records. If you regard these documents as potentially exempt from disclosure requirements, I request that you nonetheless exercise your discretion to disclose them. Please release all reasonably segregable nonexempt portions of documents. If you deny all or any part of this request, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the law. I request the documents and records be provided to me in electronic format if possible. I am an investigative reporter for VICE News covering a wide-range of issues, including Guantanamo, national security, counterterrorism, civil liberties, human rights, and open government. Additionally, my reporting has been published in the The Guardian, The Wall Street Journal, The Financial Times, Salon, CBS Marketwatch, The Los Angeles Times, The Nation, Truthout, Al Jazeera English and Al Jazeera America.

Dear FOIA Officers, this is a request for records made under applicable provisions of the Freedom Of Information Act (5 U.S. Code § 552). On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board and Volkswagen met to discuss diesel vehicle emissions. I seek copies of all records produced for and collected from that meeting. These may include, but are not limited to, invitations, agendas, list of attendees, minutes, memos, power-point presentations, photographs and videos. This information is solely being sought for dissemination to the general public in press publications, and I kindly request that fees be waived, as I believe the information from this request will greatly further the general public's understanding of the government's handling of the Volkswagen case. If fees are imposed, please limit them to reasonable standard charges for document duplication, as these records are not sought for commercial use. Please notify me if fees are expected to exceed \$200. If you withhold any parts of these records from disclosure, please specify in a written response which documents you have excluded. If you have any questions about this request, or if doubts arise as to the exact specifics of it, please let me know as soon as possible. I can be reached via phone at my Berlin office +49-30-22882500 or via email at johngoetzberlin@ex.6. I look forward to a response from you under the applicable timeline required by law, and greatly appreciate your efforts in this matter. With best regards from Berlin, John Goetz

Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I am seeking documents of correspondence between the EPA and the automaker Volkswagen AG discussing the Clean Air Act violations that were made public on September 18, 2015. I have heard that the EPA contacted VW in early September about these violations, so I am asking for all records pertaining to communication between the EPA and VW in August and September 2015. I am requesting these files as a member of the news media. If any expenses in excess of \$50 are incurred in connection with this request, please obtain my approval before any such charges are incurred. I will expect a response within 20 working days as provided by law. If my request is denied in whole or in part, I expect a detailed justification for withholding the records. I also request any segregable portions that are not exempt to be disclosed. Thank you for your prompt attention to this matter.

EPA-HQ-2015-011283 Michael J. Ravnitzky

09/30/2015 OAR

I am filing this Freedom of Information Act request on behalf of USA TODAY. I am seeking complete copies of the following documents from Jan. 1, 2014 through Sept. 24, 2015: --Any correspondence (including emails) between the EPA (including the Office of Air & Radiation and the Office of Transportation & Air Quality) and Volkswagen (including emails) regarding emissions testing and performance of Volkswagen's diesel cars. --Any correspondence (including emails) between EPA's OAR and OTAQ and Volkswagen regarding software for emission control devices on Volkswagen's diesel cars. Where possible, please provide any copies in an electronic format pursuant to 5 U.S.C. § 552(a)(3)(B)-(C). In the event that this request yields a large volume of responsive material, I further ask that you provide the records on a rolling basis as they are located, rather than waiting to make one release. I certify that the foregoing is true and correct to the best of my knowledge and belief. As you know, the FOIA, in 5 U.S.C. § 552(a)(6), grants an agency no more than twenty working days in which to respond to this request. See *Oglesby v. U.S. Dep't of Army*, 920 F.2d 57, 65 (D.C. Cir. 1990). I therefore look forward to your prompt reply.

Under the applicable provisions of the Freedom of Information Act (5 U.S. Code § 522), I hereby request access to and/or copies of the following documents, which are filed with, retained by, or prepared by the U.S. Environmental Protection Agency (EPA): Letters, emails or other correspondence between Jan. 1, 2014 and Sept. 28, 2015 located in the office of: Director of the Office of Transportation and Air Quality Christopher Grundler; Manager of Diesel Engine Compliance Center, Compliance Division, Office of Transportation and Air Quality Justin Greuel; Air Enforcement Division Attorney Meetu Kaul; and Air Enforcement Division Office of Civil Enforcement Director Phillip A. Brooks containing the terms "Volkswagen" or "VW" or "Audi" or "West Virginia" or "WVU" or "International Council on Clean Transportation" or "ICCT" or "Traverse" or "TC" or "Asilomar" or "Pacific Grove" or "Wolfsburg" or "Stuart Johnson" or "Oliver Schmidt" or "IAV" or "TDI" or "CARB" or "diesel" or "defeat device" or "nitrogen oxide" or "nox" or "defeat device" or "dual control" or "notice of violation" or "NOV." I also seek calendar entries for meetings or telephone calls between EPA officials and Volkswagen officials during the above-referenced time frame. In addition, I specifically seek copies of records produced for or collected from a Sept. 3, 2015 meeting or telephone conference call between officials from EPA, Volkswagen and the California Air Resources Board to include, but not be limited to, agendas, a list of attendees, minutes, memos, power-point presentations, photographs, letters, emails, videos, audio recordings and other correspondence or records. Please refer to Pres. Obama's 01/21/2009 Memo concerning FOIA, in which he states: All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA.

Requesting a copy of all letter correspondence between Volkswagen and EPA concerning passenger automobiles during the time period May 1, 2015 to present.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to and copies of communications or other documents sent between the Environmental Protection Agency (EPA) and Eastern Research Group that refer to Volkswagen from January 1, 2014 to the present ("the Records"). This request is ongoing, seeking copies of (or access to) all Records as they are filed with the EPA. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. I am a reporter for Bloomberg News, an accredited and recognized news-gathering organization. I request the Records to inform the public about matters of public concern. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Please waive all applicable fees. In the event a fee waiver is not granted, I agree to pay reasonable fees for the Records, including actual costs up to \$250. If you estimate that actual costs will exceed this amount, please contact me so that I may make the appropriate arrangements for payment. FOIA requires that your agency respond to this request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

Freedom of Information Act Request Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and relevant U.S. Environmental Protection Agency ("EPA") regulations set forth in 40 C.F.R. Part 2, subpart A, I am writing on behalf of my client, Christina D. Storz, to request all correspondence, data and documents related to EPA's September 18, 2015 Clean Air Act Notice of Violation ("2015 NOV") issued to Volkswagen AG, Audi AG, and Volkswagen Group of America (collectively referred to herein as "VW") alleging violations of the Clean Air Act ("CAA"), 42 U.S.C. §§ 7401-7671q (and related implementing regulations) and § 7522(a)(1) stemming from the alleged installation of "defeat devices" in VW automobiles. Because the specified categories of requested documents is extensive, the entire FOIA request is included in the attached document. The scope of this FOIA request is broad and should be interpreted to cover all of EPA offices nationally, including, without limitation, EPA Headquarters, EPA's Office of Transportation and Air Quality ("EOTAQ"), any EPA Regional office, and EPA's National Vehicle and Fuel Emissions Laboratory ("NVFEL"). It also is intended to request any responsive documents that are otherwise in the possession or control of any EPA officials, employees, consultants, or agents. This request is time sensitive. For that reason, please produce responsive, non-privileged documents as soon as they are available rather than waiting until all the responsive documents have been collected. I have included a copying charge limit of \$3,000 but that is not a firm cap. I would request, however, that EPA contact me if copying charges are expected to exceed that amount before those charges are incurred. And if you have any questions or wish to discuss narrowing this request in some manner, please feel free to give me a call. William J. Moore, III (904) 685-2172 wmoore@wjmlaw.net

Requesting all documents relating to evaluations or assessments conducted or obtained by EPA regarding Volkswagen Group of America, Inc.'s installation of "defeat devices" in certain Volkswagen and Audi vehicles sold in the United States, as described in the Notice of Violation issued on September 18, 2015.

Please see the attached letter.

Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq ("FOIA"), I request copies of (or access to) documents, pertaining to Volkswagen (hereafter referred to as "the Records"), specifically: (1) All records between the Environmental Protection Agency and Volkswagen from January 1, 2014 to the present. (2) Records between the Environmental Protection Agency and the International Council on Clean Transportation from January 1, 2014, to the present. (3) Records between the Environmental Protection Agency and West Virginia University's (WVU) Center for Alternative Fuels, Engines & Emissions, from January 1, 2014, to the present. (4) Records of emails from Justin Greuel, Manager, Diesel Engine Compliance Center, Compliance Division, OTAQ, containing the words "Volkswagen" or "VW" from January 1, 2014, to the present. (5) Records of emails from Christopher Grundler, Director of the Office of Transportation and Air Quality, and that contain the words "Volkswagen" or "VW" from January 1, 2014, to the present. (6) Meeting minutes from all meetings between EPA staff and Volkswagen staff from January 1, 2014, to the present, including all records produced and collected by EPA from a meeting and conference call held on Sept. 3, 2015. (7) Records containing the words "Oliver Schmidt" and "Volkswagen" from January 1, 2014, to the present. (8) Records containing the words "Stuart Johnson" and "Volkswagen" from January 1, 2014, to the present. Correspondence, in all cases above, is defined as written correspondence, which includes, but is not limited to electronic correspondence, such as text messages and email. I am a reporter for The New York Times, an accredited and recognized newsgathering organization. I request the Records to inform the public about matters of public concern. I further request that you produce the records on a rolling basis as they are located.

Under the applicable provisions of the Freedom of Information Act (5 U.S. Code § 522), I hereby request access to and/or copies of the following documents, which are filed with, retained by, or prepared by the U.S. Environmental Protection Agency (EPA): Letters, emails or other correspondence between Sept. 18, 2015 and Oct. 14, 2015 located in the office of Director of the Office of Transportation and Air Quality Christopher Grundler; Air Enforcement Division Attorney Meetu Kaul; Air Enforcement Division Office of Civil Enforcement Director Phillip A. Brooks; and Acting Administrator for the Office of Air Quality Janet McCabe containing one or more of the following terms: "auxiliary emissions control device," "AECD," "2016," "certification," "application," "defeat device," "withdraw," "withdrawing," "MY16," "2.0 TDI," "warmup," "Stuart Johnson," "Oliver Schmidt" or "Michael Horn." I specifically seek correspondence related to Volkswagen's Sept. 29 disclosure to EPA of an AECD in MY2016 2.0 TDI vehicles and subsequent Oct. 7 withdrawal of its application for certification of MY2016 2.0 TDI vehicles. I also seek calendar entries and minutes for meetings or telephone calls between EPA officials and Volkswagen officials during the above-referenced timeframe. Please alert me immediately to any records that excluded by law under this request. Please provide me the requested documents via email at this address: mike.spector@wsj.com. Sincerely, Mike Spector The Wall Street Journal

I wish to see any correspondence between the agency and Volkswagen over its plans to introduce to the US market for the first time for the 2009 model year diesel-engine vehicles with Lean NOx Trap (LNT) emissions-control technology. The technology was first introduced on the Jetta in 2008. I am particularly interested in any explanations EPA sought from Volkswagen over how this unique technology would work and any explanations that Volkswagen provided. VW is the only carmaker to have offered emissions control via a Lean NOx Trap on the US market. All other vehicles on the market use some form of the chemical urea to break down the emissions, in a system sometimes known as Selective Catalytic Reduction.

I wish to see the correspondence between the EPA and Volkswagen around spring 2014 where the EPA first informed Volkswagen about its concerns about emissions from its diesel-powered, four-cylinder engines and VW's reply to those concerns.

I wish to see the correspondence between the EPA and Volkswagen surrounding the EPA's decision - delivered on around July 20 2015 - to refuse certification for VW's 2016 model year diesels. I understand that the correspondence continued in various forms until September 3, 2015, when VW admitted its misconduct over emissions controls.

Dear EPA FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. §552 et seq. ("FOIA"), I request copies of or access to the records specified below: 1. All documents and communications regarding Volkswagen AG or Volkswagen Group of America (or any other subsidiary or entity related to Volkswagen AG), (collectively, "VW") created, sent or received after January 1, 2008 related to vehicle emissions, emissions testing, diesel engines, VW's vehicles containing such engines, regulatory compliance and recalls (VW's diesel engines include the following model numbers: EA189; EA288. Relevant EPA test groups include: 9VWXV02.035N; 9VWXV02.0U5N; AVWXV02.0U5N; BVWXV02.0U5N; CVWXV02.0U5N; CVWXV02.0U4S; DVWXV02.0U5N; DVWXV02.0U4S; EVWXV02.0U5N; EVWXV02.0U4S; FVGAV02.0VAL); 2. Meeting minutes from all meetings and conference calls between EPA employees or agents and VW employees or agents from January 1, 2008 to the present; and 3. All records produced or collected by EPA at the September 3, 2015 meeting or conference call between representatives of EPA and VW. I request that you produce the requested records on a rolling basis as they are located, instead of a single release. Further, this request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. If you withhold any part of the requested records from disclosure, you must specify in a written response the factual and legal basis for the withholding. Additionally, I request you provide the records on computer files in the same format as they are currently maintained at EPA. I agree to pay reasonable fees for the records, including actual costs up to \$1000. If you estimate that actual costs will exceed this amount, please contact me so that I may make appropriate arrangements for payment. Thank you for your assistance, and please contact me with any questions or further information.

This is a public records request. On behalf of The New York Times, I request a copy of e-mails and attachments to/from regulators in Europe since Jan 1, 2011. The e-mail traffic on the European side should include the following exchanges: @kba.de, @ec.europa.eu, @dft.gsi.gov.uk, @bmvi.bund.de, @vca.gov.uk, @rdw.nl I am willing to pay applicable fees for the documents. If you need to contact me I am available at the numbers and e-mail listed below.

Requesting all documents (tangible and electronic) sent to and received from (i) Volkswagen Group of America, Inc. and (ii) Volkswagen Group AG related to the installation of "defeat device" software in Volkswagen vehicles with TDI diesel engines. I respectfully request copies of all correspondence, email, memos, meeting or phone call minutes between (or within) the Environmental Protection Agency and the White House, Office of Management and Budget, or oil refining companies -- e.g., Chevron or HollyFrontier -- or their employees or representatives on the subject of 45 USC 7545(o)(7)(F) Modification of applicable volumes [of the Renewable Fuel Standard], also known as the "RFS reset provision," the "mandatory reevaluation of volumes," or "statutory triggers";

Under the applicable provisions of the Freedom of Information Act (5 U.S. Code § 552), I seek copies of records produced for or collected from meetings and/or telephone or video conference calls between officials from EPA, Volkswagen, Audi and the California Air Resources Board, that occurred on Nov. 19, 2015 and Nov. 20, 2015. The meetings in question relate to the agencies' ongoing investigation into VW and Audi's use of defeat device software in 2.0- and 3.0-liter diesel passenger cars sold in the United States. I hereby ask that any materials provided by FOIA include, but not be limited to, agendas, a list of attendees, minutes, memos, power-point presentations, photographs, letters, emails, videos, audio recordings and other correspondence or records. Please refer to Pres. Obama's 01/21/2009 Memo concerning FOIA, in which he states: All agencies should adopt a presumption in favor of disclosure. Please provide records and materials released in response to this request in electronic format whenever possible. All released materials can be e-mailed to me at rbeene@crain.com, or mailed to Crain Communications Inc., 529 14th St. NW, Washington, D.C. 20045. Sincerely, Ryan Beene 202-662-7216

Requesting any and all response that EPA has received from Volkswagen regarding EPA's September 18, 2015 Notice of Violation Letter attached as Exhibit 1, plus 19 additional requests.

All correspondence with Volkswagen AG, Audi AG, and Volkswagen Group of America, Inc and any employees of the EPA, as listed; and all communication with West Virginia University's (WVU) Center for Alternative Fuels, Engines & Emissions or the International Council on Clean Transportation concerning results of the study that found significantly higher in-use emissions from a 2012 Volkswagen Jetta and 2013 Volkswagen Passat.

This is a Freedom of Information Act request seeking information related to the Volkswagen Diesel Emissions Violations issued in September of 2015. Specifically, this inquiry seeks all correspondence with Volkswagen between May 1, 2015 and September 30, 2015, and the following EPA employees: Byron Bunker, Linc Wehrly, Jim Snyder, David Wright, David Good, Joel Ball, Joel Dalton, Lynn Sohacki, Bill Pidgeon, Phillip Brooks, Evan Belser and Meetu Kaul.

Would like to receive meeting materials and documents and presentations on Volkswagen's emissions scandal for all the involved two liter and three liter diesel cars. I am a reporter with Germany's business daily HANDELSBLATT in New York, covering all things Volkswagen. I strongly feel it's in the public interest to know what really happened in the meetings since the company keeps stonewalling.

I previously requested communication documents between the EPA and VW from August and September 2015, as that was when I thought the EPA became aware of VW's "defeat device." I would still like those documents, but the lawsuit filed by the DOJ this month shows that the EPA was first aware of questions about VW's diesel emissions in late 2014. Therefore, I would also like to request any communications between the EPA and VW that took place in May and June 2014 regarding questions about the automaker's diesel emissions. It appears from the lawsuit that the vehicles that initially caused questions to be raised were a 2012 Jetta and a 2013 Passat that were being tested by the Center for Alternative Fuels, Engines & Emissions at West Virginia University and the California Air Resources Board. These two organizations came to the EPA with their findings and the EPA went to VW. Therefore, I am also requesting the initial communications from WVA and CARB to the EPA regarding questions about VW's diesel emissions. These should also have taken place in May 2014. This request is being made pursuant to the Freedom of Information Act (5 U.S.C. § 552) for articles that will be made available to the public via my website AutoblogGreen as well as potentially other means. Both physical and digital copies of the requested files will be accepted.

I need to obtain copies of all responses by Volkswagen AG, Audi AG, Volkswagen Group of America to EPA regarding ongoing VW/Audi TDI diesel emissions scandal/recall. I am seeking documents that VW admits it altered the software on the cars to meet EPA emission testing standards.

Requesting copy of all records that constitute or memorialize communication or contact between the U.S. Environmental Protection Agency and the German government (including but not limited to its representatives and its staff), related to Volkswagen's cheating on emissions testing, including consideration of any civil or criminal prosecution against Volkswagen. The Volkswagen emissions cheating scandal to which this request relates is summarized in a January 5, 2016, article in the New York Times, "How Volkswagen Got Away With Diesel Deception," by Karl Russell, et al., and available at <http://nyti.ms/ljQyOC6>.

I'd like to request all documents involving the Volkswagen emissions investigation sent by the company to the Environmental Protection Agency after September 1, 2015. Feel free to contact me if there are any questions. Best, Matt

Requesting copies of all documents and materials in the possession, custody or control of the U.S. Environmental Protection Agency (the "EPA") compiled in connection with investigations or informal inquiries into Volkswagen Group ("Volkswagen AG"), Volkswagen Group of America ("Volkswagen US"), and any subsidiaries or affiliated entities (together with Volkswagen AG and Volkswagen US, "Volkswagen"), including Volkswagen's executive officers and/or directors, to the extent such documents relate to the nitrogen oxide ("NOx") and/or carbon dioxide ("CO2") emissions levels of Volkswagen-produced vehicles including "turbocharged direct injection" (or "TDI") diesel engines.

Under the applicable provisions of the Freedom of Information Act (5 U.S. Code § 522), The Associated Press asks for electronic copies documents created by or sent to the U.S. Environmental Protection Agency (EPA) in regards to Volkswagen's use of a so-called defeat device to illegally pass U.S. emissions standards. This should include, but not be limited to, letters, emails or other correspondence between Jan. 1, 2014 and Sept. 24, 2015 located in the office of: Director of the Office of Transportation and Air Quality Christopher Grundler; Air Enforcement Division Attorney Meetu Kaul; and Air Enforcement Division Office of Civil Enforcement Director Phillip A. Brooks containing the terms "Volkswagen" or "VW" or "Audi" or "West Virginia" or "WVU" or "International Council on Clean Transportation" or "ICCT" or "Traverse" or "TC" or "Asilomar" or "Pacific Grove" or "Wolfsburg" or "Stuart Johnson" or "Oliver Schmidt" or "diesel" or "defeat device" or "nitrogen oxide" or "nox" or "defeat device" or "dual control" or "notice of violation" or "NOV." Please also provide calendar entries for meetings or telephone calls between California Air Resources Board officials and Volkswagen officials during the above-referenced time frame. In addition, I specifically seek copies of records produced for or collected from a Sept. 3, 2015 meeting between officials from EPA, Volkswagen and the California Air Resources Board to include, but not be limited to, agendas, a list of attendees, minutes, memos, power-point presentations, photographs, letters, emails and other correspondence. Also please provide all documents related to in-use emissions testing conducted by the EPA and/or submitted to the EPA by manufacturers Volkswagen, Daimler and BMW for light-duty diesel vehicles from 2009 until the present. Please do not hesitate to contact me with any questions about this request.

Requesting a copy of each email that contains the word FOIA in the computer email system of Justin Greuel, Manager, Diesel Engine Compliance Center, Compliance Division, Office of Transportation and Air Quality dated between September 1, 2015 and March 1, 2016. Requesting copy of each email that contains the word FOIA in the computer system of Christopher Grundler, Director of the Office of Transportation and Air Quality, dated between September 1, 2015 and present.

Detail

I would to obtain a copy of: -contract and any contract mods -all task orders -task order completion reports - quarterly management summary reports; in regards to HUMAN STUDIES RESEARCH SUPPORT FOR ENVIRONMENTAL EPIDEMIOLOGIC STUDIES contract#EPD12050.

We would like documents related to contract EPG11D00056 off the ITS-EPAII BPA that was awarded to CGI for NETWORK AND SECURITY OPERATIONS and funded by EPA OFFICE FOR ENVIRONMENTAL INFORMATION (OEI) We would like the contract and any modifications to the contract and if any associated delivery/task order documents. We would also like the all solicitation documents related to the this award including but not limited to any and all letters, instructions, SOW, appendices, RFQ body, etc.

- Description:

- Any and all documents, exact, true, unaltered, unedited, machine, photo static, and electronic copies of:
- • A: Job postings, position opening advertisements, job descriptions, interview questioners, interview documentations, notes of interviews, emails, voicemail, text messages, notes of telephone conversations, videos, documents of any discussion among the panel members, documents showing names of panel members, documents and policy requirement regarding selection of interviewing panel members for any and all GS-13 positions which have been hired/ promoted and interviewed, documents, persons who were selected for these position and their applications, resumes, qualification statements, and their emails and notes of telephone conversations re: the positions that they have been promoted, in Region 4 from January 1, 2010 to and including the date of production.
- • B: Employment related complaints from any and all employees against USEPA- Region 4 and against any and all managers in Region 4 from January 1, 2010 to and including the date of production,
- • C: Case files of Anthony Shelton v. USEPA (R4), MSBP AT-0432-08-07222-A, and any and all matters related to Anthony Shelton which gave rise to MSBP complaint.

Thanks!

Provide all documents (including but not limited to self evaluations written by any non-supervisory attorney seeking a promotion, memoranda submitted by the attorneys' management, memoranda prepared by Headquarters such as approval memoranda and position evaluation statements) regarding all attorney promotions to, or placements into, non-supervisory Grade GS-15 status since October 31, 2009. Include the dates of each attorney promotion to, or placements into, non-supervisory Grade GS-15 status since October 31, 2009.

Detail

Pursuant to the Freedom of Information Act, I am requesting a copy of the complete registration files, with the exception of confidential data, for the pesticide products Magnolia Black Algaecide (EPA Reg. No. 86145-5) and Magnolia 1" or 3" Chlorinating Tablets (EPA Reg. No. 86145-7). No data are being requested; therefore, FIFRA Section 10 (g) does not apply. No affirmation of multinational status will need to be filed.

Requesting all correspondence between EPA staff members and managers and staff members and managers of the California Department of Pesticide Regulation related to the registration of methyl iodide, also known as iodomethane between January 1, 2001 and the present, etc.

My organization would like to request copies of all of the attached MRID reports for Glyphosate. Please also send any Data Evaluation Records or Reports (DERs) associated with these MRIDs. I already searched for publicly available records with no success on the Office of Pesticide Programs Chemical Search page. We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov.

Please also find attached, affirmations of non-multinational status individuals who may see the document. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.

My organization would like to request copies of the attached MRID reports for 2,4-Dichlorophenoxyacetic Acid (2,4-D). Please also send any Data Evaluation Records or Reports (DERs) associated with these MRIDs. We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov .

Please also find attached affirmations of non-multinational status individuals who may see the documents. If anyone else needs to see the documents we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.

Requesting copies of all documents, data, and things in the possession, custody, or control of the Environmental Protection Agency ("EPA") related to the application to register MIR162 maize (EPA File Symbol 67979-RU), etc. This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and USDA and any unit within USDA related to the Pesticide Data Program testing program for 2014-2015. The relevant time frame is December 1, 2014 through today's date. The Pesticide Data Program (PDP) is a national pesticide residue monitoring program and produces a pesticide residue database that enables the U.S. Environmental Protection Agency to assess dietary exposure.

Please see attached letter with a request for information on Glyphosate. If you have any questions, please call (212) 558-5991.

All documents related to the Federal Insecticide, Fungicide, and Rodenticide Act registration review for glyphosate, Case No. 178. Please see attached letter.

All documents related to the FIFRA registration review for glyphosate, Case No. 178, and the Endangered Species Act (ESA). Please see the attached letter.

My organization would like to request copies of the attached 170 MRID reports and any associated Data Evaluation Records or Reports (DERs) for TRIBUFOS (CASRN 78-48-8). Please only send the original MRIDs for studies that have DERs associated with them (we need both the original plus the DER for our purposes). We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov. Please find attached affirmations of non-multinational status individuals who may see the documents. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.

My organization would like to request copies of the attached MRID reports and any associated Data Evaluation Records or Reports (DERs) for bromomethane (CASRN 74-83-9). Please only send the original MRIDs for studies that have DERs associated with them (we need both the original plus the DER for our purposes). We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov. Please find attached affirmations of non-multinational status individuals who may see the documents. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.

Please provide a copy of all data, studies, analyses, communications, reports and information regarding trifluralin from January 1, 1962 through December 31, 1964, including, without limitation, the data set forth on the attached document entitled, "Trifluralin Data Submitted to the EPA."

We respectfully request information in the Environmental Protection Agency's ("EPA") possession or control concerning the recently announced revised testing procedures of glyphosate residue levels in foods as part of the Food and Drug Administration's ("FDA") Pesticide Residue Monitoring Program ("Program"). Specifically, we request copies of the following documents and/or materials:

- Any documents, materials, and/or communications concerning glyphosate tolerance levels.
- Any documents, materials, and/or communications concerning potential health risks from dietary exposure to glyphosate.
- Any documents or materials identifying the foods the FDA tests, or will test, for glyphosate residue levels under the recently announced revised Program.
- Any documents, materials, and/or communications concerning the safety or health risks of glyphosate residue in domestic and imported foods, including but not limited to documents, materials, and/or communications relating to the Compliance Program (CP) 7304.004, "Pesticides and Industrial Chemicals in Domestic Foods."
- Any documents, materials, and/or communications concerning the Food Safety and Inspection Service's ("FSIS") increased testing of samples to assess the risks of pesticides.
- Any documents, materials, and/or communications with the FDA concerning the testing of glyphosate residue levels.
- Any documents, materials, and/or communications with the Government Accountability Office ("GAO") concerning the testing of glyphosate residue levels.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received by EPA personnel dealing with the draft risk assessment for glyphosate between March 19, 2015 and the current date, along with any correspondence or communications that reference "IARC." A search for such documents should include correspondence with personnel at Monsanto Co. This FOIA seeks information that includes EPA's work to determine if human breast milk contains glyphosate residues, reviews of epidemiology evaluations related to glyphosate and glyphosate's toxicity to milkweed.

I request e-mail traffic related to "glyphosate" and/or the glyphosate review process to/from the following people: Jess Rowland and Karlyn Middleton, the chair and co-chair of the Cancer Assessment Review Committee, as well as Charles Smith (Chief, Risk Assessment Branch I, Health Effects Division), and Khue Nguyen, chemical review manager. The time period covered should be May 1, 2015 through today. Thanks

Requesting information relevant to the "CARC Final Report" (EPA, "Glyphosate: Report of the Cancer Assessment Review Committee," (October 1, 2015)).

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between personnel in EPA's Office of Pesticides Programs referring to the Cancer Assessment Review Committee's Oct. 1, 2015 final report, "Cancer Assessment, EVALUATION OF THE CARCINOGENIC POTENTIAL OF Glyphosate." The relevant time frame is Jan. 1, 2015 through May 5, 2016.

Requesting Certain Agency Records re: Glyphosate.

Requesting all documents and records of communication of any kind, including but not limited to email communications, authored or received by all members of the Cancer Assessment Review Committee (CARC) who signed or were otherwise involved in preparation of the report entitled Cancer Assessment Document: Evaluation of the Carcinogenic Potential of Glyphosate (the "Report").

Please see the attached letter requesting information regarding the Cancer Assessment Review Committee on Glyphosate

This is a request for all documents, communications, internal to EPA and/or between EPA staffers/officials and the Food & Drug Administration and/or Monsanto staffers/officials and/or GIPSA regarding testing for residues of glyphosate herbicide in or on food, food products, grains, etc... The FDA announced in February 2016 it's intent to do such testing and this request covers communications leading up to and subsequent to that announcement, a period from January 1, 2014 through today's date of July 5, 2016. I am asking specifically for all emails with the subject line "glyphosate," "glyphosate proposal" (quotation marks added, not to be included in search) and emails with subject line "glyphosate testing" (again quotations added). Search words include, but are not limited to, glyphosate, residue(s), testing, breast milk, Chris A. Sack, "Glyphosate Discussion with Beyond Pesticides" (quotations not to be part of search) David Miller, Diana Haynes, Charles Smith and/or Charles "Billy" Smith, Terry Councell and Jason Vanfossan at GIPSA and Thomas Weber at GIPSA.

This is a continuation of FOIA requests for on an ongoing project. I am making request for these documents: 40541301 and 40541302Bodden, R.; Patanella, J.; Feng, P. (1988) Volume 1: Metabolism Study of Synthetic ¹³C/Carbon 13/Carbon 14--Labeled Glyphosate and Aminomethylphosphonic Acid in Lactating Goats: Laboratory Project No. HLA 6103-113: MSL-7458. Unpublished study prepared by Monsanto Co. 129p. 40541302 Bodden, R.; Feng, P.; Patanella, J. (1988) Volume 2: 40541303 Metabolism Study of Synthetic ¹³C/Carbon 13/Carbon 14--Labeled Glyphosate and Aminomethylphosphonic Acid in Laying Hens: Laboratory Project No.: HLA 6103-112: MSL-7420. Unpublished study prepared by Monsanto Co. 126p. 00027235 00028852 00028853 00033954 00036222 00036223 00036229 00036231 00036328 Monsanto Company (1979) Analytical Residue Method for N-Phosphonomethylglycine (Glyphosate) and Aminomethylphosphonic acid in Sugarcane, Bagasse, Raw Sugar and Molasses. (Unpublished study received Dec 28, 1979 under 524-332; CDL:099157-B) 00039377 00039381 00040083 00040084 00040085 00040086 00040087 00044422 00044423 00044426 Summary of Glyphosate (Roundup) Residue Studies in Citrus Fruit and Processed Fractions. (Unpublished study received Jan 26, 1976 under 6G1734; submitted by Monsanto Co., Washington, D.C. CDL:095065-A) Conkin, R.A.; Hannah, L.H.; Stewart, E.R. (1975) Residue Data for Roundup on Rice and in Fish. (Unpublished study received Sep 26, 1975 under 6H5106; submitted by Monsanto Co., Washington, D.C.; CDL:094900-C) Kramer, R.M.; Arras, D.D.; Beasley, R.K.; et al. (1975) Final Report on CP 67573 Residue and Metabolism: Agricultural Research Report No. 372. (Unpublished study received Sep 25, 1975 under 6G1679; prepared in cooperation with Washington State Univ. and others, submitted by Monsanto Co., Washington, D.C.; CDL: 095355-A) Monsanto Company (1975) Storage Stability of Field Residue Samples and Glyphosate-14C Treated Crops. (Unpublished study received Aug 13, 1975) I am seeking clarification as to why US EPA removed what appeared to be a final risk assessment of glyphosate by CARC in May 2016. I would like to see the document that was posted online marked "final" and any subsequent emails, letters, documentation that pertains to its removal online. I would like to see any communications with industries with a financial interest in glyphosate that preceded or followed the removal of the online document. I am also asking for a fee waiver. Glyphosate and its regulation is in the public interest. I am the medical/health producer for the local CBS station in San Francisco. Thank you.

This is a request for all documents, communications or other records created by or received by EPA employees pertaining to glyphosate between the dates of March 1, 2015 and today's date, Sept. 19, 2016. I specifically request that you look for email communications created and/or emailed and/or received by EPA employees David Miller, and/or Rick Keigwin, and/or Charles Smith, and/or Khue Nguyen, and/or David Hardy, and/or Neil Anderson, and/or Michael Goodis, and communications, including emails, received within the agency from Monsanto official Dan Jenkins and/or JENKINS, DANIEL J.

See attached

My organization would like to request copies of the attached MRID reports and any associated Data Evaluation Records or Reports (DERs) for the pyrethroids listed (fenpropathrin, fluvalinate, fenvalerate, gamma-cyhalothrin, tefluthrin). We really mostly need the original MRID studies AND their associated DERs (we need to review both the original study plus the DER for our purposes). Not all of the studies in the list have MRID numbers listed. If this is a problem, please let me know and I can try to track down the numbers. We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov. Please find attached affirmations for non-multinational status individuals who may see the documents. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. Thank you.

Hello - Ecolab Inc. would like to request a copy of the study and DER for MRID 438573-01. The acute inhalation study was done on technical phosphoric acid. The study was submitted by CSMA and was listed in a 1996 memorandum by Mark Perry regarding "Acute Toxicity Profile for Phosphoric Acid Containing Products Addressed in the Mineral Acids RED." Thank you, Nicole

Attached files should list requested MRID studies/files.

All records and correspondence related to the Environmental Protection Agency's Registration Decision for the New Active Ingredient Flupyradifurone (Docket ID: EPA-HQ-OPP-2013-0226-0044).

All records and correspondence related to the Environmental Protection Agency's Registration Decision for the New Active Ingredient Bicyclopnyrone (Docket #: EPA-HQ-OPP-2014-0355).

Requesting information related to EPA's language requirements for pesticide labeling under FIFRA and EPA's Spanish Labeling Pilot Project.

Any and all email messages of Jack Housenger, director, Office of Pesticide Programs; Marty Monell, deputy director for management, Office of Pesticide Programs; Robert McNally, director, Biopesticides and Pollution Prevention Division; Dana Vogel, acting director, Health Effects Division; Donald Brady, director, Environmental Fate and Effects Division; Susan Lewis, director, Registration Division; that refer to the use of pesticide products on marijuana plants, from January 1, 2014 to present.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. Please see attached FOIA request document for additional detail.

All documents related to APHIS's Regulated Letters of Inquiry located at:

http://www.aphis.usda.gov/wps/portal/?1dmy&urile=wcm%3Apath%3A/aphis_content_library/sa_our_focus/sa_biotechnoogy/sa_regulations/ct_reg_loi

Specifically, CFS requests the following:

- 1.) Any correspondence including emails, letters, and all documents including attachments regarding any of the Regulated Letters of Inquiry, the process, or issues raised by the letters.
- 2.) Any notes taken regarding any correspondence (phone calls, casual or formal conversations, letters, or emails), meetings, internal or external deliberations and conclusions discussing any of the Regulated Letters of Inquiry, the process, or issues raised by the letters.

"All documents" includes but is not limited to all correspondence, minutes, memoranda, communications, maps, plans, drawings, emails, reports, databases, and phone notes. This request includes all documents that have ever been within your custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files currently or at any other time.

Under the Freedom of Information Act (FOIA) (5 U.S.C. §552), we are writing to request a copy of records located within the Registration Division of the Office of Pesticide Programs (OPP) supporting the statement in EPA's Fact Sheet that the mode of action for the active ingredient Mono- and di-potassium salts of phosphorous acid (PC Code 76416) "appear to increase the effectiveness of the plants' defense mechanisms." If EPA can state this in their Fact Sheet for PC Code 76416, we anticipate that EPA came to this conclusion based on a review of scientific data. We wish to obtain a copy of EPA's scientific review which summarizes the type of data EPA reviewed to arrive at this conclusion. A copy of EPA's Fact Sheet is attached for your reference and is also available at:

http://www.epa.gov/pesticides/chem_search/reg_actions/registration/fs_G-133_04-April-00.pdf. To the extent there is a delay in production, please provide materials on a rolling basis.

The Center for Biological Diversity requests all records that are maintained, possessed, controlled, and/or generated by the Environmental Protection Agency ("EPA") that concern the following: 1. The EPA's Conditional Registration Decision for the New Active Ingredient Benzovindiflupyr (Docket #: EPA-HQ-OPP-2013-0141). 2. The application to register the new active ingredient cuprous iodide and the EPA's Proposed Registration Decision for the New Active Ingredient Cuprous Iodide (Docket #: EPA-HQ-OPP-2013-0433).

Received email from the requester. Requester modified request. They withdrew the portion of their request for the registration jacket of EPA Registration Number 67690-34. Requester wishes to receive Reg files 67690-30 and 67690-31.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request all non-confidential information in EPA's Office Of Pesticide Programs Registration Division "registration jacket" for the EPA Registration Number 67690-30; 67690-31 and 67690-34. Please contact me at (212) 702-5464 or via email if you have any questions or concerns. I authorize costs up to \$100 associated with copy and review time to prepare this request. Please let me know if the costs will exceed this amount.

Please see attached. Requester is seeking the following registration files: 68850-1; 81824-4 & -6; 82957-3; 83923-1, -5, -6 & -13.

Bayer is requesting a copy of the registration jacket for EPA product # 42519-27 excluding any product chemistry or other information designated as confidential business information as per FIFRA Sec. 10.

Please see attached FOIA request.

Please see attached document.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and Monsanto Company related to the EPA's Framework to Delay Corn Rootworm Resistance during the time period of January 1, 2015 through February 29, 2016.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and Syngenta related to the EPA's Framework to Delay Corn Rootworm Resistance during the time period of January 1, 2015 through February 29, 2016.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and Dow AgroSciences related to the EPA's Framework to Delay Corn Rootworm Resistance during the time period of January 1, 2015 through February 29, 2016.

The Center requests all records relating to the fungicide flutianil (referenced in the docket EPA-HQ-OPP-2015-0817).

The Center requests all records related to use of dicamba on genetically engineered crops, and/or specifically pertaining to the docket EPA-HQ-OPP-2016-0187 for "Dicamba: New Use on Herbicide-Tolerant Cotton and Soybean."

Please see attached letter.

Releasable File jacket for EPA Reg. No. 6959-33

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request a copy of the response to FOIA case number EPA-HQ-2017-001753, including a copy of the original request and any related correspondence between EPA and the original requester. I authorize costs up to \$50 associated with copy and review time to prepare this request.

Please let me know if the costs will exceed this amount.

Please send me the Data Evaluation Reports (DERs) for the studies listed in the attached document. Thanks!

Under the provisions of the Freedom of Information Act, 5 U.S.C. 552, we are requesting copies of the following documents submitted in support of TOLCIDE PS50A (EPA Reg. No. 4564-17):

- 1) Administrative portion of the submission documents; and,
- 2) Data Evaluation Reports (DERs) for MRIDs 46718400, 46718401, 46718402, 47124200, 47124201, 47360200, 47360201 (details attached)

No copies of study data are being requested; therefore, FIFRA Section 10 (g) does not apply and no affirmation of multinational status will need to be filed.

I hereby authorize the expenditure of no more than \$100 to obtain the requested documents. If the cost is expected to exceed the aforementioned amount, please contact me for further authorizations. The Taxpayer Identification Number for our firm is 52-198-0148.

A copy of the requested documents can be sent to my attention at the address provided below:

Lewis & Harrison, LLC
122 C Street NW, Suite 505
Washington, DC 20001

If you have any questions about the aforementioned request, please contact me at 202-393-3903 x11 or wmccombie@lewisharrison.com.

Again, we appreciate anything you can do to quickly process and respond to our FOIA request.

Sincerely,

Wendy A. McCombie
Lewis & Harrison, LLC

Requesting the cleared portions of the registration jacket for Captan Technical (EPA Reg. No. 66330-31). This FOIA request is for the registration jacket, which includes any administrative documents such as data matrices, cover letters, memos, forms, releasable DER's, etc. for the following registration number:

Advantage 9 Topical Solution, EPA Reg. No. 11556 – 116

This FOIA request is for the registration jacket, which includes any administrative documents such as data matrices, cover letters, memos, forms, releasable DER's, etc. for the following registration number:

K9 Advantix Small Dog, EPA Reg. No. 11556 – 132

All data evaluation records (DERs) and other review documents concerning the following MRID numbers (pesticide mancozeb): 45570301, 45708301, 45836401, 45888101, 45888102, 45888103, 45888104, 46145401, 46462901, and 47486102.

I would like to obtain all EPA registration documents and reviews for the following product:

COMPANY: Melaleuca Inc

EPA REGISTRATION NUMBER: 66251-2

PRODUCT NAME: SBT 2 TO 1 CONCENTRATE

ALTERNATE NAME: Sol-U-Guard Botanical 2X Concentrate Disinfectant

Re: Freedom of Information Act (FOIA) Request
EPA Pesticide Registration
No. 041301 - Cycloate

Dear Sir or Madam:

Pursuant to the provisions of the Freedom of Information Act, 5 U.S.C. § 552, we are requesting one copy of all records in possession of the U.S. Environmental Protection Agency relating to the following pesticide registration:

Registered Product - Cycloate
Company Name & Address - Zeneca, Inc., 1800 Concord Pike, Wilmington, DE 19897
Active Chemical Code - 041401

Specifically, we are interested in records pertaining to applications, correspondence, registrations, studies and/or technical documents, and USEPA reports or statements relevant to the above pesticide registration.

If it appears that these records are voluminous, prior to copying we would request an opportunity to review these documents, or, in the alternative, request a copy of a printout specifying the documents in your possession.

If there are fees involved for searching or copying the records we have requested, please notify us of the amount required.

If any part of this request is denied, please cite the exception. Additionally, if for any reason you are not in possession of the information requested, please so advise, indicating where such information can be obtained.

Please send all documents in the EPA file for EPA Registration Number 8996-9

EPA Reg. No. 66243-1 - Odo-Ban RTU

EPA Reg. No. 66243-2 - Odo-Ban

As the designated EPA Agent for Clean Control Corporation we are requesting the following documents for the above two registrations.

- All EPA DER's and evaluations.

In particular, Product Chemistry, Toxicity and Efficacy reports

This request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA"

Requesting a copy of all materials relating to PZP as well as relating to the Pesticide Fact Sheet for PZP. Also requesting a copy of the petition that Friends of Animals has filed against using Porcine Zona Pellucida (PZP) on wild horses and burros.

I'm looking for the following documentation:

MR ID# 418436-01

The science reviews for a product called "Aqua-Fyte"

The experimental use permit application for "Aqua-Fyte"

Please produce records of the following types in EPA's possession, custody or control that are related to the planning and execution of the August 2015 in vitro training(s) for EPA's Office of Pesticides Program (OPP), which was led by industry representatives. We ask that you provide records from the training itself, as well as all preceding conversations related to planning and holding the training(s).

Please send them on a rolling basis; EPA's search for- or deliberations concerning- certain records should not delay the production of others that EPA has already retrieved and elected to produce.

Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request all non-confidential information in EPA's Office Of Pesticide Programs Registration Division "registration jacket" for the EPA Registration Number 71049-2; 71049-1; 71049-3 and 71049-4. Please contact me at (212) 702-5464 or via email if you have any questions or concerns. I authorize costs up to \$100 associated with copy and review time to prepare this request. Please let me know if the costs will exceed this amount. Sincerely, s/Sandra Fischer

Dear EPA freedom of information office, I am requesting documents which contain the following information for the period January 2015 to the most recent date available: 1. All correspondence (including emails) between the EPA and the following organisations on the issue of neonicotinoids - Bayer AG; Syngenta; Cornerstone; Olsson Frank and Weeda; East End Group; Gerhardt Group; Greenberg Traurig LLP; Rafaniello and Associates; Staton Park Group; Competitive Enterprise Institute; Exponent. 2. List of meetings with detailed minutes and any other reports of such meetings between the EPA and Bayer AG; Syngenta; Cornerstone; Olsson Frank and Weeda; East End Group; Gerhardt Group; Greenberg Traurig LLP; Rafaniello and Associates; Staton Park Group; Competitive Enterprise Institute; Exponent. 3. All correspondence (including emails) between the EPA and the following organisations - U.S. Senate Committee on Environment and Public Works and the Subcommittee on Environment - in which neonicotinoids were discussed. 4. List of meetings with detailed minutes and any other reports of such meetings between the EPA and the following organisations - U.S. Senate Committee on Environment and Public Works and the Subcommittee on Environment - in which neonicotinoids were discussed. If you wish to clarify any part of this request please contact me either by email or telephone Kind regards, Joe Sandler Clarke

Dear FOIA officer, I'm writing to you to make the following request. I would like copies of correspondence, meeting agendas, minutes from meetings between representatives of the US EPA and the following people and organisations: • Bayer CropScience; • Health Canada • Smithers Viscient • Cynthia Scott-Dupree, Maryam Sultan, Andrew McFarlane and other representatives of the School of Environmental Sciences, University of Guelph • Larry Brewer and other representatives of Smithers Viscient, Carolina Research Center • Christopher Cutler and other representatives of the Department of Environmental Sciences, Faculty of Agriculture, Dalhousie University. Regarding the experiment design and conclusions of the following scientific paper – “A large-scale field study examining effects of exposure to clothianidin seed-treated canola on honey bee colony health, development, and overwintering success”, between the following dates: • January 2012 – July 2012 • August 2014 – December 2014 Many thanks, Joe
I am requesting all documents related to the 1991 PCB transformer removal including reports sent to EPA by Ball-InCon, Notices of Violation on NOV responses and any correspondence from Ball-InCon or USEPA concerning the matter.

Subpoena regarding any and all Reports, Supplements, Studies, Evaluations, Recommendations made concerning the Pratt & Whitney facility in Palm Beach County, Florida, as well as records concerning contamination of the environment or monitoring of such contamination at the Corbett National Wildlife Refuge in Palm Beach County, Florida. Requesting access to and copies of the complete EPA Chemical List including any and all information pertaining to each chemical.

I would like the results provided electronically to the email address provided. The records for which I am requesting are limited to safety studies ON IMMUNOCOMPROMISED SUBJECTS ONLY, such as those on immune modulators, chemotherapy or have an immune deficiency, or are extreme elderly, newborn or have a chronic disease process; and exposure to *Bacillus thuringiensis*. There are safety studies found on *Bacillus thuringiensis* and normal mammals, but could not find any studies on the safety of *Bacillus thuringiensis* on the immunocompromised.

Information requested below is for the pesticide product EPA Reg. No. 9480-4, PDI SANI-CLOTH GERMICIDAL WIPES.

Request for Product Efficacy Data Evaluation Records/Reports (DERs) for EPA Reg. No. 9480-4, PDI SANI-CLOTH GERMICIDAL WIPES.

Request for information and records obtained under the Federal Insecticide, Fungicide and Rodenticide Act for EPA Reg. No. 9480-4, PDI SANI-CLOTH GERMICIDAL WIPES. The areas of specific interest are Pesticide Efficacy Studies, Efficacy Summaries, Product Performance Studies, Product Performance Summaries, and EPA Letters or EPA Notifications related to antimicrobial efficacy, performance, or claims. Request may also relate to information and records obtained by the EPA under the Pesticide Registration Improvement Extension Act (PRIA).

This request does not encompass any information which may be entitled to confidential treatment, or which otherwise may be exempt from disclosure under FOIA.

Dear Madam or Sir:

This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents – except for the actual study reports - related to certain data submissions by the The Dow Chemical Company's ("Dow") for Glutaraldehyde (Chemical Code: 43901). These data submissions are identified in the table set forth below by Master Record Identification Numbers (MRIDs) and the information Dow requests includes, but is not limited to, correspondence, internal memoranda, reports, Data Evaluation Reports (DERs), notes, or other records.

45913414	46645706	46751501	47582802

Dow is the original data submitter and owner of the test data and study reports about which information is sought by way of this request. Accordingly, a review for Confidential Business Information is not necessary.

We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$250. If I may be of any assistance with this matter, please do not hesitate to contact me at (989) 636-1884. Thank you in advance for your assistance.

Update: On behalf of Pesticide Action Network of North America ("PANNA"), we hereby submit the following clarification for item 2(a) of our request. Our request is for the actual "LifeStage" PBPK model code that is repeatedly referred to as available in the February 15-18, 2011 Scientific Advisory Panel meeting minutes. The request with this clarification is reproduced below.

Please see attached. We request: 1. Please provide the following documents related to ethoprop: a. "Determination of Exposure to Mixer-Loaders and Applicators Who Handle Ethoprop During the Application of MOCAP EC Nematicide-Insecticide to Potatoes," MRID 45621501. 2. Please provide the following documents cited in Chlorpyrifos: Revised Human Health Risk Assessment for Registration Review, EPA-HQ-OPP-2008-0850-0195: a. Dow AgroSciences, Dow Chemical Company Battelle Pacific Northwest National Laboratory. (2011). Source-to-Outcome Modeling Physiologically Based Pharmacokinetic/Pharmacodynamic (PBPK/PD) Model linked to a Dietary Exposure Model: Chlorpyrifos as a Case Study. Prepared for the FIFRA Scientific Advisory Panel meeting on February 15-18, 2011 meeting: <http://www.epa.gov/scipoly/sap/meetings/2010/index.html>. This request includes the actual "LifeStage" PBPK model code that is repeatedly referred to as available in the February 15-18, 2011 meeting minutes. b. Dow AgroSciences (2014a). Memo from Paul Price dated October 1, 2014. Additional PBPK modeling to estimate 1% RBC AChE inhibition levels from simulated exposures to chlorpyrifos. c. Dow AgroSciences (2014b). Memo from Paul Price dated October 29, 2014. Development of Chemical Specific Adjustment Factors for Chlorpyrifos and Chlorpyrifos Oxon Using Target Red Blood Cell Acetyl Cholinesterase Inhibition Levels of 10%, 5%, and 1%. 3. Please provide the following related to the drinking water assessment in Chlorpyrifos: Revised Human Health Risk Assessment for Registration Review, EPA-HQ-OPP-2008-0850-0195: a. Any a

Requesting copies of the DERs for the studies owned and submitted by Warwick International Group.

A copy of the full registration jacket for FIFRA registration no. 88783-3, a sulfentrazone registration held by Summit Agro USA, LLC.

The Center requests the following records from the Environmental Protection Agency ("EPA"): 1. All records containing and/or explaining the EPA's decision to register the pesticide product "AcuronTM Flexi," EPA Reg. No. 100-1568; 2. All records demonstrating that the public had notice of the application to register and/or the proposed registration of the pesticide product "AcuronTM Flexi," EPA Reg. No. 100-1568; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register the pesticide product "AcuronTM Flexi," EPA Reg. No. 100-1568; 4. All records containing information and/or data that the EPA relied upon in deciding to register the pesticide product "AcuronTM Flexi," EPA Reg. No. 100-1568, mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. bicyclopyrone and mesotrione; and/or b. bicyclopyrone and S-metolachlor; and/or c. mesotrione and S-metolachlor; and/or d. bicyclopyrone and mesotrione and S-metolachlor; and/or e. bicyclopyrone when mixed or co-applied with any other chemical or combination of chemicals; and/or f. mesotrione when mixed or co-applied with any other chemical or combination of chemicals; and/or g. S-metolachlor when mixed or co-applied with any other chemical or combination of chemicals; and/or h. any possible combination of bicyclopyrone, mesotrione and/or S-metolachlor when mixed or co-applied with any other chemical or combination of chemicals.

The Center requests the following records from the Environmental Protection Agency ("EPA"): 1. All records containing and/or explaining the EPA's decision to register the pesticide product "THX/MXM/FLD/TBZ/SDX FS,"; 2. All records demonstrating that the public had notice of the application to register and/or the proposed registration of the pesticide "THX/MXM/FLD/TBZ/SDX FS,"; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register the pesticide product "THX/MXM/FLD/TBZ/SDX FS,"; 4. All records containing information and/or data that the EPA relied upon in deciding to register the pesticide product "THX/MXM/FLD/TBZ/SDX FS," mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. thiamethoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or b. fludioxonil when mixed or co-applied with any other chemical or combination of chemicals; and/or c. sedaxane when mixed or co-applied with any other chemical or combination of chemicals; and/or d. thiabendazole when mixed or co-applied with any other chemical or combination of chemicals; and/or e. mefenoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or f. any possible combination of thiamethoxam, fludioxonil, sedaxane, thiabendazole and/or mefenoxam; and/or g. any possible combination of thiamethoxam, fludioxonil, sedaxane, thiabendazole and/or mefenoxam when mixed or co-applied with any other chemical or combination of chemicals. 5. All records demonstrating that the applicant/registrant, Syngenta Crop Protection, LLC, has satisfied the conditions of the conditional registration of the pesticide product "THX/MXM/FLD/TBZ/SDX FS," or that the aforementioned product is no longer conditionally registered.

The Center requests the following from EPA: 1. All records containing and/or explaining the EPA's decision to register "A21185B"; 2. All records demonstrating that the public had notice of the application to register and/or the proposed registration of A21185B; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register A21185B; 4. All records containing information and/or data that the EPA relied upon in deciding to register A21185B mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. thiamethoxam when mixed or co-applied with any other chemical or combination of chemicals; b. fludioxonil when mixed or co-applied with any other chemical or combination of chemicals; c. sedaxane when mixed or co-applied with any other chemical or combination of chemicals; d. difenoconazole when mixed or co-applied with any other chemical or combination of chemicals; e. mefenoxam when mixed or co-applied with any other chemical or combination of chemicals; f. cytokinin when mixed or co-applied with any other chemical or combination of chemicals; g. gibberellic acid when mixed or co-applied with any other chemical or combination of chemicals; h. indole butyric acid when mixed or co-applied with any other chemical or combination of chemicals; i. any possible combination of thiamethoxam, fludioxonil, sedaxane, difenoconazole, mefenoxam, cytokinin, gibberellic acid and/or indole butyric acid; and/or j. any possible combination of thiamethoxam, fludioxonil, sedaxane, difenoconazole, mefenoxam, cytokinin, gibberellic acid and/or indole butyric acid when mixed or co-applied with any other chemical or combination of chemicals. 5. All records demonstrating that Syngenta Crop Protection, LLC, has satisfied the conditions of the conditional registration of A21185B, or that the product is no longer conditionally registered. All Data Evaluation Records (DERs) and other EPA reviews of the following studies concerning the pesticide pyraclostrobin: 47734201, 47747201, 45429902, 45437001, 45443001, 45455101, 45473101, 45473102, 45508601, and 45578101.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request a copy of the response to FOIA case number EPA-HQ-2017-002214, including a copy of the original request and any related correspondence between EPA and the original requester. I authorize costs up to \$50 associated with copy and review time to prepare this request. Please let me know if the costs will exceed this amount.

Requesting records or portions thereof pertaining to any studies or complaints of dog and cat spot-on treatments containing the pesticide fipronil from January 1, 2008 to present.

I would like to have all science reviews and regulatory actions related to pesticides that are exempt from the requirement of registration under section 25b of the Federal Insecticide, Fungicide and Rodenticide Act.

The requester seeks all available information regarding adverse effects of topical flea and tick products on dogs and cats. The requester seeks all enhanced adverse effects reports filed with EPA during calendar year 2014. A listing of the EPA registered products with EPA Registration Numbers is attached as a file.

To Whom it May Concern, I'm a Ph.D. candidate at Stanford University, and I'm trying to find data on which companies had registrations for a given pesticide in 1996. So for example, I'd like to be able to see which companies had registrations for pesticides containing 2,4-D in 1996 (even if that registration was subsequently cancelled). I would like this information for a little under 90 pesticides. The list of pesticides is attached. Thank you for your consideration.
Sincerely, Rebecca Perlman

All documents relating to a request made by FMC Corporation to EPA in or about December 2014 asking EPA to reevaluate Willowood, LLC's registration of Clomazone 3ME ("FMC's Request"), including without limitation: (a) FMC's Request including all exhibits and attachments and any supplemental submissions; (b) All communications between FMC and EPA concerning FMC's Request, including without limitation: a. All letters and emails; b. Notes, memoranda or agendas of, and presentations made at, any meetings between FMC and EPA; c. Whether EPA considered and treated FMC's Request to be a Petition to Revoke, Cancel or Suspend Willowood's Clomazone 3ME registration; d. EPA's reported denial of FMC's Request in February 2015; e. FMC's subsequent request or requests for more information including an FOIA requests it submitted; f. EPA's response or responses to FMC's requests for more information, including all documents provided by EPA in response to FMC's requests for more information; g. All communications between FMC and EPA concerning FMC's request for reevaluation after FMC's receipt of the response to its requests for more information, including emails and letters as well as any notes, memoranda or agendas of, and presentations made at, any meetings between FMC and EPA.

We, Critical Path Services, U.S. Agent of Belchim Crop Protection, request all Registration Jackets for Syngenta (Company Number 100) products containing PYRIDATE. We request that this includes all administrative materials, especially the data matrices. Thank you.

Requesting records relating to EPA's regulation of bear deterrent pepper spray.

All records demonstrating that the public had notice of the application to register and/or the proposed registration of the pesticide "CruiserMaxx Vibrance Pulses,"; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register the pesticide product "CruiserMaxx Vibrance Pulses,"; 4. All records containing information and/or data that the EPA relied upon in deciding to register the pesticide product "CruiserMaxx Vibrance Pulses," mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. thiamethoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or b. fludioxonil when mixed or co-applied with any other chemical or combination of chemicals; and/or c. sedaxane when mixed or co-applied with any other chemical or combination of chemicals; and/or d. thiabendazole when mixed or co-applied with any other chemical or combination of chemicals; and/or e. mefenoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or f. any possible combination of thiamethoxam, fludioxonil, sedaxane, thiabendazole and/or mefenoxam; and/or g. any possible combination of thiamethoxam, fludioxonil, sedaxane, thiabendazole and/or mefenoxam when mixed or co-applied with any other chemical or combination of chemicals. 5. All records demonstrating that the applicant/registrant, Syngenta Crop Protection, LLC, has satisfied the conditions of the conditional registration of the pesticide product "CruiserMaxx Vibrance Pulses," that the aforementioned product is no longer conditionally registered.

Requesting documents related to 2, 4-D includes 2,4-Dichlorophenoxyacetic acid and all of its variations.

Requesting records from December 27, 2011 to date between EPA and any non-governmental organizations concerning petition 09-233-01p to the US Dept of Agriculture from Dow AgroScience LLC seeking a determination of nonregulated status of corn designated as DAS-40278-9.

Freedom of Information Act Request – pesticide: cyantraniloprole

New Active Ingredient Insecticide Formulated as a Technical Product and Fourteen End Use Products (Docket No. EPA-HQ-OPP-2011-0668):

Requesting DERs for studies relating to Pirimiphosmethyl.

Requesting copies of all DERs for the studies relating to Chlorpyrifosmethyl.

FOIA request for poisons Rozol and Kaput.

Please consider this to be ONE request - to headquarters and various regions, and not four separate requests based on the cumbersome structure of this website.

I am formally requesting the inert ingredients of the following pesticides and their adjuvants: 1. Accord Concentrate – Dow Agriscience - Epa No. 62719-324 Main ingredient Glyphosate 2. Nufarm Polaris Herbicide –EPA Reg. No. 228-534 Active ingredient - Imazapyr 3. Optima – by Helena Chemical, CA Reg No. 5905-50075-AA I am also requesting whether the presence of dioxin was found in these products, the amount, type and parts per million, (ppm). I am also requesting whether any testing done revealed additional ingredients and/or any and all other ingredients not found on the labels or inert ingredient list.

Fee waiver requested in the attached. All records are in electronic form and we request them provided in electronic form.

Requesting documents involving the regulatory approval for several Syngenta corn seed biotechnology traits and products for which Syngenta applied for and received EPA approval.

Requesting all non-confidential records within the Office of Pesticide Programs for FIFRA Section 6(a)(2) reports related to genetically engineered corn rootworm, and copies of all materials related to the reports.

Requesting a copy of records regarding a herbicide called Imprelis, sold by E.I. DuPont de Nemours and Company, as specified in request (forwarded from EPA Region 3)

Requesting all documents pertaining to Imprelis (EPA Reg. No. 352-793) and/or the active ingredient aminocyclopyrachlor that have previously been released in response to FOIA requests.

Requesting copies of documents compiled to respond to FOIA requests regarding "Imprelis" .

Requesting documents related to EPA and DuPont regarding Imprelis.

Requesting a copy of all studies or records referenced or cited in the EPA Order Denying NRDC's Petition to Revoke Tolerances for 2,4-D.

Requesting a copy of records regarding bee kill incident investigation results regarding any form of neonicotinoid pesticide exposure from January 1, 2012 to September 7, 2012; and, records regarding change of any "conditional registration" of use of clothianidin or thiamethoxam to a full or unconditional active registration; as described in request

Requesting the applications for amendments regarding spot-on flea products labels.

Please see attachment

The Center for Food Safety (CFS) is a 501(c)(3) nonprofit organization that addresses the impacts of our current industrial food production system on human health, animal welfare, and the environment. Consistent with this mission and pursuant to 7 C.F.R. § 370.1 and the Freedom of Information Act, 5 U.S.C. § 552, respectfully request the following information, which is believed to likely be within the Office of Pesticide Programs:

Under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), 7 U.S.C. §136 et seq., for all EPA-approved uses of the neonicotinoid pesticide imidacloprid:

A) Pesticide Incident Reports: Since 2011, inclusive, all memos, correspondence, emails, incident reports, supporting information, telephone records, notes or other documentation regarding bee mortality, beneficial insect mortality, threatened or endangered species mortality, hive loss, excess disease or other incidents alleged to result from acute or chronic exposure to imidacloprid including such reports that were included in EPA's Ecological Incident Information System (EIIS) database and such reports that were not included in the EIIS, and regardless of the country of origin of the report.

B) 6(a)(2) Reports. Section 6(a)(2) of FIFRA requires registrants to report information indicating adverse effects of an EPA-approved pesticide. Please provide all such reports received for imidacloprid and provide all EPA requests to registrants for additional scientific information, memos, correspondence, emails, records, opinions, supporting information, telephone records, notes or other documentation related to such 6(a)(2) reports.

C) Investigative Reports. All investigative reports submitted to EPA on any of imidacloprid's impacts on bees, other insects, birds or other wild animals.

D) Mammalian Toxicity: All published and unpublished research of the effects of imidacloprid on mammalian species, including but not limited to humans.

Pursuant to the Freedom of Information Act (FOIA, 5 U.S.C. § 552), please provide us with all Data Call-ins (DCIs) issued from the Environmental Protection Agency (EPA) to ethylenebis dithiocarbamate (EBDC) fungicide registrants from January 2007 through the present. In addition, we request copies of all correspondence between EPA and ethylenebis dithiocarbamate (EBDC) registrants related to such DCIs.

We are interested in receiving this information on a rolling basis, and would like to have the DCIs as soon as possible, with copies of available correspondence to follow.

We agree to pay reasonable search and reproduction costs. Please let me know if costs are likely to exceed \$200. I request all communications including emails, notes from phone calls, and written correspondence between EPA and any parties in industry or other agencies pertaining to, or which were relied on when setting, the agenda for the March 5, 2013 "Pollinator Summit" held by EPA.

Ref.: http://www.epa.gov/oppfead1/cb/csb_page/updates/2013/pollin-summit.html

I would like to receive the human health related adverse effects reported for the following two products:

1. DeeDee 1, EPA Reg. No. 4822-547 (Antibacterial Scrubbing Bubbles XXI Bathroom Cleaner)
2. LYSOL BRAND FOAMING DISINFECTANT BASIN TUB & TILE CLEANER II, EPA Reg. No. 777-71

(1) Acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam were all conditionally registered and EPA required the registrants to submit supplemental data. Please provide all records that were submitted to EPA to support the registration of each of those listed pesticides (including the date that they were submitted to EPA) and all accompanying Data Evaluation Records for each of the pesticides based on the data required for the conditional registration. The attached supplemental document lays out the specific data that EPA required and to which this request is limited. NRDC seeks the studies and DERs themselves, not just the MRID numbers.

(2) Please provide all decision documents that reflect EPA's decisions about the status of the registration for each of the following pesticide active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(3) Please provide all studies submitted to EPA relevant to evaluating potential impacts to bees or other pollinators with each of the following pesticides active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam.

(4) Please provide all cumulative and aggregate assessments conducted that include one or more of the following pesticide active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(5) Please provide all records regarding the registration of nithiazine and Nitenpyram.

To the extent possible, please provide the response in electronic form on CD to reduce cost and minimize use of materials.

Please see attached letter.

To EPA's FOIA Officer:

The Center for Food Safety (CFS) is a 501(c)(3) nonprofit organization that addresses the impacts of our current industrial food production system on human health, animal welfare, and the environment. Consistent with this mission and pursuant to 7 C.F.R. § 370.1 and the Freedom of Information Act, 5 U.S.C. § 552, I, Larissa Walker, on behalf of CFS, respectfully request the following information, which is believed to likely be within the Office of Pesticide Programs:

Please provide the following information:

- All information related to a "bee/crop attractiveness study" being conducted by the Bayer company
- All information related to a "Neonicotinoid Pollinator Residue Study" that may still be ongoing or may have been recently completed.

CFS requests this information in light of the President's "Memorandum for the Heads of Executive Departments and Agencies" dated January 21, 2009, which states:

The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails...In responding to requests under the FOIA, executive branch agencies (agencies) should act promptly and in a spirit of cooperation, recognizing that such agencies are servants of the public. All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA. The presumption of disclosure also means that agencies should take affirmative steps to make information public.

Exec. Memorandum for the Heads of Executive Departments and Agencies, 74 Fed. Reg. 4,683 (Jan. 21, 2009). This request is being sent to the EPA FOIA officer with the understanding that it will be forwarded to other officers, offices, or departments with information pertinent to this request.

Freedom of Information Act Request—neonicotinoid pesticides, information responsive or related to 7/22/13 and 8/15/2013 EPA letters to registrants

PRODUCT PERFORMANCE (EFFICACY) AND POLLINATOR STEWARDSHIP INFORMATION

Please provide a detailed list (Excel format preferred) that includes brand name, manufacturer (with contact information), MSDS information, and EPA registration information for antimicrobial pesticides approved for use for hard surfaces, food and drinking water that contain any or all of the following components: copper, silver, grapefruit seed extract, glycerin. If antimicrobial efficacy data were submitted as part of the registration process are available, please include those reports.

If you need any clarification, please contact me:

Any communication between representatives of chemicals/biotechnology firms (including Ciba-Geigy, Dow, Dupont, Monsanto, Calgene, BASF, Bayer and others) and EPA staff concerning the establishment of the framework/s for the regulation of agricultural biotechnology in its various iterations.

Any communication between chemical and biotechnology trade associations and the EPA concerning the frameworks (in their various iterations) for the regulation of agricultural biotechnology.

ALL EPAOPP records with my name associated since 1999 accident EPA caused with faked sciences!!!! Mark Hartman says I was "put into the system" in about 2001? or 2002? and to not worry!!! what slop...!!! FAXES to region 6 and all the other faxes, emails, and all the other "internal" EPA fascist stuff...esp. if they gave any of my data to corps. and ALL NPIC records as EPA contractor...they NPIC EPA contractor, withhold medical information for over \$800 to Oregon State University...losers...fake sciences...

William J. Asprey or Bill Asprey

These folks are criminals...move if u live near industrial ag...eat organic if u r pregnant...good life...

Please see attached FOIA request regarding EPA's consideration of future use restrictions on neonicotinoid seed treatments.

See attached FOIA request and Appendices A and B.

Please see attached PDF for description of FOIA request.

Relevant to FOIA Request Control # EPA-HQ-2014-001477 and EPA-HQ-2014-001478 we seek copies of the EPA's response these FOIA request case numbers and a copy of the original requests, and any other correspondence between EPA and requestor Jensen K. Sass. REFERENCE FGI # 43775

Request a copy of all communications, electronic or otherwise, between your agency and the Monsanto Company regarding Genetically Modified Food and/or GMOs. This will include, but not be limited to emails, letters, memos, etc.

1. Copies of the eighteen (18) reports submitted by E.I. du Pont Nemours and Co. to the Environmental Protection Agency regarding the herbicide, Imreliis;
 2. Copies of the trial studies, research and data submitted by E.I. du Pont Nemours and Co. to the Environmental Protection Agency regarding the herbicide, Imreliis;
 3. A copy of the Consent Agreement and Final Order between the Environmental Protection Agency and E.I. du Pont Nemours and Co. regarding the herbicide, Imreliis;
 4. Copies of all correspondence, emails or other communications between E.I. du Pont Nemours and Co. and the Environmental Protection Agency regarding the herbicide, Imreliis;
 5. A copy of the entire file maintained by the Environmental Protection Agency relating to E.I. du Pont Nemours and Co. and the herbicide, Imreliis; and
 6. Copies of all documents relating to the Environmental Protection Agency's decision to ban the herbicide, Imreliis.
- Please see attached FOIA request

Requesting copies of all documents that include or relate to any written or oral communication between the Copper Development Association (CDA) or its representatives and EPA, including the Office of Pesticide Programs (OPP), Office of General Counsel (OGC), and Office of Enforcement and Compliance Assurance (OECA), regarding any product manufactured by Cupron or its affiliate EOS Surfaces, LLC.

This request pertains to the Consent Agreement and Final Order (CAFO) between EPA and DuPont re: the Imreliis Herbicide (copy of CAFO is attached). I seek (i) all EPA internal reports or similar documents discussing and/or evaluating the eighteen (18) studies DuPont withheld, as listed in paragraph 19 of the CAFO and (ii) DuPont submissions to the EPA discussing or explaining the 18 studies and why it withheld them. Be advised: I do NOT seek any CBI-protected information at this time. Thank you.

This relates to my currently pending FOIA request, EPA-HQ-2015-006197. In this supplemental request, I also seek all communications/correspondence between EPA and DuPont regarding the (i) Consent Agreement and Final Order (CAFO) (copy of CAFO is attached) and (ii) eighteen (18) studies DuPont withheld, as listed in paragraph 19 of the CAFO. As before: I do NOT seek any CBI-protected information at this time. Thank you.

We hereby request a copy of any and all documents on file with the Office of Pesticide Programs (OPP) related to Stewardship Plans designed to support the responsible use of Antimicrobial Copper products. Please note that such a plan was required by EPA and subsequently implemented by the COPPER DEVELOPMENT ASSOCIATION (EPA Company Number 82012).

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. ("CNN"); requests access to and copies of (in pdf form, where possible) all documents related to investigations involving the pest control company Terminix and fumigation(s) in which adverse health consequences or potential adverse health consequences occurred. This should not include documents related to the recent investigation of a fumigation incident in March 2015 involving methyl bromide in the Virgin Islands. This should include documents related to all other investigations involving Terminix and fumigation(s) before or after this time.

all reports, studies, investigations or analysis of the herbicide Alachlor and its effects on humans and the environment.
all correspondence and communications with Monsanto Company and any of its affiliates regarding its manufacture of any products containing Alachlor, including, but not limited to Lasso.

Please See Attached Request

Please see the attached.

The Center requests all records that are maintained, possessed, controlled, and/or generated by the U.S. Environmental Protection Agency's ("EPA") relating to EPA's recent discovery that information included in pesticide patents, such as for the Enlist Duo™ product and also for other pesticides, is not being presented to EPA in applications to register pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. §§ 135-136y, as amended ("FIFRA"). This request includes, but is not limited to, any records regarding the content of patent applications, the failure of registrants to provide this information to EPA, EPA's reaction or responses to this discovery, and any information regarding enforcement actions considered or taken.

Please see attached.

P.J. Huffstutter Staff Writer Thomson Reuters/Reuters News 311 S. Wacker Drive Suite 1200 Chicago, IL 60606 Dear Freedom of Information Office: I am an agriculture reporter at Thomson Reuters/Reuters News and I am reporting on a series of stories focused on the U.S. agrochemical and seed industry. The purpose of this letter is to request copies of documents and records pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and applicable U.S. Environmental Protection Agency (EPA) regulations, 40 C.F.R. §§ 2.100-2.406. The types of records I seek include, but are not limited to: 1. All records pertaining to the synergistic effects, or potential synergistic effects, between the active ingredients glyphosate and 2,4-D in the herbicide Enlist Duo. 2. All communications (including records communicated, and documentation of communications) between EPA and Dow Chemical Co or Dow AgroSciences Inc. (Dow) relating to the synergistic effects, or potential synergistic effects, between glyphosate and 2,4-D. 3. All communications between Dow and EPA, starting October 2014, pertaining to the EPA's registration of Enlist Duo. 4. All communication between Dow and EPA pertaining to the withdrawal of registration of Enlist Duo. 5. All communications between Dow and EPA, and internal EPA communications, relating to human health risks and environmental impacts posed by a synergistic effect between glyphosate and 2,4-D . Please mail all related information and documents to my attention at the Thomson Reuters address: 311 S. Wacker Drive, Suite 1200, Chicago, IL 60606. I look forward to receiving your prompt response. Sincerely - PJ Huffstutter

1. A list of all pesticides approved by EPA then later rescinded. 2. A list of all carbaryl studies performed on birds in Willapa Bay and Grays Harbor. 3. The date EPA allowed human markers on the Willapa Bay and Grays Harbor tideflats during aerial pesticide spraying. 4. The date EPA banned the above practice. 5. Copies of any complaints filed by people exposed to pesticides used on Willapa Bay or Grays Harbor including carbaryl/sevin, imazamox, imazapyr, imidacloprid and glyphosate.

Dear FOI officer, I'm writing to you to make a request under the terms of the Freedom of Information Act. For the period November 2014 to December 2015, I would like to request details of all the scientific studies on neonicotinoids submitted to the EPA by Bayer AG; Bayer Corp; Syngenta AG; Syngenta Corp; Cornerstone; Olsson Frank and Weeda; East End Group; Gerhardt Group; Greenberg Traurig LLP; Rafaniello and Associates; Staton Park Group; Competitive Enterprise Institute; Exponent. If you wish to clarify any part of this request please contact me either by email or telephone (below). On receiving this email, please send me a note acknowledging my request and saying that you will respond within 20 working days. Kind regards, Joe

I seek a list of unpublished studies submitted in support of applications for approval wherein the below-listed and attached laboratories are named as having prepared the studies or the data. At this time, I am requesting only the bibliography of the study citations which, if possible, includes the name of the submitting company (e.g., Monsanto, Syngenta, etc.), and not the studies themselves. Thank you: Analytical Biochemistry Laboratories (Also ABC Labs., Inc.; ABC Laboratories, Inc.; Analytical Bio-Chemistry Laboratories; Analytical Bio Chemistry Laboratories, Inc.); Agvise Labs, Inc.; American Agricultural Services, Inc.; Bio/dynamics, Inc.; Bionomics, Inc.; Biotechnics, Inc.; CeeTox, Inc.; CEM Analytical Services Limited; Charles River Laboratories, Inc.; Chemir/Polytech Laboratories, Inc.; Covance Laboratories, Inc.; Craven Laboratories, Inc.; Crop Guard Research; EG & G Bionomics (Also: EG&G); EN-CAS Analytical Laboratories (Also: ENCAS Analytical Laboratories); Enviro-Test Laboratories; Eurofins (Also: Eurofins/Product Safety Laboratories); Excel Research Services, Inc.; Food & Drug Research Laboratories; Grayson Research; Hazleton Laboratories, Inc.; Hickey's Agri-Services Huntingdon Life Sciences Ltd.; Huntingdon Research Centre (Also: Huntingdon Research Centre, England); Industrial Bio-Test Laboratories, Inc.; Institut fur Biologische Analytik; Institute of Environmental Toxicology; Japan International Research and Development Corp.; Litton Bionetics, Inc.; Malcolm Pirnie, Inc.; Mambo-Tox Ltd.; Nemec Agriservices, Inc.; Pan-Agricultural Labs, Inc.; Product Safety Laboratories (Product Safety Labs); PTRL West, Inc.; Research for Hire; Shelanski Holding Co.; Springborn Laboratories (Also: Springborn Labs., Inc.; Springborn Laboratories, Inc.); Stewart Agricultural Research Services, Inc.; Truslow Farms, Inc.; WIL Research Laboratories, Inc. (WIL Research Labs); Wildlife International, Ltd; XenoBiotic Labs., Inc.; Younger Laboratories, Inc.

I request under the Freedom of Information Act that EPA provide all documents and communications from January 1, 2015, to the present date referring or relating to the CARC report on glyphosate. Search terms should include Cancer Assessment Review Committee, and/or CARC, and/or glyphosate, and/or Monsanto. As well, I request all documents and communications referencing and/or between Monsanto officials and EPA that discuss or relate to glyphosate from Jan. 1, 2015 to present.

Freedom of Information Act Request – Endangered Species Act Biological Opinions Regarding Pacific Salmonids.
Please see attached for the full text of our FOIA Request.

Any and all documents reporting and/or investigating incidents involving the pesticide naled, including allegations of improper use, application, or adverse effects upon human health and/or the environment between Jan 1, 2005 and the date of this request. Any and all documents related to its use for aerial spraying in Puerto Rico between 1987 and the date of this request. Any and all documents relevant to the experience of Clarke Environmental, based in Illinois, and Dynamic Aviation group, based in Florida, or Roger Franklin, of that entity.

Please see attached FOIA request and request for fee waiver.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking electronic copies of all experimental use permit applications filed with EPA by Monsanto to include applications for Roundup Ready Xtend with VaporGrip (a premix of M1691 and glyphosate) and XtendiMax with VaporGrip.

All documents and communications regarding the pesticide registration determination dated July 1, 2016 regarding Blue-ray XL in an email from John Hebert to Scott McWhorter. I am the attorney for Blue-ray XL and believe that PoolRx and its attorney, Tom S. Chun, have demanded that the EPA retract its earlier decision and I would like a copy of all such communications to John Hebert and Scott McWhorter from PoolRx, Tom S. Chun or James K. Wells regarding this determination.

Pertinent information on the effects of mutated T and Staphylococcus bacteriophages cleaved to E.coli due to the mutation factors of chemicals used in Agent Orange production and spraying that caused known disease and disorders such as: Lyme disease, Crohn's, Celiac, Parkinson's, ALS, seizures, dementia, Alzheimer's and others.

Please see attached request regarding Monsanto Company and EPA communication.

Copies of all 6(a)(2) Incident Reports and related documentation received in the last 15 years for products containing Sulfuryl Fluoride.

Requesting certified copies of: all emails with any attachments and all other documents created by, sent by, received by, copied to, or maintained by one or more of the following EPA employees: Matthew Martin, Peter Egeghy, Catherine Eiden, and Jesudosh Rowland.

Please send the reviews for the following studies: MRID No. 45453503; 45453505; 46169304; 47102001; 47102002; 47242001; 47893701 Thank you, Kevin Kutcel

Under the provisions of the Freedom of Information Act, I hereby request a copy of records or portions thereof, including but not limited to emails, pertaining to or containing the following: all complaints and/or adverse event reports (including compilations or studies of such incidents and communications with other agencies about such incidents), from the date of January 1st, 2008 to the present, held by the Environmental Protection Agency, related to effects on human and/or animal health (including but not limited to effects on dogs, cats, and bees) and/or the environment due to the use of the following chemicals (which are used in, for one example, Frontline brand flea and tick killing products) fipronil, s-methoprene, and pyriproxyfen, and other chemicals in their chemical families (the phenylpyrazol, terpenoid, and pyridine groups, respectively). We also request the same records related to carbitol or any other "inert chemicals" used in flea and tick products that have been linked to harmful effects. If the cumulative fee of all the duplicated pages of the requested records exceeds \$60, please contact me before duplicating the records. Federal agencies are required to respond to a Freedom of Information Act request within twenty business days upon receipt of the request. A prompt response would be greatly appreciated and I look forward to hearing back from you in the near future. If my request or any portion of it is to be rejected for any reason, I would like to be informed of the reasons that led to the decision to deny it. Furthermore, if that were to be the case, please provide me with the contact information (name and address) of the person or body to whom an appeal should be directed. Sincerely, Malcolm Kim, J.D., Law Fellow New York Environmental Law & Justice Project Office phone: 212-334-5551 Email: malcolm@nyenvirolaw.org

1) Any and all documents, including any case file, associated with any report made to the EPA, and/or to the Georgia Department of Agriculture, regarding Gregory K. Hecht and his injury from a pesticide and/or insecticide, including any report made by Bayer Corporation, Bayer CropScience, Orkin, LLC, and/or Rollins, Inc., from December 2008 through present; 2) Any record or report detailing adverse consequences relating to pesticides Tempo Ultra WP Insecticide and/or CY-KICK CS and any related reports made by Bayer Corporation, Bayer CropScience, Orkin, LLC, and/or Rollins, Inc., from December 2008 through present; 3) Reports or other records of any kind detailing disciplinary actions taken by the EPA or by the Georgia Department of Agriculture or the State of Georgia or any other federal regulator relating to Bayer Corporation, Bayer CropScience, Orkin, LLC, and/or Rollins, Inc.; 4) Tests, reports, and/or studies detailing skin irritation, red welts, redness of the skin, respiratory problems, and/or headaches associated with human exposure to any pesticide and/or insecticide that is made or sprayed by Bayer Corporation, Bayer CropScience, Orkin, LLC, and/or Rollins, Inc.; 5) Any and all records of any complaints filed for the medical effects in paragraph 4 above as it relates to complaints made against Bayer Corporation, Bayer CropScience, Orkin, LLC, and/or Rollins, Inc., including but not limited to allegations of overspraying.

Any and all documents or records, including but not limited to position papers, statements issued, directives, alerts, instructions, studies, investigation reports, articles, enforcement actions, memos, emails, or correspondence regarding the application of dicamba on XtendFlex Cotton, Bollgard II XtendFlex Cotton, and/or Roundup Ready 2 Xtend Soybean crops

Pursuant to the Freedom of Information Act, I am requesting access to historical pesticide registration information currently maintained by the U.S. Environmental Protection Agency (EPA). As means of background, the Federal Insecticide, Fungicide, and Rodenticide Act of 1947 (FIFRA) required companies to register pesticides with the U.S. Department of Agriculture (USDA). In 1972, the Federal Environmental Pesticide Control Act (FEPCA) transferred pesticide registration responsibilities from USDA to EPA. It is my understanding that copies of the historical pesticide registration records maintained by USDA were also transferred to EPA in 1972. I am specifically requesting information on where historical pesticide registration records are currently located, as well as access to these records. I am a private researcher, not connected to a government agency. As such, I understand that EPA may charge reasonable research fees associated with this request. I authorize up to \$500 in such fees; if the fees will exceed this amount, please contact me for additional authorization.

The Center requests the following records from the Environmental Protection Agency ("EPA"): 1. All records generated as part of compliance with Section 7 of the Endangered Species Act, 16 U.S.C. § 1531-1544 ("ESA"), on the effects of EPA registration and/or reregistration of Sodium Cyanide and/or Sodium Fluoroacetate. This request includes but is not limited to the following: a. All final effects determinations or biological assessments concerning the effects of EPA registration or reregistration of Sodium Cyanide or Sodium Fluoroacetate; b. All draft and/or final concurrences and/or biological opinions from the U.S. Fish and Wildlife Service ("FWS") concerning the effects of EPA registration and/or reregistration of Sodium Cyanide and/or Sodium Fluoroacetate; c. All records generated as part of EPA's Feb. 10, 2011 request to FWS for reinitiation of Section 7 consultation for Sodium Cyanide and/or Sodium Fluoroacetate, including all records generated by either agency in response to that request; d. All of FWS's requests to extend the deadlines and/or agreements to extend the deadlines for reinitiated consultations for Sodium Cyanide and/or Sodium Fluoroacetate; e. All conservation recommendations concerning the effects of EPA registration and/or reregistration of Sodium Cyanide and/or Sodium Fluoroacetate. 2. All records generated after January 1, 1993, that document endangered and/or threatened species harmed by Sodium Cyanide and/or Sodium Fluoroacetate.

This is a request for files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the Zika virus.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I seek the following documents: - All documents, studies, reports, publications and any other supporting and related materials submitted to the FIFRA SAP Federal Insecticide, Fungicide, And Rodenticide Act Scientific Advisory Panel Meeting - Review of a Set of Scientific Issues Being Evaluated by the Environmental Protection Agency (EPA) Regarding EPA's Evaluation of the Carcinogenic Potential of Glyphosate, held December 13-16, 2016 in Arlington, Virginia. Specifically, I request all supporting documents from Docket ID: EPA-HQ-OPP-2016-0385. - All correspondence, including emails, between EPA and industry, including Monsanto Company, relating to the FIFRA SAP panelists, including but not limited to Dr. Peter Infante and Dr. Kenneth Portier, regarding the meeting held between December 13-16, 2016 in Arlington, Virginia, except as exempted by privilege. - A copy of the transcript from the FIFRA SAP Meeting held December 13-16, 2016 in Arlington, Virginia. We are willing to pay for any fees and expenses provided under the Freedom of Information Act regarding searching and reviewing time, duplication, certifications, computer charges, and electronic forms/formats related to your search for the records requested pursuant to this request up to \$25. Please contact us should fees exceed this amount with an estimate that we might approve additional cost. If you deny all or any part of this request, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the law. Thank you in advance for your kind cooperation. Please do not hesitate to contact me if you have any questions regarding this request.

Pursuant to the Freedom of Information Act, I am requesting copies of the Data Evaluation Reports (DERs) for thirty-eight (38) studies pertaining to the active ingredient, Terbutryn. The MRID Numbers and associated information for the studies in question are listed in the attached document. No data are being requested; therefore, FIFRA Section 10 (g) does not apply. No affirmation of multinational status will need to be filed. If the cost is expected to exceed the aforementioned amount of \$250, please contact me for further authorization.

Requesting letter for the registration jackets for products registered by Repar Corp.

OPP FOIA Request: Please send me all correspondence to and from EPA and FMC corporation relating to groundwater monitoring studies for the active ingredient sulfentrazone (chemical code 129081). This request includes, but is not limited to, EPA's request for the data, EPA's review of the draft protocols, EPA's review of the studies (submitted under MRID numbers 46816001, 47453601 and 47453602 and any other related MRID numbers), and correspondence from FMC regarding the nature and conduct of the studies.

Requesting the data evaluation reports (DERs) for the attached studies which were submitted to the Agency.

Please provide copies of all non-confidential materials circulated within EPA and between companies, including Monsanto Company or others, regarding increased ear biomass corn and /or improvement of crop agronomic traits (e.g., drought tolerance/resistance, yield enhancement, or nitrogen use). Responsive records are likely to be located in the Biopesticides and Pollution Prevention Division (BPPD) files and include, but are not limited to, submissions to EPA, meetings minutes, and presentations. Please provide records dating from January 1, 2010 through December 31, 2014. Requesting DERs listed on attached request.

Requesting the data evaluation reports (DERs) for all studies submitted to EPA and assigned with the attached MRID numbers, for the active ingredient Glufosinate-ammonium.

Please supply any non-CBI information in connection with an application for registration of oxamyl technical (oxamyl 103801). There was a submission made on 10/05/16 by Orion ATO, LLC (Submitter No. 088058) but if information was submitted before or after that date, please include that too. I would like to receive any letters, forms, labels or other correspondence, including any studies, that are not considered to be CBI, related to this application. Thank you for your help with this request.

Please see attached document.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request a copy of the response to FOIA case number EPA-HQ-2017-002253, including a copy of the original request and any related correspondence between EPA and the original requester. I authorize costs up to \$50 associated with copy and review time to prepare this request. Please let me know if the costs will exceed this amount.

Requesting copies of the following records located within the EPA's Office of Pollution Prevention and Toxics (EPA OPPT).

Documents requested are any and all documents responsive to request EPA-HQ-2014-004977 filed by Earthworks on March 17, 2014, modified by a fee waiver issued by EPA on June 26, 2014 and subsequent communications between Earthworks and EPA.

1. All information about Methylene Diphenyl Diisocyanate (MDI) (including CAS numbers 101-68-8 and 26447-40-5), Polymeric MDI (including CAS numbers 9016-87-9), and/or Toluene Diisocyanate (TDI) (including CAS numbers 584-84-9, 91-08-7, 1321-38-6, and 26471-62-5), possessed by EPA and/or submitted to the EPA:

- a. Under TSCA Sections 8(a), 8(c), 8(d), and/or 8(e);
- b. Under TSCA Section 5(b) in connection with TSCA Section 5 Pre-Manufacture Notices;
- c. In any Interagency Testing Committee report to the EPA;
- d. In studies provided by other federal agencies;
- e. In EPA-initiated studies; or
- f. In EPA toxicological profiles or chemical hazard profiles.

Requesting information regarding federal review of pesticide impacts on honey bees.

Requesting a copy of documents relating to the decision to issue the March 17, 2003 cancellation order referenced in the ♦Response to Requests to Cancel Certain Chromated Copper Arsenate (CCA) Wood Preservative Products and Amendments to Terminate Certain Uses of other CCA Products,♦ etc., as specified in request

Requesting information for all EPA-approved uses of neonicotinoid pesticides, including clothianidin, thiamethoxam, imidacloprid and dinotefuran (unless otherwise stated).

Requesting copy of all records related to the U.S. Environmental Protection Agency's May 6, 2013 decision to register sulfoxaflor under the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA").

All records dating from January 1, 2012 to October 31, 2013 relating to the neonicotinoid class of pesticides and their relationship to colony collapse disorder and the massive die-off of honeybees.

14. 100-RURI: A17960B ST seed treatment

“All documents” includes, but is not limited to, all NEPA Decision Worksheets, permits, permit applications, notifications, agreements, contracts, correspondence, minutes, memoranda, maps, plans, drawings, emails, reports, databases, and notes. This request includes all documents that have ever been within your custody or control, whether they exist in agency “working,” investigative, retired, electronic mail, or other files currently or at any other time.

Requesting copies of all documents relating to application for proposed new sulfoxaflor uses.

Neonicotinoid coated seeds, various matters

Neonicotinoid coated seeds, “treated article exemption”

FOIA Request—neonicotinoid insecticides, corn benefits review and other matters

Requesting all DERs regarding certain rodenticide products registered by Reckitt LLC.

Under the Freedom of Information Act (FOIA) (5 U.S.C. §552), we request information submitted to the U.S.

Environmental Protection Agency (U.S. EPA) Office of Chemical Safety and Pollution Prevention (OCSPP) to support fogging applications. Specifically, we request all fogging protocols for sanitization and disinfection submitted to U.S.

EPA to support approved fogging applications.

We agree to pay reasonable search and reproduction costs for this information, up to \$100.

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the Environmental Protection Agency (“EPA” or “the Agency”) FOIA regulations, set forth at 40 C.F.R. Pt. 2, Friends of the Earth hereby requests various documents, records, and materials between the U.S. Environmental Protection Agency (EPA), including the Office of the Administrator and Office of Pesticide Programs and the lobbyists or individuals representing Syngenta, Bayer Cropscience, Croplife America, and Monsanto pertaining to neonicotinoids, pesticides, Varroa mites and other issues pertaining to honey bee health from June 19, 2013 to the present. This request includes documents regarding meetings or communications or other contacts— including meeting minutes and scheduling notes—that any individual from any of the entities listed above arranged or attended with the EPA or that the EPA arranged or attended with any of the listed entities.

Our request includes but is not limited to communications with or by the following individuals employed by or contracted by the above listed entities regarding neonicotinoids, pesticides, Varroa mites and other issues pertaining to honey bee health:

-John Abbott and Caydee Savinelli, Syngenta

-Iain Kelly, Bill Striegel, Dr. David Fisher, Director of the Pollinator Safety Group, and Jamin Huang, Registration Manager, Jim Bloom, President and CEO, Bayer Cropscience

- Jay Vroom, Barb Glenn, and Ray McAllister, Croplife America

Dear FOIA Officer: I write on behalf of the Natural Resources Defense Council (NRDC) to request disclosure of records pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and applicable U.S. Environmental Protection Agency (EPA) regulations, 40 C.F.R. § 2.100-2.406. I. Description of Records Sought Please produce records of the following types in EPA's possession, custody, or control: 1. All records pertaining to the benefits, or lack of benefits, of neonicotinoid seed treatments for corn and soybeans. Benefits include, but are not limited to, economic and agricultural benefits. Neonicotinoids include clothianidin, imidacloprid, acetamiprid, dinotefuran, and thiamethoxam. 2. All records pertaining to EPA's 2014 draft review of neonicotinoid seed treatments on soybeans.

[https://www.epa.gov/sites/production/files/2014-](https://www.epa.gov/sites/production/files/2014-10/documents/benefits_of_neonicotinoid_seed_treatments_to_soybean_production_2.pdf)

[10/documents/benefits_of_neonicotinoid_seed_treatments_to_soybean_production_2.pdf](https://www.epa.gov/sites/production/files/2014-10/documents/benefits_of_neonicotinoid_seed_treatments_to_soybean_production_2.pdf) Further description is attached.

Please see attached FOIA request and request for fee waiver.

Please see attached FOIA request and request for fee waiver.

Full Registration jackets (including Data Matrices and Efficacy/Toxicity DERs) for: 75844-2, 75844-5, 75844-7, 75844-8, and 75257-1. Please also include adverse events submissions.

The attached FOIA request (in pdf form) concerns records in EPA's possession, custody, or control regarding the conditionally-registered neonicotinoid pesticides Acetamiprid, Thiamethoxam, and Dinotefuran. The request is also accompanied by a separate pdf file of attachments that are referenced in the request.

The Center requests the following records from the EPA: 1. All records containing and/or explaining the EPA's decision to register the pesticide product "M1769 Premix Herbicide," (also known by its alternative brand name "Roundup Xtend™ With VaporGrip™ Technology"), EPA Reg. No. 524-616; 2. All records demonstrating that the public had notice of the application to register and/or the proposed registration of the pesticide product "M1769 Premix Herbicide," (also known by its alternative brand name "Roundup Xtend™ With VaporGrip™ Technology"), EPA Reg. No. 524-616; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register the pesticide product "M1769 Premix Herbicide," (also known by its alternative brand name "Roundup Xtend™ With VaporGrip™ Technology"), EPA Reg. No. 524-616; 4. All records containing information and/or data that the EPA relied upon in deciding to register the pesticide product "M1769 Premix Herbicide," (also known by its alternative brand name "Roundup Xtend™ With VaporGrip™ Technology"), EPA Reg. No. 524-616, mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. glyphosate when mixed or co-applied with any other chemical or combination of chemicals; and/or b. dicamba when mixed or co-applied with any other chemical or combination of chemicals; and/or c. glyphosate and dicamba; and/or d. any possible combination of glyphosate and dicamba when mixed or coapplied with any other chemical or combination of chemicals. 5. All records demonstrating that the applicant/registrant, Monsanto Company, has satisfied the conditions of the conditional registration of the pesticide product "M1769 Premix Herbicide," EPA Reg. No. 524-616 or that the aforementioned product is no longer conditionally registered.

The Center requests the following records from the Environmental Protection Agency ("EPA"): 1. All records containing and/or explaining the EPA's decision to register the pesticide product "Cruiser Vibrance Quattro," EPA Reg. No. 100-1527; 2. All records demonstrating that the public had notice of the application to register and/or the proposed registration of the pesticide "Cruiser Vibrance Quattro,"; 3. All records demonstrating that the public had an opportunity to participate in the process that resulted in the EPA's decision to register the pesticide product "Cruiser Vibrance Quattro,"; 4. All records containing information and/or data that the EPA relied upon in deciding to "Cruiser Vibrance Quattro," mentioning, referencing or relating to synergy or antagonism, including but not limited to potential synergy or antagonism of: a. thiamethoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or b. fludioxonil when mixed or co-applied with any other chemical or combination of chemicals; and/or c. sedaxane when mixed or co-applied with any other chemical or combination of chemicals; and/or d. difenoconazole when mixed or co-applied with any other chemical or combination of chemicals; and/or e. mefenoxam when mixed or co-applied with any other chemical or combination of chemicals; and/or f. any possible combination of any possible combination of thiamethoxam, fludioxonil, sedaxane, difenoconazole, and/or mefenoxam; and/or g. any possible combination of thiamethoxam, fludioxonil, sedaxane, difenoconazole, and/or mefenoxam when mixed or co-applied with any other chemical or combination of chemicals. 5. All records demonstrating that the applicant/registrant, Syngenta Crop Protection, LLC, has satisfied the conditions of the conditional registration of "Cruiser Vibrance Quattro," or that the aforementioned product is no longer conditionally registered.

I am a state pesticide regulator with the Minnesota Department of Agriculture acting in my official capacity as a representative of Minnesota's pesticide programs and a FIFRA co-regulator in the capacity of a State Lead Agency. I am seeking a copy of several Data Evaluation Records (DERs), if available, for the pesticide active ingredient Thiamethoxam (PC Code:060109, CAS Registry Number:153719-23-4). We have had trouble locating the associated MRIDs, but the list below provides the MRID and study descriptor. 1. MRID: 44718702 "3-Month Subchronic Dietary Study in Beagle Dogs"; 2. MRID: 44718703 "3-Month Oral Toxicity Study in Rats (Administration in Food)"; 3. MRID: 44718707 "Rat dietary two-generation reproduction study"; 4. MRID: 44718708 "24-Month carcinogenicity and chronic toxicity study in rats"; 5. MRID: 46402904 "Thiamethoxam: Two generation reproduction study in rats"; The need for this information is time-sensitive. I have not been able to locate active links to access/download these studies or their DERs in EPA Dockets or in the list of Cleared Science Reviews for EPTC.

I am requesting a copy of a letter sent to all registrants of pesticide products containing 100% "Diatomaceous earth" as the active ingredient, and a list of all of the companies to whom the letter was sent, and the dates the letters were sent. It is my understanding the letters were sent this past summer. The letters would have most likely been signed by Richard Gebken or Linda Deluise in the Office of Pesticide Programs' Registration Division, and the purpose of the letter was to notify the registrant that their products' ingredient statements needed to be amended regarding the ingredient statement. If all of the letters were identical, only one copy of the letter would be necessary, with a list of all the registrants/dates sent. Thank you

Please provide all data evaluation records (DERs) for the product chemistry, acute toxicity, and efficacy reviews submitted under EPA Reg. No. 67603-12.

I request the Data Evaluation Records (DERs) and scientific reviews for the following studies, as listed by MRID number: 47088604 45609001 45458608 44464706 45380302 45380304 45317101 45609002

Request for the full dossier of AITC (CAS 57-06-7, PC code 004901) submitted by the company ISAGRO, including waivers, test items and all other publically available records.

Please provide data evaluation records (DERs) for acute toxicity and any releasable correspondence in relation to the EPA's 4/5/2011 decision letter allowing the removal of protective eyewear from the product label for EPA Reg. No. 9402-13, Product Name: Kimtech One-Step Germicidal Wipe.

Please provide all acute toxicity data evaluation records (DERs) for for EPA Reg. No. 9840-4, Product Name: Sani-Cloth Germicidal Wipes.

Please provide an electronic copy of the data matrix (EPA form 8570-35) for SPCP4 Plus 1, EPA Reg. No. 2517-177 and any EPA Data Evaluation Reports (EPA reviews of data) for this product.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, we hereby request all non-confidential information in EPA's Office Of Pesticide Programs Registration Division "registration jacket" for the EPA Registration Number 2517-176.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, we hereby request all non-confidential information in EPA's Office Of Pesticide Programs Registration Division "registration jacket" for the EPA Registration Number 91090-3.

Please provide EPA efficacy Data Evaluation Records (DERs) for efficacy studies submitted for EPA Reg. No. 83315-2, product name Sterisil Dental Water Microbiological Cartridge

Please provide a copy of the registration jacket for Willowood Clomazone ME (EPA Reg. No. 87290-47). Our request includes, but is not limited to: (i) a copy of any and all data citation forms filed to support the application; (ii) any and all data matrices submitted; and (iii) a list of any and all studies, data, or other information used by EPA or the registrant to support the registration the pesticide product, including all pertinent information such as submitter, sponsor, author, date of completion, and other details.

Please provide all documentation, including toxicity and physical-chemical property studies, submitted in support of EPA Registration Number 69587-1

Dear Madam or Sir: This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents – except for the actual study reports - related to registration of EPA Reg. No. 5383-193, MERGAL GLT50 by Troy Chemical Corporation and EPA Reg. No. 5383-192, MERGAL GLT25 by Troy Chemical Corporation. The information The Dow Chemical Company (Dow) requests includes, but is not limited to, all documents related to application for registration, correspondence, internal memoranda, reports, Data Evaluation Reports (DERs), notes, or other records. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$250. If I may be of any assistance with this matter, please do not hesitate to contact me at (989) 636-1884. Thank you in advance for your assistance. Sincerely, Rhonda Vance-Moeser Product Stewardship Regulatory Manager The Dow Chemical Company To whom it may concern, I would like to request the responses from all companies to the GDCI for glutaraldehyde (GDCI-043901-30859). This would include any and all registrant response forms, data matrices, and waiver documents submitted as part of the Generic Data Call-In response. If you have any questions, please contact me at jennifer.fulford@toxcel.com and provide responses to this FOIA request by email to the same address. Kind regards, Jennifer Fulford

Bayer is requesting all records pertaining to compliance with registration review DCI requirements for imidacloprid (PC code 129099) between the EPA Pesticide Reevaluation Division (PRD) and EPA Company #'s 87290, 88544 and 90057. Included in this information should be EPA's initial communication of a data call-in (DCI), the 90 day response if a DCI was issued, or guidance as to how the company is to comply with the DCI if mandated as a condition of registration. Other records of interest include correspondence, 8570-34 or 8570-32 representations, or other documentation identifying how these companies satisfied the data requirements associated with the imidacloprid registration review. Requesting copies of OPP Registration Jackets for EPA Reg. No. 84178-2, DeerPro Deer Repellent, containing 0.9% egg solids, and EPA Reg. No. 84178-3, DeerPro Deer Repellent Concentrate, containing 2.6% egg solids. Thank you, Mary

We request copies of all registration application files on record at EPA for Fast Attack, EPA Reg. No. 59682-5. Please see attached for additional information.

Please see enclosed in support of this request to obtain the registration files for EPA Reg. No. 79533-1. Please provide the presentation(s) that Syngenta gave the EPA and any notes or comments from HED and/or PRD staff members involving the meeting Syngenta held with the HED and PRD regarding Toxicity Testing and Epidemiologic Research on Paraquat and Parkinson's Disease.

Bayer would like to request a copy of the registration jackets associated with its products (registered and unregistered, inclusive of legacy company products under Rhone-Poulenc and Aventis CropScience) containing the active ingredient Aldicarb. Please include all correspondence, DER's, scientific assessments, Agency decisions, etc. Response should be inclusive of all confidential business information provided by Bayer to the Agency in pursuit and maintenance of the products, but exclusive of study reports. The response should be inclusive of information regarding Aldicarb metabolites, Aldicarb Sulfoxide and Aldicarb Sulfone. Please provide materials on a rolling basis, as appropriate.

I am requesting to view the documents and specifically the efficacy data that the EPA considered and relied upon in reaching its decision to approve the following pesticide (Vikane, EPA Reg No. 62719-4 submitted by the Dow Chemical Company).

File jacket for EPA Reg. No. 239-2730

Requesting documents discussing, analyzing, commenting on, evaluating or otherwise related to the quality and/or credibility of studies, research, reports and analyses produced by the Ramazzini Institute and 2. Documents addressing the analytical and toxicological methods used by the Ramazzini Institute, including whether to use Ramazzini research in U.S. EPA risk assessments

Requesting all studies, documents, and/or reports prepared by EPA personnel in connection with any spill or release of PCBs or PCB-containing fluids into the WATERS.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all EPA responses to any requests for technical assistance received between Dec. 1, 2015, and March 29, 2016, from members of Congress regarding reform of the Toxic Substances Control Act (TSCA).

Detail

I am making a request under the Freedom of Information Act for copies of materials I believe to be a public record. Please provide the documents I seek. I am a journalist working to benefit the public and ask you please waive fees associated with my request. I am working on a timely news story and ask my request please be expedited. Please provide the documents in a common electronic format when possible. I request all documents concerning Washakie Renewable Energy, of Plymouth, Utah, and violations of the Clean Air Act and the company's settlement of those violations. "All documents" may include, but may not necessarily be limited to, the following: investigative reports, witness interviews, video and photography, subpoenas, evidence seized by subpoenas or warrants, materials provided by other government agencies, internal and external correspondence, notice of violations, responses to that notice, settlement agreements, audits to ensure compliance with that agreement, and any notices of non-compliance with that agreement. I also intend to send a related request to the U.S. Department of Justice. Please contact me if you have questions or concerns. Thank you for your time in this matter. Requesting all records and/or documents that reference or pertain to enforcement of the Energy Policy Act as it relates to Washakie Renewable Energy, L.L. C.

National Freedom of Information Officer U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2822T) Washington, DC 20460 Re: Freedom of Information Act ("FOIA") Request – Related to Harley-Davidson Motor Company Dear Sir/Madam: Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 301, et seq., and the United States Environmental Protection Agency ("U.S. EPA") regulations implementing FOIA, 40 C.F.R. Part 2, we are requesting, for the preceding ten (10) years, copies of: (1) all documents, including but not limited to correspondence, between the U.S. Environmental Protection Agency ("U.S. EPA") and any agency, including but not limited to the California Air Resources Board ("CARB"), that relate in any way to the U.S. EPA's investigation of the manufacture and sale of uncertified on-highway motorcycles and the manufacture and sale of aftermarket parts, including but not limited to, the Screamin' Eagle Electronic Fuel Injection Race Tuners and/or Screamin' Eagle Pro Super Tuners; (2) all documents, including but not limited to correspondence, between the U.S. EPA and any agency, including but not limited to CARB, that relate to the subject matter of the complaint and/or consent decree entered in the United States District Court for the District of Columbia on August 18, 2016 under case number 1:16-cv-01687 by and between the United States on behalf of the U.S. EPA and Harley-Davidson Inc., Harley-Davidson Motor Company Group, LLC, Harley-Davidson Motor Company, Inc., and Harley-Davidson Motor Company Operations, Inc.; and, (3) any and all memoranda of understanding, cooperative agreements, protocols or similar documents between the U.S. EPA and CARB regarding engine and vehicle investigation and enforcement policies, procedures, and/or information sharing policies between the agencies. We would prefer to receive the requested documents via e-mail or on a CD, if possible. We will agree to pay all r

Pursuant to the Freedom of Information Act, I hereby request the following records: - Any and all complaints filed with the EPA regarding allegations that Fiat Chrysler Automobiles and Cummins installed "defeat devices" on Ram or Dodge pickup trucks - Any and all complaints that allege Ram and Dodge pickup trucks were rigged by FCA and Cummins to hide excessive emissions - Any and all communications between the EPA and FCA and Cummins related to alleged rigging of the vehicles to hide excessive emissions Please include any relevant documents, including but not limited to memos, reports, emails, meeting minutes and contracts. I also request that, if appropriate, fees be waived as we believe this request is in the public interest. The requested documents will be processed by a representative of the news media/press and is made in the process of news gathering, as I'm a reporter for Jalopnik, and not for commercial usage. I expect the request to be filled in an accessible format. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter.

This request concerns the consent decree between the U.S. EPA and the U.S. DOJ and Southern Coal Corp. and its affiliates. This is case 7:16-cv-462 in U.S. District Court for the Western District of Virginia. Please provide me with each and every of the documents listed on Appendix A to the proposed Consent Decree, which is ECF Number 2-2 and contains a list of financial documents used to determine the ability of the companies' to pay a civil penalty. Also provide me with any and all documents that contain any discussion of, analysis of, or conclusions concerning the companies' ability a civil penalty in this case.

Requesting all documents concerning workplace injury complaints, investigation and/or allegations for entities listed on attached request.

Please see attached letter

On May 5 2012 Debbie Cenziper wrote an article in the Washington Post on aftermarket motorcycle parts. In the article EPA officials was quoted on aftermarket parts. I would like copies of Ms. Cenziper request, inter-office email and letters, phone recorders and the name of EPA technical experts how wrote the response.

http://www.washingtonpost.com/investigations/some-after-market-motorcycle-parts-dont-meet-safety-or-environmental-standards-experts-say/2012/05/26/gJQAQgezsU_story.html

EPA officials said any after-market part that alters the air-fuel ratio in an engine probably will affect emissions. The agency declined to comment on specific parts advertised online and in catalogues, saying it needs test data to determine emission increases.

"EPA is aware that some manufacturers and suppliers may be selling after-market motorcycle parts that could increase air pollution," the agency said in a written statement. "EPA takes this issue seriously and will investigate and take action as appropriate to address potential threats to air quality."

On behalf of Puget Soundkeeper Alliance, I request copies of two letters sent to Lisa Jackson, Administrator of U.S. Environmental Protection Agency, by Richard Smith at Smith and Lowney, PLLC. The letters are Notices of Intent to Sue Stevedoring Services of America Terminals, Inc. and SSA Terminals, Inc. under the Clean Water Act regarding violations of Washington State's Industrial Stormwater General Permit No. WAR000467.

-The first letter was dated July 27, 2011, addressed to Stevedoring Services of America Terminals, Inc., and was entitled "Notice of Intent to Sue Under the Clean Water Act and Request for Copy of Stormwater Pollution Prevention Plan."

-The second letter was dated May 23, 2012, addressed to SSA Terminals, LLC, and was entitled "Supplemental Notice of Intent to Sue Under the Clean Water Act."

Please let me know if you have any questions or concerns. I request electronic copies, if possible, but am willing to pay for physical copies if necessary.

Pursuant with FOIA, we hereby request machine-readable copies of the records described below for the last TEN years on record for all EPA Regions 1-10, as it relates specifically to implementation of the Clean Air Act.

I request that a copy of the documents containing the following information be provided to me: All conversations in the form of emails, letters, and notes between EPA and law firm partners at Boies, Schiller, & Flexner between 2001 and 2005, (pertaining to Water). All conversations in the form of emails, letters, and notes between EPA and Kirsten Gillibrand regarding DuPont in 2001 and 2005. All documents from EPA regarding DuPont lawsuits as represented by Boies, Schiller, & Flexner in 2001 and 2005. All court documents from DuPont's settlement in 2005 regarding violation of the Toxic Substances Control Act and the Resource Conservation and Recovery Act. In order to help to determine my status to assess fees, you should know that I am a representative of the news media affiliated with ABC NEWS and this request is made as part of news gathering and not for commercial use. Thank you for your consideration of this request. Sincerely, Rachel Yonkunas 341 Northern Blvd. Albany, NY 12204 ryonkunas@news10.com. DuPont facilities are located in WV (Parkersburg, WV?), OH and NY.

Please see attached request.

Seeking all emails and other correspondence between USEPA and Jim Hecker with Public Justice and individual and entities listed in request letter concerning Fola Coal Company; discharges of conductivity, dissolved solids or ions or any potential changes to West Virginia's NPDES program; and all documents related to attached e-mail from Jim Hacker dated April 3, 2015 and its content.

We are seeking particular Title VI complaints made against the military and are looking for the complaint, any reply by the military, and any decision document produced by EPA, for the following complaint name/file numbers: 09R-05-R4, 01R-05-R4, 22R-99-R10, 09R-94-R4, 04R-02-R9, and 04R-02-R9

(1) EPA databases of cases of judicial review of all agency rules going back to 1970. (2) Any EPA documents describing agency strategies for setting standards in such a way as to ensure they would be upheld upon judicial review. (3) EPA documents discussing or summarizing win rates on judicial review in all federal appellate circuits and in the US Supreme Court.

I am asking for e-mail and documents related to the "human studies litigation" referred to in the response to FOIA request EPA-HQ-2016-006857. The e-mail containing the mention of "human studies litigation" is attached.

PBI Determination for FOIA Request EPA-HQ-2016-008019

Sept. 19, 2013

Dear FOIA officer,

This is a request under the Freedom of Information Act. I request a copy of the following information be provided to me in my capacity as a journalist at the Monterey County Weekly newspaper.

I am requesting information regarding a complaint and subsequent agreement regarding Title VI, handled by the Office of Civil Rights. The case records are contained on EPA's website under the header, "Angelita C settlement."

Specifically, the records I am seeking are:

- All correspondence between EPA officials and the California Department of Pesticide Regulation (aka CDPR or DPR) pertaining to the Angelita C complaint and/or settlement;
- All notes from meetings, either by telephone or in person, between EPA and DPR officials pertaining to the Angelita C complaint and/or settlement;
- All calendar items indicating meetings, discussions or other events concerning both EPA and DPR representatives pertaining to the Angelita C complaint and/or settlement.

Please provide any documents responsive to the above requests, including but not limited to electronic records and paper records, calendar items, budget records, and correspondence, including electronic correspondence and notes of telephone conversations or in-person meetings.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute to public understanding of the operations or activities of the government, and is not primarily in my commercial interest.

Thank you for considering my request. If you have any questions for me, please do not hesitate to call me at the number provided.

Sincerely,
Sara Rubin

Requesting all Title VI complaints filed with Regions 1-8 and 10, etc.

Please provide complete copies of the administrative record for each of the following EPA Office of Civil Rights Title VI matters: 12R-13-R4, 07R-10-R4, 01R-09-R4, 13R-07-R4, 10R-07-R9, 06R-03-R4, 09R-02-R6, 02R-00-R9, 11R-98-R9, 10R-98-R2, 08R-97-R9, 01R-94-R5, 01R-00-R6, 02R-95-R6, 11R-11-R4, 03R-04-R2, 114-01-R9, 05R-98-R5, 04R-98-R5, 01R-94-R2, 05R-03-R6, 11R-99-R6, 17R-99-R5, 08R-94-R4, 02R-99-R9, 09R-00-R9, 18R-98-R4.

Thank you, and please let me know if you have any questions.

All records and written communications from the Jefferson County Department of Health and Walter Coke, Inc., concerning the civil rights complaint filed by GASP with EPA's Office of Civil Rights, EPA File No. 08R-15-R4.

All records and written communications from the Jefferson County Department of Health and ABC Coke, A Division of Drummond Company, Inc., concerning the civil rights complaint filed by GASP with EPA's Office of Civil Rights, EPA File No. 03R-15-R4.

I am requesting for any Michigan related Office of Civil Rights documents, including for the cases listed (08R-01-R5; 05R-98-R5; 17R-99-R5; 01R-13-R5; 11D-06-R5; 12R-98-R5; 08R-04-R5; 21R-99-R5; 18R-99-R5; 09R-98-R5 and 01R-94-R5) all of the following documents: • The text of each determination letter issued by the Environmental Protection Agency's Office of Civil Rights, including each regional office, relaying the disposition of any Title VI complaint, dated between 1997 and the date you process this request; • The text of each Title VI complaint filed with the EPA's Office of Civil Rights, including each regional office, dated between 1997 and the date you process this request. Please also provide any and all documentation related to such electronic records, including but not limited to data dictionaries, database documentation, record layouts, code sheets, data entry instructions, and similar printed or electronic documentation materials.

I request copies of all certifications of qualified trusts; certificates of divestiture; notices of disqualification; recusals; waivers; and all other ethics-related records filed by and/or given to the following listed individuals: Gina McCarthy Stan Meiburg Donna Vizian Janet McCabe Jim Jones David Bloom Cynthia Giles Ann Dunkin Avi Garbow Arthur A. Elkins, Jr. Jane Nishida Mathy Stanislaus Thomas Burke Joel Beauvais Curt Spalding Judith A. Enck Shawn M. Garvin Heather McTeer Toney Robert A. Kaplan Ron Curry Mark Hague Shaun McGrath Alexis Strauss Dennis McLerran Nichole Distefano David J. Kling Laura Vaught Frank Benenati Micah Ragland Matt Fritz Mike Flynn John Reeder Arian Herckis Luseni Pieh Lateisha Garrett Kate Bluhm Reginald E. Allen Ruth A. Etzel Velveta Golightly-Howell Eric Wachter Christopher Zarba Kimberly Patrick These documents would likely be prepared under 18 U.S.C. § 207; 18 U.S.C. § 208; 5 C.F.R. Part 2634; 5 C.F.R. Part 2635; and 5 C.F.R. Part 2641 as well as be in the care of the Designated Agency Ethics Official. Please do not consider these individuals' OGE Form 278 public financial disclosure reports as responsive records to this request.

The number of all EEO Title VI complaints submitted, both formal and informal, from 2010 through the present by HeadQuarter Office and Region, as well as the results of all EEO Title VI complaints submitted. Please be sure to include a list of all unresolved EEO Title VI complaints submitted, both formal and informal, from 2010 through the present by HeadQuarter Office and Region. Again the list should be broken out so that the Office or Region where the unresolved cases are found. Please include a what protected category is addressed in all unresolved cases.

On or about April 26, 2016, Ouachita Riverkeeper and Louisiana Environmental Action Network (LEAN) filed a petition/complaint under Title VI of the Civil Rights Act of 1964 relating to a Georgia-Pacific paper mill in Crossett, Arkansas. I respectfully request a copy of this petition/complaint, together with any related correspondence with or from EPA.

Detail

Requesting a copy of documents concerning EPA employees assisting the coal combustion waste industry to hide the truth about the toxicity of CCR products

I request that I be sent copies of the following documents, preferably in electronic form: Internal documents, files and transcripts related to the EPA Inspector General's closed investigation into John C. Beale. This includes transcripts of interviews related to the investigation, and if transcripts are not available, audio files. It also includes information on Mr. Beale's salary, compensation, travel receipts, correspondence, and other documents uncovered in the investigation. I am filing this FOIA request as a member of the news media; I am a reporter for Politico. This designation entitles me to a waiver of fees accumulated during the actual search and review process. If your agency does determine that I should be charged for any part of this request, please contact me before any searches reach an estimate cost of \$25. I previously filed an identical FOIA request, for which my expedite request was granted in order to go over the information with Mr. Beale before his imprisonment. That request was "closed" with only a notice that the investigation was still ongoing, and I understand that is no longer the situation. Thank you!

I am requesting all of the EPA Office of Inspector General interview transcripts pertaining to the criminal and administrative investigations of former EPA employee John Beale.

I am also requesting all attachments to Inspector General Arthur Elkins' letter to Sen. David Vitter dated February 24, 2014. That includes the attachments pertaining directly to the Beale investigation and other attachments included with the letter.

As a member of the news media, I intend to use this information to inform the public about the operations of the EPA and the inspector general's office.

I am requesting a copy of the memorandum of understanding signed between EPA and the FBI in 2012, stating that the EPA's Office of Homeland Security would deal with the FBI in investigating homeland security matters at EPA.

I am also requesting all emails and other correspondence from January 2012 until March 2014 between EPA's Office of Inspector General and EPA management, including EPA Administrator Gina McCarthy, Deputy Administrator Robert Perciasepe, former Administrator Lisa Jackson, Associate Administrator of Homeland Security Deborah Dietrich, Deputy Associate Administrator Juan Reyes and other EPA officials discussing which offices have jurisdiction over "national security" or "homeland security" issues in the agency. Requesting copies of retrievable records re Elisabeth Drake for the period of October 24, 2013 to present. Requesting copy of any and all documents pertaining to the Marjol Battery and Equipment Company, 600 Delaware Street, Throop, PA 18512, and any and all Ombudsman documents in your possession.

I request all records concerning communications between the Environmental Protection Agency (EPA) and the Council of Inspectors General on Integrity and Efficiency (CIGIE) from Jan. 1, 2013 to the present day.

Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication between EPA and CIGIE.

Requesting copies of all letters referencing Section 6(a) of the Inspector General Act of 1978 sent by the Environmental Protection Agency's (EPA) Inspector General to all of EPA's other offices from Jan. 1, 2013 to the present day.

Requesting copies of all "management advisories," "management alerts" and/or "management letters" that the Environmental Protection Agency's (EPA) Inspector General sent from Jan. 1, 2013 to the present day.

Requesting copies of all closing reports of investigation and/or closing memorandums as well as copies of sworn statements regarding Peter Jutro.

Requesting a copy of the closing report of investigation and/or closing memorandum as well as copies of sworn statements regarding Thomas Manning.

Requesting documents regarding Diamond Alkali Superfund Site.

Report of Investigations (ROI) for investigations conducted of SES level employees between 2011 and 2015. While we would like all ROIs relating to EPA SES employees during that time frame we are specifically interested in the report on Ben Skags, who was in EPA's RTP office and was investigated in the 2011 - 2012 time frame.

If the costs of this request exceed the amount approved, we would request the Ben Skags ROI as the priority. Requesting all records maintained by EPA OIG, including its ROI (closing memo), emails reviewed, photos and audio/video depositions in its review of Peter Jutro.

Requesting records related to EPA OIG Agent Elisabeth Heller surrounding John Martin Interview of October 24, 2013 and follow-up.

Requesting documents regarding Wayne Nastri Between January 1, 2013 and the present.

Please see attached letter for a description of the request.

I request copies of all letters referencing Section 6(a) of the Inspector General Act of 1978 sent by the IG, Deputy IG, or Counsel to the IG to all other EPA offices from January 1, 2013 to December 31, 2015 (combining EPA-HQ-2015-000352). See example from Dept of Energy:

http://www.eenews.net/assets/2014/11/19/document_gw_03.pdf

I request all records concerning communications between OIG SES-level employees and the Council of Inspectors General on Integrity and Efficiency (CIGIE) Integrity Committee from Jan. 1, 2013 to Dec. 31, 2015. (Combined from EPA-HQ-2014-010153)

Provided examples: http://www.eenews.net/assets/2015/06/12/document_gw_02.pdf

http://www.eenews.net/assets/2015/06/12/document_gw_03.pdf

Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication between EPA and the CIGIE Integrity Committee. For this request, please search for responsive records in the Office of the Administrator and the Office of Inspector General.

I request copies of all "management advisories," "management alerts" and/or "management letters" that EPA's Office of Inspector General sent from Jan. 1, 2013 to Dec. 31, 2015. This is limited to records from the Inspector General or Deputy IG. (Combined with EPA-HQ-2015-001288)

For the time period of January 1, 2015 to December 31, 2015, I request the following:

-All e-mail exchanged between EPA/OIG attorneys and the Office of Special Counsel (OSC) that address whistleblower allegations.

-All additional records exchanged between EPA/OIG and OSC that address whistleblower allegations.

Limiting to OIG OC and OIG OI Hotline.

Any and all US EPA OIG OI documents related to a "Management Inquiry" involving myself (Douglas Zmorzenski) and US EPA OIG OCOS Deputy Chief of Staff John Furge and US EPA OIG OCOS Director of Human Resources Lamar Porter.

I request all EPA and EPA OIG materials related to EPA OIG Agent Elisabeth Heller surrounding the John Martin interview of October 24, 2013, and follow up to include the following: 1. All communications between the EPA Executive Management, to include but not limited to Gina McCarthy, John Reeder, Avi Garbow and Matthew Fritz, and the EPA OIG Executive Management, to include but not limited to Art Elkins, Al Larsen, Patrick Sullivan, Alan Williams and Craig Ulmer, related to SA Elisabeth Heller and the DOD OIG Report of Investigation (ROI) dated July 16, 2015 (#2015000059-07-OCT-15-HQ-FF0). 2. All communications between the aforementioned EPA Executive Management and EPA OIG Executive Management related to the aforementioned DOD OIG investigation and its evolution from its inception to its completion. 3. All communications between the aforementioned EPA Executive Management and EPA OIG Executive Management related to any response or potential response to the aforementioned DOD OIG ROI to include but not limited to any correspondence sent hardcopy or electronically between Gina McCarthy to Art Elkins discussing an EPA OIG response to the DOD OIG ROI.

Any and all documents in EPA's possession memorializing or discussing statements made by Elisabeth Heller or Elisabeth Drake of the EPA Office of Inspector General regarding Steven Williams, an employee in the Office of the Administrator/Office of Homeland Security from January 2013 to Present.

Requesting information re Privacy Act concerning Steven Williams.

I am asking for all e-mail and documents for the period January 1, 2014 through the June 1, 2016 that concern the March 31, 2014 EPA inspector general report on protection of human study subjects (Report #14-P-0154). This request also includes all e-mail and documents concerning the ongoing National Academy of Sciences review of the IG report and the EPA's human clinical studies program.

Requesting all ROIs (closing memos or reports on investigation) issued in 2016. Year-to-date by your IG.

I would like to get the "Closure Document" relating to the EPA OIG investigation # OI-HQ-2015-ADM-0093. After that, I would like a cost estimate to get the following documents including but not limited to: Base-Closure Document 1. All Records 2. All Interviews 3. All Interview documents 4. All Memorandum of Interviews 5. All Memorandum of Activities 6. All Significant Incident Reports If the cost is more than \$25, please let me know what it would cost per number/category above. Thanks!

I request the following: All investigative reports in the possession of EPA OIG related to any cases involving Peter Jutro from 2013 to present to include but not limited to the final report of investigation regarding Jutro's actions and the final report of investigation regarding the lack of due diligence by EPA senior administrators (Gwendolyn Keyes-Flemming, John Reeder, Lisa Feldt, Bob Perciasepe). Among these materials should be: a. logging of the initial complaint; b. referral of the matter for investigation/review/management inquiry; also any referral from EPA OIG to EPA management; c. reports of investigation or similar document containing findings; d. the index to exhibits for any report produced; e. the exhibits for any report produced; f. the narrative findings for any report produced; g. the summary for any report produced; h. investigator documentation of investigative/inquiry activities; i. timelines/chronologies prepared by the investigator; j. investigator's notes from the investigation; k. lists of witnesses who were interviewed; l. draft and final witness statements and memorandums of interviews; m. emails between EPA executive management and the OIG to include but not limited to the following individuals: Gina McCarthy, Matthew Fritz, John Reeder, Gwendolyn Keyes-Fleming, Lisa Feldt, Bob Perciasepe, Stan Meiburg, Art Elkins, Charles Sheehan, Patrick Sullivan, Allan Williams, and Craig Ulmer; n. cover letter (s) providing the results of the investigation/inquiry to others; o. lists of reviewers of the reports; p. distribution lists for the reports; q. any referrals for disciplinary or corrective action resulting from the reports; r. related emails, texts, letter, and memorandums between EPA executive management and OIG management (listed above) related to the investigations/inquiries to include any agency responses to the findings and subsequent OIG responses to the agency responses

I request the following: All investigative/management inquiry reports in the possession of EPA OIG or EPA management related to any cases involving Steven Williams, Senior Intelligence Analyst within the Office of Homeland Security, from 2013 to present. Among these materials should be: a. logging of the initial complaint; b. referral of the matter for investigation/review/management inquiry; also any referral from EPA OIG to EPA management; c. reports of investigation or similar document containing findings; d. the index to exhibits for any report produced; e. the exhibits for any report produced; f. the narrative findings for any report produced; g. the summary for any report produced; h. investigator documentation of investigative/inquiry activities; i. timelines/chronologies prepared by the investigator; j. investigator's notes from the investigation; k. lists of witnesses who were interviewed; l. draft and final witness statements and memorandums of interviews; m. emails between complainants and OIG investigators and any other documentation/memorandums/letters provided by complainants to investigators n. cover letter (s) providing the results of the investigation/inquiry to others; o. lists of reviewers of the reports; p. distribution lists for the reports; q. any referrals for disciplinary or corrective action resulting from the reports; r. related emails, texts, letter, and memorandums between EPA executive management and OIG management related to the investigations/inquiries to include any agency responses to the findings and subsequent OIG responses to the agency responses; s. disposition documents related to the investigations/inquiries

I'm writing to request copies of complaints regarding EPA oversight of state drinking water testing filed with the EPA or EPA office of the inspector general between January 2016 and August 2016. This includes complaints filed to the OIG hotline or other online forms maintained on EPA websites. Please provide these documents electronically if possible. Please contact me if the cost for these documents will be more than \$25.

Requesting copies of any and all documents or records possessed by EPA concerning Lawrence M. Stanton's activities on or about January 9, 2014 or the environmental testing and cleanup thereafter. In accordance with the Freedom of Information Act (FOIA) (5 U.S.C. § 552) and with the regulations of the U.S. Environmental Protection Agency (EPA), we are requesting copies of all releasable documents and records (examples below), regarding chemical facility safety, security and disaster prevention, inherently safer technologies and President Obama's Executive Order on Improving Chemical Facility Safety and Security

(#13650) dating from April 17, 2013 to the present.

PLEASE SEE ENTIRE FOIA REQUEST ATTACHED.

FOIA Request for the following records in possession, custody, or control of the Office of Solid Waste and Emergency Response (OSWER) that concern the storage and disposal of wastes from oil and gas exploration, development, and production ("E&P wastes"): 1. Records indicating established, suspected, or potential impacts to human health or the environment associated with E&P wastes; 2. Records indicating established, suspected, or potential impacts to human health or the environment associated with specific E&P waste storage and disposal practices; 3. Records concerning best practices for E&P waste storage and disposal or improvements to existing E&P waste storage and disposal practices. This request is limited to records produced or otherwise acquired by EPA since January 1, 2005.

PLEASE SEE ATTACHED LETTER FOR FULL DESCRIPTION. 1. All communications from January 2010 to the present between the U.S. Environmental Protection Agency ("EPA") and the Tennessee Department of Environment and Conservation ("TDEC") relating to the Tennessee Valley Authority ("TVA") - Kingston Fossil Plant Solid Waste Disposal Facility, Class II Landfill, Tennessee Permit No. IDL730000211 (the "Peninsula Landfill") and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 2. All communications from January 2010 to the present between EPA and TVA relating to the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 3. All documents discussing the meaning or interpretation of the following terms used in EPA's rule governing the Disposal of Coal Combustion Residuals from Electric Utilities ("CCR Rule"): new landfill, existing landfill, and lateral expansion. 4. All documents discussing whether the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2 is understood by EPA, TDEC and/or TVA to be a "new" or "existing" landfill under the CCR Rule and/or whether any phase of the Kingston Landfill is understood to be a lateral expansion of an existing landfill. Due to the massive coal ash spill at the Tennessee Valley Authority - Kingston Fossil Plant ("Kingston Plant") on December 22, 2008, we recognize that EPA likely possesses a substantial number of records generally relating to the Kingston Plant and coal ash. To be clear, we are not seeking records related to that spill and its subsequent clean-up. Rather, we are only requesting records related to the Peninsula Landfill and any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2, which obtained a state solid waste permit in 2007 and a major modification in 2015. PLEASE PROVIDE AN UPDATE ON THE STATUS OF THIS REQUEST, WHICH WAS MADE APPROXIMATELY 90 DAYS AGO, AND EXPLAIN THE REASON FOR THE DELAYED RESPONSE:

Contact name and contact information (physical address, telephone, and/or email) for all municipal solid waste landfills identified on the attached document.

Hello. Pursuant to the Freedom of Information Act I am requesting documents that US EPA Region 4 has regarding the Brickhaven coal ash landfill in Chatham County, North Carolina, being placed on the US EPA "open dump" list. These documents would include, but not be limited to letters, memorandum and emails between, EPA Region 4 and headquarters, the North Carolina Department of Environmental Quality, Charah, and Green Meadow. Thank You, Therese Vick Pursuant to FOIA I'd like to request all records, memos and correspondence concerning the practices and waste disposal processes of the company U.S. Technology (<http://www.ustechnology.com/>) at both Headquarters and EPA Region 4.

Requesting EPA adherence to White House and OPM regulations and directives related to sound science in its response to the Petition to revise the EPA Corrosivity Characteristic regulation/ On Behalf of Earthworks, I hereby request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, any and all documents, e-mails, reports related to the number, location, ownership and stability of tailings dam facilities for mining operations in the U.S., including those documents compiled by Patrick Kelley, EPA ORCR, HQ Office.

Detail

See Exhibit A: Description of FOIA Request, attached hereto. Please contact us if the cost of this request exceeds \$500.00.

EPA hydraulic fracturing study -- requesting correspondence and records

Pursuant to FOIA, would like to request copies of all correspondence, including letters, emails and voice recordings not already published or made available on the EPA website concerning the EPA's evaluation of the health risks of exposure to the contaminant RDX, (https://cfpub.epa.gov/ncea/iris/iris_documents/documents/subst/0313_summary.pdf) from January 1, 2000 to Oct. 31, 2016. The response should exclude comments formally submitted to the EPA as part of the IRIS review process, and which are otherwise available online. It should include all other internal and external communications.

Detail

Total Phosphorus Concentrations Necessary to Control Excessive Periphyton Growth in Warm Water Streams

We request copies of all documents from the Office of Water dating from January 1, 2015 to the present relating to PFOA/perfluorooctanoic acid, including but not limited to any documents relating to meetings or any communications between U.S. EPA and any third parties, including E.I. du Pont de Nemours and Company, The Chemours Company, The 3M Company, or any other corporate entity or agent/consultant/attorney, and government agencies, as well as any submittals made to U.S. EPA relating to PFOA.

Pursuant to the Freedom of Information Act ("FOIA"), as amended, 5 U.S.C. § 552 et seq., and implementing regulations promulgated by the U.S. Environmental Protection Agency ("EPA"), 40 C.F.R. Part 2, the FluoroCouncil requests copies of the following records, as defined under 5 U.S.C. § 552(f)(2): • All documents addressing the Drinking Water Health Advisory for Perfluorooctanoic Acid (PFOA) and the Drinking Water Health Advisory for Perfluorooctane Sulfonate (PFOS) issued in May 2016. • All documents addressing EPA's recommendation "that when both PFOA and PFOS are found in drinking water the combined concentrations of PFOA and PFOS be compared with the 0.07 part per billion HA [Health Advisory] level." 81 Fed. Reg. 33250 (May 25, 2016), at 33251.

NOTE: THIS REQUEST WAS ALSO SUBMITTED BY MAIL ON MAY 13

National Freedom of Information Officer
Dear FOIA Officer,

May 13, 2013

Pursuant the federal Freedom of Information Act, 5 USC S 552, I request access and copies of the following information:

- 1) The initial Freedom of Information requests filed by Earthjustice, the Natural Resources Defense Council and the Pew Charitable Trusts pertaining to records on confined animal feeding operations (CAFOs) across the United States, as well as animal feeding operations (AFOs). These records, to my knowledge, were initially requested in October of 2012.
- 2) All correspondence from EPA officials to representatives from Earthjustice, NRDC and Pew Charitable Trust regarding the initial records request, including any requests for extension or clarifications from EPA FOIA staff regarding those records in question. This would include any assessment of fees and final official letters honoring the aforementioned request.
- 3) All records submitted by EPA to representatives from Earthjustice, NRDC and Pew Charitable Trust concerning those FOIA requests from the three non-governmental organizations.
- 4) Any and all correspondence — including email and memos — concerning those FOIA requests among EPA staff, including correspondence involving the following individuals: Nancy Stoner, acting assistant administrator for water; Bob Perciasepe, acting administrator; and Lisa Jackson, former administrator.
- 5) All FOIA requests pertaining to the CAFO records from the National Cattlemen's Beef Association and the National Pork Producers Council, including all correspondence between representatives from those organizations and officials from EPA regarding the requests by Earthjustice, the Natural Resources Defense Council and the Pew Charitable Trusts. This would include letters sent to EPA from the grou

Please find attached a Freedom of Information Act request associated with the Iowa League of Cities v. EPA decision.

Additionally, please find attached an amended FOIA request associated with the implementation of the Iowa League of Cities v. EPA decision.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the American Farm Bureau Federation related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Corn Growers Association related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the Crop Life America related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the American Soybean Association related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Cattlemen's Beef Association related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Farmers Union related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Council of Farmers Cooperatives related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Milk Producers Federation related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Pork Producers Council related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the Iowa Cattlemen's Association related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA and the National Association of Departments of Agriculture related to the waters of the United States rule, otherwise known as "WOTUS" or the "Clean Water Rule." The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between EPA Administrator Gina McCarthy and staff in EPA's Office of Water, related to the waters of the United States rule, otherwise known as WOTUS; or the Clean Water Rule. The relevant time frame is April 1, 2014 through Dec. 31, 2015.

This is a request under the Freedom of Information Act in accordance with 5 U.S.C. § 552, and 5 U.S.C. § 552a seeking all documents, files, and communications created, sent and received between staff in the U.S. Environmental Protection Agency's Office of Water and representatives of the Natural Resources Defense Council, on the waters of the United States rule, otherwise known as the "Clean Water Rule" and the "WOTUS" rule. The relevant time frame is April 1, 2014 through Dec. 31, 2015.
HQ E-mails and Documents Related to EPA's 4-State Meeting.

Requesting all records concerning or relating to detection of illicit drugs or illicit drug metabolites in sewage/effluent, and the use of sewer sociology, sewer epidemiology, sewage epidemiology, sewer forensics, or sewage forensic.
EPA HQ's Nov. 19, 2013 Desk Statement and Related Documents

See attached letter for details. Earthjustice hereby requests an unredacted copy of the EPA white paper referenced in a powerpoint presented to the Cayuga County, New York Water Quality Management Agency on December 4, 2014. The Minutes from that meeting state that a powerpoint presentation was given, entitled "Winter Manure Application and Water Quality: Overview of the Literature." The minutes state that "[t]he white paper that this presentation is based on will be released soon." The powerpoint presentation is attached to an online article reporting on the meeting published by a local newspaper, and is also available on the Cayuga County Health Department's website.

In accordance with the attached request, please make available a copy of any responsive documents related to the DMB Redwood City Salt Plant (also known as DMB Redwood City Saltworks project, Redwood City Saltworks project site, Redwood City salt production facilities, or any reference to Cargill operated facilities in Redwood City) in San Mateo County, California, since August 19, 2014, including but not limited to:

1. Any and all documents related to the DMB Redwood City Salt Plant (also known as DMB Redwood City Saltworks project, Redwood City Saltworks project site, Redwood City salt production facilities, or Cargill operations in Redwood City) since August 19, 2014.
 2. Any and all communications between EPA (all offices) and other parties, including but not limited to the Corps (all offices), the Department of the Army (all offices, including the Office of the Assistant Secretary of the Army for Civil Works), Congress (members and staff), other Executive Branch employees, and non-government third parties, related to the DMB Redwood City Salt Plant (also known as DMB Redwood City Saltworks project, Redwood City Saltworks project site, Redwood City salt production facilities, or Cargill operations in Redwood City) since August 19, 2014.
 3. Any request (other than this letter) from any entity or person for any documents relating to the DMB Redwood City Salt Plant (also known as DMB Redwood City Saltworks project, Redwood City Saltworks project site, Redwood City salt production facilities, or Cargill operations in Redwood City) received on or after August 19, 2014, and all documents, communications, and records relating to such a request, including any response by EPA to that request.
- Requesting information relating to the regulatory status under the Clean Water Act.

Attached is a FOIA request from Pete Johnson on behalf of the Utility Water Act Group, Southwestern Electric Power Company, and Union Electric Company (d/b/a Ameren Missouri). I request to know the three (3) plants USEPA references in footnote 30 on page 67855 of Vol. 80 of the Federal Register, no. 212, where EPA says "EPA determined that there are three plants that are estimated to incur FGD wastewater compliance costs and that use an impoundment as part of the treatment system, but where the FGD wastewater is not commingled with other process wastewaters in the impoundment."

Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of any and all documents, including but not limited to letters and emails, between all employees and contractors of the Environmental Protection Agency about the upgrades the power industry would be required to comply with the November 2015 rule that established effluent limitations guidelines for the steam electric generation sector (RIN: 2040-AF14). Specifically, I would like the most updated list of power plants that would be required by the rule to install controls. I would like this information sorted by fuel type, utility, location and controls required. I would like to receive the information in electronic format preferably, although hard copies of the documents are acceptable. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I would appreciate your communicating with me by email or telephone, rather than by mail I look forward to your determination regarding my request for expedited processing within 10 calendar days, as the statute requires. Thank you for your assistance. Sincerely, Amena H. Saiyid Bloomberg BNA

Please see attached letter mailed March 18, 2016.

Requesting copies of all recordsct. from 2009 or later relating to the Reduction of Lead in Drinking Water Act. I am requesting any and all copies of any memo, instructions, guidelines, guidance, or other documents submitted to EPA regions, Army Corps of Engineers District offices, and/or states regarding implementation of the final Clean Water Rule, issued on or after May 27, 2015. Requesting copies of communications between the Communications Director for the Office of Water and the Natural Resources Defense Council (NRDC) and the Surfrider Foundation.

FOIA Request for information regarding SPRU facility.

AES Eastern Energy RACT

This is a formal request under the Freedom of Information Act for the full disclosure of all documents and communications related to violations of air emission permits and/or the Clean Air Act and/or exceedences and/or unauthorized air emissions by TAPI Puerto Rico, Inc., Teva Group, in the files of the Environmental Protection Agency.

Request for Records Concerning the October 9, 2014, Letter to the New Jersey Department of Environmental Protection from Kate Anderson, Chief of the Clean Water Regulatory Branch for the United States Environmental Protection Agency, Region II

Methyl bromide incident in St. John late 3/2015 (see attached FOIA)

I'm a producer for ABC News

Asking for access to Judith Enck's (Admin. from Region 2) files starting on 3/18/15 to present regarding the Esmond family pesticide incident in St. John.

The Final Reports with regards to COMPLIANCE ORDER Index No. CAA-02-2012-1006; In the Matter of: Minillas North Tower Government Complex Puerto Rico Public Buildings Authority ("PBA"), Enviroresources, Inc., and Aireko Construction, Corp. – Respondents. In particular, we request copy of any final reports regarding any violations found and the persons or entities found to be responsible for, or that agreed to cure the violations.

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. (CNN) requests access to and copies of (in pdf form, where possible) all email correspondence related to the 'Esmond' family and/or their exposure to methyl bromide in Cruz Bay, St. John since March 19, 2015. This should include but not be limited to all email correspondence related to Terminix, or related to family members Steve Esmond, Theresa Devine, their two sons and/or family spokesman James Maron, the investigation of their exposure to the substance, subsequent health treatment and correspondence with local authorities/offices in the Virgin Islands related to this incident since March 19, 2015.

Supplemental 9/3rd methyl bromide records

Please provide Covanta's response and all other related replies to the USEPA's Information Request Number CAA-02-2014-1459. Please let me know if this cost more than \$200, which may be approved.

Re: Freedom of Information Request 42-02 56th Road Block 2520 Lot 60 Maspeth, New York Langan Project No. 170384901 Dear Sir or Madam: Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have. The Subject Property is located at 42-02 56th Road (Block 2520, Lot 60) in Maspeth, Queens County, New York and identified as Block 2520, Lot 60 on the New York City Tax Maps. The Subject Property occupies an area of approximately 96,000 square feet (approximately 2.2 acres) in the western portion of the PDRC property that is bound by 56th Road to the north, 43rd Street to the east, the LIRR Montauk Line to the south and the Kosciuszko Bridge to the west. Please contact me at 212-479-5429 with any questions or send your response to my attention at mrogers@langan.com or at the below address: Langan Engineering and Environmental Services, P.C. 21 Penn Plaza 360 West 31st Street, 8th floor New York, New York 10001-2727 Thank you in advance for your cooperation. Sincerely, Langan Engineering, Environmental, Surveying and Landscape Architecture, D.P.C. Michele Rogers Senior Staff Engineer Diamond Alkali Superfund Site (LPRSA and Newark Bay Study)

Please see attached PDF.

Under FOIA, I hereby request any emails, reports or other documents prepared by, or for, US EPA relating to, or containing, any audits or analyses of Northeast Analytical laboratory in Schenectady (now known as Pace Analytical) between Jan. 1, 2012 and Oct. 31, 2015.

To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: - Any letters, reports or memos sent to the Department of Environmental Conservation from EPA official Gary Klawinski or Michael Cheplowitz regarding General Electric's dredging of the Hudson River, and/or the proposed end of that dredging. I request the documents from 1/1/11 to the present. - All letters, reports or memos sent to EPA official Gary Klawinski or Michael Cheplowitz by the New York State Department of Environmental Conservation or and/or its subsidiary departments (such as the Division of Fish, Wildlife and Marine Resources) regarding General Electric's dredging of the Hudson River, and/or the proposed end of that dredging. I request the documents from 1/1/11 to the present. - All letters, reports or memos sent to EPA official Gary Klawinski or Michael Cheplowitz by officials, consultants and/or lobbyists for General Electric regarding General Electric's polychlorinated biphenyls (PCBs) in the Hudson River, General Electric's dredging of the Hudson River and/or the proposed end of that dredging. - All letters, reports or memos sent by EPA official Gary Klawinski or Michael Cheplowitz to officials, consultants and/or lobbyists for General Electric regarding General Electric's polychlorinated biphenyls (PCBs) in the Hudson River, General Electric's dredging of the Hudson River and/or the proposed end of that dredging. I request the documents from 1/1/11 to the present. Please search for responsive records regardless of format. I request the information in a machine-processable format, such as a spreadsheet (CSV or XLS) or word processor (TXT, DOC, DOCX) format. It can be provided by email, thumb drive, or CD. If it is unavailable in any other format, an OCR'd PDF (i.e. searchable) will do.

RE: Rolling Knolls Landfill Superfund Site; Index No. II-CERCLA-02-2005-2034 (the "Project") Pursuant to FOIA, 5 U.S.C. § 552, and any implementing regulations, we request the following: 1. Any records (as that term is defined in 5 U.S.C. § 552(f)(2)) describing, explaining or in any way mentioning or discussing the calculation of the Indirect Rate used to calculate EPA's indirect costs. 2. Any records describing, explaining or in any way mentioning or discussing the direct costs that the Indirect Rate is or is not applied to. 3. Any records describing, explaining or in any way mentioning or discussing the application of the Indirect Rate to Interagency Agreement costs. Please produce responsive records in electronic format.

I am a reporter with the Bennington Banner, a newspaper in Bennington, Vt. I am seeking information regarding the presence of PFOA in the public water supply of the village of Hoosick Falls, NY. To that end, I'm seeking any communication between the EPA Region 2 office and: - Any employee or elected official of the village of Hoosick Fall, NY -Any representative or employee of Saint-Gobain Performance Plastics, a business located on McCaffrey Street in Hoosick Falls, NY Please include any communication including letters, emails, reports and files that were attached to emails. This request is for any communication since Oct. 1, 2014. I would prefer to receive digital copies of the information I requested. As this request is for news gathering purposes, I have also requested a fee waiver. Thank you for your time.

Any emails, faxes, or written communications between EPA Region 2 (including, but not limited to, Regional Administrator Judith Enck, Pat Evangelista, Larissa Romanowski, and Barry Shore) and NY State Department of Health (including, but not limited to, Nathan Graber, Kevin Gleason, James Leach, Greg Recer, Krista Anders, Fay Navratil, Charlotte Bethoney, Lloyd Wilson, and Albert DeMarco) between September 1, 2014 and January 27, 2016 regarding PFOA (also known as Perfluorooctanoic Acid and Perfluoralkyl Carboxylate) in the public water supply of Hoosick Falls, NY.

RE: Rolling Knolls Landfill Superfund Site; No. II-CERCLA-02-2005-2034 ("Project"); Original FOIA Request EPA-R2-2016-001781 (modified here after discussion with Juan Fajardo). Pursuant to FOIA, 5 U.S.C. 552, and any implementing rules, we request: 1. All records (per 5 U.S.C. 552(f)(2)) indicating the amount of time and tasks/work performed ("time records") for any individuals working on the Project between Oct. 1, 2014 and Sept. 30, 2015 ("Relevant Time Period"). 2. All time records for Tanya Mitchell-Calloway for any project in the Relevant Time Period. [3-5 deleted.] 6. Any Interagency Agreements applicable to the Project, including but not limited to IAG No. DW96942057 between the U.S. Army Corps of Engineers ("USACE") and EPA. 7. Any vouchers submitted by USACE to EPA for the Project regarding work performed in the Relevant Time Period. 8. Any contracts, correspondence, or other records exchanged between EPA and USACE regarding the Project. Please include any records that relate to multiple sites or projects, if one of such projects is the Project. 9. Any contracts, correspondence, or other records exchanged between EPA and any contractor, including but not limited to CDM/CDM Smith, regarding the Project. Please include any records that relate to multiple sites or projects, if one of such projects is the Project. [10 deleted.] Please produce responsive records in electronic format. Request for Covanta Energy's response to USEPA Information Request Section 1114 Letter Reference Number CAA-02-2015-1460. Victor Tu (USEPA Region 2) is familiar with this submission. Covanta's response is likely to be submitted in electronic format. Electronic format of this submission would also be preferred.

I would like to request any and all documents related to the testing of well and municipal water in the Village of Hoosick Falls, NY. See uploaded attachment for processing purposes.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 et seq., and regulations thereunder, I hereby request copies of the following: • Copies of all responses received by the U.S. Environmental Protection Agency ("EPA") in response to all requests for information pursuant to 42 U.S.C. § 9604(e) of the Comprehensive Environmental Response, Compensation, and Liability Act ("104(e) requests") issued in connection with the San German Groundwater Contamination Site located in San German Puerto Rico (the "Site") (Site ID# PRN000205957), including, but not limited to, the responses to the following 104(e) requests in connection with the Site: o September 16, 2015 104(e) Request from EPA, Region II, to CLL Label Inc. (addressed to Mark McClendon, Vice President/General Counsel); o September 16, 2015 104(e) Request from EPA, Region II, to Cenveo, Inc. (addressed to Timothy Davis, Senior Vice President/General Counsel); o September 16, 2015 104(e) Request from EPA, Region II, to Hewlett-Packard Company (addressed to John Schultz, Executive Vice President/General Counsel); o September 16, 2015 104(e) Request from EPA, Region II, to Katy Industries, Inc. (addressed to Brian G. Nichols, Vice President of Human Resources, Legal Affairs & Risk Management); o September 16, 2015 104(e) Request from EPA, Region II, to Menasha Corporation (Attn: Mark P. Fogarty, Vice President, General Counsel and Corporate Secretary); o September 16, 2015 104(e) Request from EPA, Region II, to Syrattech Corporation (addressed to Walter Jones, President, c/o J.H. Cohn LLP); and o Any and all other responses to 104(e) requests related to the Site which EPA has received. Full Site Name and Location: San German Groundwater Contamination Superfund Site OU-1 Source Control San German, Puerto Rico PRN000205957 Hoosick Falls, NY PFOA water contamination (see uploaded FOIA)

Dear Sir or Madam: In 2014, I received from the USEPA a list of 104(e) recipients related to the Ventron/Velsicol Superfund Site – OU2 (Berry's Creek Study Area), located in Bergen County New Jersey. The list (attached) also indicated that a number of PRPs had responded to the 104(e) request as of 2002. I would like to obtain copies of all of the 104(e) response letters (and supporting documentation, if provided by the PRPs) that were responsive to the 104(e) request, including those listed in the attached table, as well as any others that may have been received by the USEPA at a later date. Depending on the volume identified, I will likely request that photocopies be sent to my attention. Please contact me with any questions related to this request. Thank you for your attention to this matter. Bill Walsh

Hoosick Falls, NY PFOA water contamination (see uploaded FOIA)

To Whom It May Concern: This is a request by the Riverkeeper, Inc., for U.S. Environmental Protection Agency ("EPA") records (and records under the control of the EPA) submitted pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552. 1. All correspondence or other records of communications dated January 1, 2014 to the present between EPA Region 2 and the City of New York (including all agents and agencies of the City of New York) regarding Newtown Creek's combined sewer system ("CSOs") and separate storm sewer system ("MS4s"); 2. All correspondence or other records of communications dated January 1, 2014 to the present between the EPA Region 2 and other parties (including, but not limited to members of the Newtown Creek Group) regarding Newtown Creek's CSOs and MS4s; 3. All correspondence, materials, and records sent by EPA Region 2 to the Contaminated Sediments Technical Advisory Group or its members regarding Newtown Creek, dated January 2010 to the Present; 4. All technical documentation, such as plans, reports, designs, and surveys, that are in the possession of the EPA, or cited or relied upon by the EPA in its review, regarding Newtown Creek CSOs MS4s – including but not limited to Phase 1 and Phase 2 raw data collected over the past several years; 5. All maps and charts in the EPA's possession or control that relate to the Newtown Creek Superfund site, including but not limited to bathymetric charts of the Creek; 6. All risk assessment materials, including all data, materials collected by the EPA to inform EPA assessments, and draft risk assessment documents and reports; and 7. All communications, reports, and data submitted by Anchor QEA and the Newtown Creek Group to the EPA since October 1, 2015. Please see the attached file for more information, including addresses, fee waiver request, and contact information.

Pursuant to the Freedom of Information Act (FOIA), I hereby request an electronic copy of all of the following items related to the Hess Oil Refinery in Estate Hope, Christiansted, St. Croix, VI 00820, which was owned and/or operated at various Hess Oil Virgin Islands Corp. ("HOVIC") and Hess Corporation (formerly known as Hess Oil and Chemical Corp. and Amerada Hess Corp.): 1. All documents and information, for the time period of 1965 through 1998, relating to any inspections, enforcements, violations, complaints, or correspondence related to the location identified above; 2. All documents and information, for the time period of 1965 through 1998, relating to asbestos abatement projects and asbestos abatement violations at the location identified above; and 3. All documents and information, for the time period of 1965 through 1998, relating to the presence of asbestos, catalyst, or silica inside the location identified above. Electronic copies, either on disc or sent via email, are preferred. Should you require prepayment for duplication charges, please do not hesitate to contact me so that I may arrange the prompt payment of those charges. Please let me know if you require additional information from me to process this request, and thank you for your assistance.

Please see the attached letter.

I am seeking copies of any notes, emails, correspondence, faxes, or other records reflecting communications between EPA/Region 2/Judith Enck, and Commissioner Basil Seggos/NYS Department of Environmental Conservation, regarding the establishment of Superfund site(s) in the village of Hoosick Falls and town of Petersburg. I am seeking the aforementioned records, if they exist, between Jan. 1, 2014, and the date of this request. In addition, if your agency has copies of emails, or notes of conversations, between EPA officials and Mr. Seggos during the same time period I am seeking copies of those records as well. Please note, in the instance where EPA communicated with someone other than Mr. Seggos regarding Superfund siting in Hoosick Falls/Petersburgh, I am seeking copies of those records if they exist.
Rikers Island

This office is submitting a Freedom of Information Request for documents pertaining to SuperFund site: Booth Oil Co., Inc., 76 Robinson Street, North Tonawanda, New York 14120. The EPA website lists this location is listed as an Archived SuperFund site. Please provide the following documents pertaining to the classification of the Booth Oil Co., Inc. location at 76 Robinson Street, North Tonawanda, NY as a SuperFund site. Please provide documents regarding the SuperFund site assessment; National Priorities List; Remedial Investigation/Feasibility Study; Contaminants found at this SuperFund site. The documentation stating the reasons for the site status listed as archived, and that this site does not require any cleanup action, or further investigation at this time. Please contact this office with questions regarding this Freedom of Information request. Thank you for your assistance.

Copies of any records for Hazardous Waste Generators (RCRA) for the below site: Facility ID No. NYD981075013, Mr. Jack Cleaners, 61 Main Street, Port Washington, NY 11050 Thank you.

U.S. Army Corps of Engineers Project: LRH-2008-491-TUG

The United States Environmental Protection Agency

Whomever it may concern:

I would like to make a document request under the Freedom of Information Act. I am requesting information for Freedom Industries Inc. Their facility is located at 1015 Barlow Drive, Charleston, WV 25311. I am interested in the following types of documents:

- 1) Any and all correspondence and studies performed in regards to the January 2014 spill.
- 2) All documents related to violations, fines and penalties, facility and tank inspections, as well as odor and visibility complaints.

Please let me know which files are available, and in what format (digital/hard copy) and when the files can be compiled or enumerated so that we may proceed.

Thank you,

Mohit Dayal

No Pollution Enterprises

- 1.) Any email or written correspondence regarding the January 2014 leak at the Freedom Industries Inc. facility in Charleston, W.V. The facility address is 1015 Barlow Drive, Charleston, WV 25311. The leak occurred sometime during the week of Jan. 5, 2014.
- 2.) Any inspection, incident or narrative reports describing the above-mentioned leak.
- 3.) Any inspection, enforcement or regulatory actions taken against Freedom Industries Inc.
- 4.) Any plans or documents filed by Freedom Industries Inc. to comply with the Spill Prevention, Control and Countermeasure Rule.
- 5.) Any plans or documents filed by Freedom Industries Inc. to comply with the Emergency Planning and Community Right To Know Act.
- 6.) Any plans or documents concerning Freedom Industries Inc. that were filed in compliance with above-ground storage tank rules.

Please see attached file for full-length FOI request

Please see attached file for a full-length FOI request.

National Freedom of Information Officer
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW (2822T)
Washington, DC 20460

Dear National Freedom of Information Officer,

Pursuant to the state open records law, D.C. Code Secs. 2-531 to 2-540, I write to request access to and a copy of:

--All material provided by Eastman Chemical Co. to the agency related to 4-methylcyclohexane methanol (MCHM).

--All correspondence, including emails, between officers and employees of the EPA, and officers and employees of Eastman Chemical Co. from January 1, 2014.

--All correspondence, including emails, between officers and employees of the EPA, and officers of and employees of the West Virginia Department of Environmental Protection involving MCHM.

If your agency does not maintain these public records, please let me know who does and include the proper custodian's name and address.

I agree to pay any reasonable copying and postage fees of not more than \$500. If the cost would be greater than this amount, please notify me. Please provide a receipt indicating the charges for each document.

As provided by the Freedom of Information Act, I would request your response within fifteen (15) business days. See D.C. Code Sec. 2-532(c).

If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material.

Please be advised that I am prepared to pursue whatever legal remedy necessary to obtain access to the requested records. I would note that willful violation of the open records law can result in the award of reasonable attorney fees and other costs of litigation. See D.C. Code Sec. 2-537(c).

Thank you for your assistance.

Sincerely,

Freedom of Information request relating to Investigation of West Virginia Chemical Incident.

Request for documents related to the United States Environmental Protection Agency's investigation into actions with respect to the manufacture, testing, storage, distribution, spill, dispersion and cleanup of chemicals known as "crude MCHM" and "PPH" in connection a release of those chemicals that occurred on or about January 9, 2014.

Documents about WV Water Crisis.

Any and all documents, emails, notes, memos, reports and/or computer files related to the chemical 4-methylcyclohexane methanol (4-MCHM) including but not limited any and all emails, reports, memos and/or correspondence from, by, to, between and/or among the EPA and Eastman Chemical Company. Request all communications (correspondence, memoranda, facsimile logs, telephone records, electronic mail), documents, reports, records, statements, audits, lists of names, applications, diskettes, letters, tape recordings, video/movie recordings, drawings, charts, photographs and other documents and things that refer or relate to the 2014 Freedom Industries Chemical Spill at 1015 Barlow Drive, Charleston, West Virginia from January 9, 2014 to the present. (See attached letter for further details).

This is a request for the electronic records listed in paragraph 2 of the attached memo from Richard M. Fetzer to Gerald T. Heston, US EPA Region III, concerning the results of sampling at the Dimock Residential Groundwater Site (PAN00306785). The analytical data from the lab and the URS Report Information referred in subparagraph 1. is not needed, unless it facilitates downloading of the requested information and will not add to the cost of processing. Please provide me with any and all records concerning EPA's work to develop a monitoring protocol and screening level for air emissions of MCHM at the Freedom Industries facility in Charleston, W.Va.

- 1.) Any email or written correspondence regarding the creation of an inhalation standard and measurement procedure for the chemicals, including MCHM, spilled during the January 2014 leak at the Freedom Industries Inc. facility in Charleston, W.V. The facility address is 1015 Barlow Drive, Charleston, WV 25311.
- 2.) Any plans or documents filed about the creation of an inhalation standard or measurement procedure for the chemicals that spilled.

I am requesting a complete copy of any and all files in the possession of the U.S. Environmental Protection Agency ("EPA") with respect to Freedom Industries Inc. and with respect to the Freedom Industries Etowah River Terminal site incident (spill) that occurred in Charleston, Kanawha County, West Virginia on January 9, 2014. This request encompasses any predecessor entity to Freedom Industries that operated the site where the aforementioned incident (spill) occurred. This request includes, but is not limited to, copies of all notes, memoranda, inspection reports, tests, results of tests, orders, correspondence, notices, notices of violation, electronic communications, color copies of photographs, video tapes/discs/files, audio tapes/discs/files, statements, citations, correspondence, plans, maps, specifications, diagrams, and/or surveys. See attached letter former RG Steel Sparrows Point, LLC steel mill property located in Baltimore County, Maryland and currently owned by Sparrows Point Terminal, LLC.

we request copies of any and all documents or records possessed and/or maintained by the Environmental Protection Agency, or any department therein, from 2002 to the present:

1. concerning Freedom Industries Inc.;
2. the facility located 1015 Barlow Dr., Charleston WV;
3. the release of MCHM and/or other chemicals from Freedom Industries facility on or about January 9, 2014;
4. the investigation into the cause of the release described above;
5. the investigation into the effect of the release described above; or
6. the environmental or regulatory testing and cleanup thereafter.

See attachment.

We would like to go ahead with the Reading FOIA request with the timeline from 2007-present.

--------------------	---------------	-----------------------------	------------	-----------

For the timeframe, please go back to 1979 to the present.

- We are not seeking single site-specific documents.
- We are seeking relevant emails.
- If documents responsive to our requests are publicly available on the Internet, please share the url/hyperlink to the document (there is no need to produce an electronic or hard copy of documents publicly available on the Internet).
- The timeframe for our second request (concerning SIPs) can be limited to 1988 to the Present.
- o You requested that we narrow the scope of our request concerning SIPs. Can you please provide some examples of categories of documents that you propose we carve out of this request? We are not opposed to narrowing the scope of this request, but want to be clear on what information can be excluded and avoid excluding documents that may be important to us.
- Please advise us if you are aware of any document(s) responsive to this request that have been destroyed or lost.
- Please send materials to us on a rolling basis.

Pursuant to the Freedom of Information Act ("FOIA") of 1966, 5 U.S.C. § 552, and 40 C.F.R. Part 2, I request copies of, and/or the opportunity to inspect, all records in your custody and control, regardless of format, medium, or physical characteristics, and including electronic records and information, audiotapes, videotapes and photographs, regarding the following facility: U.S. Coast Guard Yard 2401 Hawkins Point Road Baltimore, MD 21226 FRS ID: 110000764325 Minor CWA Permit No. MD0003638, MDG766792, MD0067300, MDR003060 Please provide us with copies of all information for this facility regarding: 1. Discharge Monitoring Reports (DMRs) for the U.S. Coast Guard Yard corresponding to the permit numbers referenced above from January 1, 2010 through the current date (that is, DMRs from the first quarter of 2010 through the third quarter of 2015). If the DMR from the third quarter of 2015 is submitted to DEP while this FOIA request is still open, please include that as well. 2. The National Pollution Discharge Elimination System ("NPDES") permit for the above referenced facility, permit numbers MD0003638, MDG766792, MD0067300, and MDR003060, active or expired, in their entirety, and including, but not limited to all permit limits, narrative descriptions, modifications, revisions, updates, withdrawals, continuances or reissuances from January 1, 2009 to November 3, 2015. Please also contain or refer to the site's EPA Corrective Action Permit, as well as the Maryland Department of the Environment (Hazardous Waste Enforcement Division) Hazardous Waste Program Post Closure Permit and Consent Agreement. 3. The most recent permit applications for the above referenced facility, permit numbers MD0003638, MDG766792, MD0067300, and MDR003060. 4. The most current consent decree or federal facility agreement regarding the CERCLA status of the facility.

Question 1. Chesapeake Bay/lakes/river waters

Question 2. Water testing

Looking for anything regarding their probation, conditions, terms etc, also any recent disciplinary action exclude materials related to reissuance of Omega Protein's NPDES permit.

information from the first six months of Region 3's use of the RAV system. Further information may be sought if this initial data does not satisfy.

information from 2011 to the present on EPA grant work plan reviews and/or reports on the oversight of PADEP's environmental regulatory programs.

I request all documents pertaining to the material discovered leaking from the Freedom Industries facility in Charleston, West Virginia on January 9, 2014 (otherwise known as the Elk River chemical leak). This includes: *findings from chemical analysis conducted by EPA or other entities on the leaked material; *analysis of Resource Conservation and Recovery Act (RCRA) as it pertains to the leaked material; *manifests tracking chemical from cradle to grave of the leaked material or its components in your possession or awareness; *analysis conducted to determine that the leaked material is not a "hazardous" substance by the Land and Chemicals Division or any other division within EPA Please respond directly to the following question. What analysis did EPA conduct on the leaked material? If it did not conduct its own analysis, what chemical analysis was utilized by EPA as it pertains to the Elk River chemical leak? For purposes of this request the term "pertaining" or "pertaining to" means containing, alluding to, responding to, commenting upon, discussing, showing, disclosing, explaining, mentioning, analyzing, constituting, comprising, evidencing, setting forth, summarizing or characterizing, either directly or indirectly, in whole or in part. I request that you provide us with the requested records within the twenty-day deadline specified, but I would be prepared to grant a reasonable extension of that deadline if necessary to accommodate your good faith efforts to comply with this FOIA request. I am prepared to pay the reasonable cost for the reproduction of the foregoing records, to minimize such cost. Please, however, advise me of the availability of the foregoing records on electronic media, as contemplated by Section 1.15, and the cost for obtaining the records in that format, either as an alternative to hard copy or in addition to the hard copy.

1- Any and all emails between EPA officials in the Region 3 office or nationally that discuss potential enforcement actions against the Philadelphia Water Department from 2012 to 2016
(SPECIFIC TO LCR RULE, FLUSHING, AERATION, TESTING PROTOCOL)

2- Any and all emails between EPA officials in the Region 3 office or nationally that discuss a September 2008 memo where the head of the drinking water office called "pre-flushing" or "pre-stagnation flushing" against the "intent" of the Lead and Copper Rule in June 2016 (BELIEVED TO BE A LETTER, NOT A MEMO – COMES FROM SOMEONE NAMED "DOUGHERTY"). She wants us to search from the day of the letter (Sept. 12, 2008) to the present.

3-Any and all communication, including but not limited to email, between EPA officials in the Region 3 office or at national headquarters and the Philadelphia Water Department, from April 13, 2016 to June 10, 2016. (SPECIFIC TO LCR RULE, FLUSHING, AERATION, TESTING PROTOCOL)

Request has been modified. See Clarification letter in correspondence.

Information regarding the Chesapeake Bay watershed. (See Attached)

withdrawal of parts 3, 4, and 5 from the original FOIA request. See Correspondence for details.
Please see attached letter.

1. H&A agrees to clarify the requests so as to include date limits. Specifically, please limit the above-referenced FOIA request to responsive documents generated from December 23, 2014 (date of second recon request) to September 8, 2016 (date of EPA's denial of second recon request).

2. H&A declines to limit the request to preclude internal EPA emails. While H&A understands that – in EPA's opinion – many of its responsive emails are deliberative, H&A would nonetheless like the request to include all emails.

Detail

The West Vermont Drinking Water Contamination Superfund Site & Weston Solutions, Inc. Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. (CNN) requests access to and copies of (in pdf form, where possible) all email correspondence sent or received by EPA Region 5 Administrator Susan Hedman between April, 25, 2014 and the present that pertain to the city of Flint. Additionally, CNN requests access to and copies of all email correspondence exchanged between Ms. Hedman and (former) Michigan Department of Environmental Quality Director Dan Wyant between April 25, 2014 and December 30, 2015. This should include the entirety of email chains in which the responsive emails were sent or received.

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. (CNN) requests access to and copies of (in pdf form, where possible) all correspondence (including emails, faxed documents and written communication) sent or received by EPA Region 5 employees in which "corrosion control" in Flint, Michigan or the monitoring of lead and/or copper in water from the Flint River is referenced since April 25, 2014. This should include the entirety of email chains in which the responsive documents were sent or received.

Requesting all communications about the city of Flint, Michigan water contamination problem between the office of Michigan Governor Rick Snyder and the Environmental Protection Agency between January 1, 2015 and the date this request is processed.

I request electronic copies of all EPA memos, e-mails and other documents that pertain in any way to the subject of corrosion control additives in the public water system of Flint, Michigan. In particular, these should include any documents that involve decisions not to use corrosion control after the city began drawing water from the Flint River in 2014.

All reports, evaluations, test results, proposed testing, and related materials regarding water supplies and usage in Flint, Michigan

The Detroit Free Press requests under the FOIA access to any reports, memorandum, presentations, emails, visitor logs, call logs, transcripts or any other documents prepared by or for, or otherwise transmitted by or to EPA staff and/or contractors having as their primary workplace EPA headquarters in the Washington, DC area regarding lead levels reported in public water in Flint and Genesee County, Mich., or EPA's response to those reports, from the period beginning Feb. 24, 2015 to the present or EPA's response to this FOIA, whichever is later. In the interest of expediting this request, the Free Press asks that this request be first applied specifically to documents prepared by or for or otherwise transmitted by or to EPA staff and/ or contractors inside the Office of the Administrator, the Office of Administration and Resource Management, the Office of General Counsel and the Office of Water, particularly, inside the Office of Water, the Office of Ground Water and Drinking Water, with results from that search to be made available to the Free Press on an expedited basis, either by paper or electronic copy or by making records available for inspection, as soon as possible. The Free Press, as Michigan's largest newspaper, makes this expedited request given the enormous public interest in the Flint water crisis and its health implications, noted by the EPA's emergency order of 1/21/16. The Free Press as a media organization also requests a fee waiver for this material.

All emails or letters sent or received by Susan Hedman between Jan. 1, 2013, and Feb. 5, 2016, that include the word "Flint" in the body or subject line of the message. All emails or letters sent or received by Miguel Del Toral between Jan. 1, 2013, and Feb. 5, 2016, that include the word "Flint" in the body or subject line of the message. All publicly releasable personnel records, including awards, discipline, hiring dates, job titles and promotions and demotions, for Susan Hedman, Miguel Del Toral and Jennifer Brooks.

1. Emails or any other communications by EPA employees related to manager Miquel Del Toral's advice, consultations, visits, testing and findings related to Flint or lead levels in any residence or structure there, including any revisions suggested or ordered regarding his June draft memorandum and the final November report and the dissemination of either. 2. Any other lead-related complaints received by Region 5 since the beginning of 2011 which resulted in EPA staff doing its own testing and the results of those tests. Please include any documentation of discussions between EPA and primacy agencies involving these cases. 3. Emails or other communications involving Region 5 workers regarding corrosion control treatments in Flint. This includes internal and external discussions related to Michigan DEQ's initial response that it had a corrosion control program in Flint and DEQ's April 2015 contention that its decision to conduct two 6-month monitoring periods before applying corrosion controls was valid, including any discussions related to EPA seeking a legal determination on whether and when and under what authority Flint was required to have corrosion control and/or EPA's authority to act on the city's failure to add corrosion control to its water supply or take any other action in regards to Flint. 4. Any emails or other documents related to water quality or treatment Region 5 shared directly with any official of or employee of the city of Flint from the beginning of 2013 to the present. 5. Any emails or other documents received by Region 5 involving specific water treatments of Flint's water from the beginning of 2013 to the present. 6. Emails, reports or any other documentation regarding EPA data verification, reviews or audits done on any activities in Michigan under the Lead and Copper Rule and/or the Safe Water Drinking Act for the period 2000 to the present.

I request copies of all "Hot Issues Reports" and/or "Significant Activity Reports" containing one, several and/or all of the words and phrases "Flint," "Michigan Department of Environmental Quality" and/or "MDEQ" drafted by individuals affiliated with and/or employed by EPA Region 5 since Jan. 1, 2014 to the date of this FOIA request being processed.

My name is Jessica Glenza, I am a staff reporter for The Guardian US, a widely read national news organization. As such, I am a person primarily engaged in the dissemination of information to further public understanding of actual federal government activity. I would like to request: - Any and all communication records, including email, from Region 5 offices about higher than action levels of lead in drinking water in cities throughout the Region 5 district from April 1, 2014 to February 8, 2016. - Any and all communication records, including email, from Region 5 offices to local water authorities about the corrosiveness of drinking water. - Any and all communication records, including email, from the Region 5 office to Michigan Governor Rick Snyder from April 1, 2014 to February 8, 2016 regarding drinking water in Flint, Michigan. - Any and all communication records, including email, from Region 5 offices to Flint, Michigan city officials from April 1, 2014 to February 8, 2016. - Any and all email communication to or from or cc-ing the following individuals, on the subject of drinking water in the city of Flint, Michigan from April 1, 2014 to February 8, 2016. Communication to and from the following individuals on this subject should be included: Gina McCarthy, Susan Hedman, Miguel A. Del Toral, Tynka Hyde, Leverett Nelson, Joel Beauvais and William Spaulding. Thank you, Jessica Glenza

I request access to and electronic copies of any and all emails, memoranda, external and internal correspondence and/or other documents produced since September 2013 between U.S. EPA Region 5 employees and the Chicago Department of Water Management or the Chicago Department of Public Health regarding lead in water or the federal Lead and Copper Rule. Separately, I am requesting any and all emails between former Region 5 Administrator Susan Hedman, acting Region 5 administrator Robert Kaplan and officials in Flint, Michigan, the Michigan governor's office or the Michigan Department of Environmental Quality between May 1, 2015, and March 1, 2016.

Refinery located at 1300 S.Fort Street, Detroit, Michigan, 48217 (the "Detroit Refinery") owned and operated by Marathon Oil Corporation, Marathon Petroleum Company LP and or Marathon Petroleum Corporation:

Granville Solvents Inc. Site (Site) located at 300 Palmer Lane, Granville, Licking County, Ohio; non-NPL Site, CERCLIS Site ID # 0HD004495412

I am requesting any correspondence received from or sent to Jolisa McDay, interim utilities director for the city of Flint, Michigan, from April 1, 2016, until July 5, 2016.

Copies of the emails to and from Michael Berkoff with the search words "USS Lead", "U.S. Smelter and Lead Refinery", "West Calumet", "West Calumet Complex", "East Chicago" and "Anaconda lead" from 2012 to 2016

I'm requesting copies of emails to and from Michael Berkoff, EPA project manager for East Chicago's cleanup with the search words "West Calumet", "West Calumet Complex", "East Chicago", "USS Lead", and "anaconda lead" since January 1, 2011. Further, I request all of the EPA's reports on lead levels in the West Calumet Housing Project, including any and all contractors for the EPA, dating back to 2007. I request copies of the EPA's lawsuits filed since 2009 in relation to East Chicago. Further, I request access to copies of every notice that was published by the EPA for West Calumet residents to notify them of high lead levels in the city, including but not limited to notices of public/community meetings, signs posted in the area, and more. Lastly, I request access to emails sent to and from East Chicago's mayor regarding lead levels in West Calumet, from 2007 to the present.

This request is pursuant to the Freedom of Information Act. I am requesting 1) all internal and external communications and correspondence, including but not limited to emails, notes from telephonic conversations, draft, letters, reports, draft reports, public notices, test times, sites and sampling results, and handwritten notes, concerning lead and/or other toxic chemicals at the West Calumet housing development in East Chicago, Ind. 2) All lead and arsenic sampling results for any public housing located in Region V, along with the surrounding documents. If it is determined that any portion of the requested information is exempt from disclosure, I request that in accordance with 5 U.S.C. 552(b), all reasonably separate portions of the information or documents requested be provided. It is further requested that all documents or portions thereof for which exemption is claimed (i) be identified with particularity (ii) and that the rationale supporting the claimed exemption be provided in writing.

Copies of any and all email communication between the EPA and the Michigan Department of Environmental Quality concerning the City of Flint, Michigan from January 1, 2014 through the present.

Copies of any and all email communication between EPA employees concerning the City of Flint, Michigan from January 1, 2014 through the present.

1. All records* relating to Illinois Construction Permit I.D. No. 03109AAI (Application No. 12100052) issued by the Illinois Environmental Protection Agency to Saint-Gobain Containers, Inc. on August 9, 2013 (attached to this request) including, but not limited to, communications or records exchanged between U.S. EPA and Illinois EPA relating to the permit. 2. All records* relating to or discussing Paragraph 29 of the Consent Decree between Plaintiff United States of America and Defendant Saint-Gobain Containers, Inc., in the U.S. District Court for the Western District of Washington (attached or available electronically on U.S. EPA's website at <https://www.epa.gov/sites/production/files/documents/saintgobain10-cd.pdf>). *For purposes of these requests, the term "records" shall include, but not be limited to, documents, information, notes, presentations, memoranda, letters, records of communications, telephone message slips and records, calendars and meeting notices, agendas, data and analyses of data, computerized stored records, electronic data compilations, and email.

I would like any information regarding any known, removed, or installed Aboveground Storage Tanks/Underground Storage Tanks, hazardous materials incidences or storage, and/or land/water contamination at the following address: * 400 Golf Mill Center in Niles, IL 60714; and * 9101 Greenwood Avenue in Niles, IL 60714

	This request is for all documents related to the San Jacinto River Waste Pits site located at the West Bank of San Jacinto River, North of Interstate Highway 10, Channelview, Texas. This request is limited to documents that were created on or after June 1, 2012 through the present. I consent to a rolling production, and I request publicly available documents to be produced first in the rolling production. I would also like to request an index of withheld documents before a file review takes place so that my team can evaluate which withheld documents to specifically request, subject to your review process. Please contact Patrick Yarborough at 713-220-3717 or Courtney Ervin at 713-220-3993 if you have any questions.
Shirley Langley	
	All documents dated November 20, 2014 to present related to the Wilcox Oil Superfund Site (EPA ID OK0001010917).
Shirley Langley	
	All screening assessments and investigation reports prepared regarding legacy uranium mines within the San Mateo Creek Basin in New Mexico

I request copies of any emails written or received by members of the National Remedy Review Board regarding the West Lake Landfill in Bridgeton, Missouri.

This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552. et seq. I request the following records: All records, messages, e-mails, communications, phone conversation notes, internal memos, photos, and videos related to the West Lake Landfill in St Louis Missouri from EPA staff between January 1st, 2012 and March 1st, 2016. I request that I also receive all materials or correspondence transmitted between the Army Corps of Engineers, USNRC and the USEPA related to the West Lake Landfill between January 1st, 2012 and March 1st, 2016. I am interested in documents from Region 7, and any other national or regional office that may have documents related to this request.

I would like to formally request any and all communications to and from Con. Frank Pallone and his staff to and from EPA concerning West Lake Landfill. I would like any and all copies of concerns raised by EPA about the transfer of West Lake Landfill and HR4100. If you can't help please send me to the site where I can formally request this. <http://news.stlpublicradio.org/post/bill-transfer-west-lake-landfill-oversight-epa-army-corps-hits-opposition-dc>

Freedom of Information Act Request for Documents Concerning Triennial Review of Water Quality Control Plans for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary
Dear FOIA officer, I would like to request copies of all documents, including formal reports, interagency reports and communications, emails, meeting minutes and all other forms of documentation pertaining to aquifer exemptions, the process for exempting aquifers, specific aquifer exemption applications, including Arroyo Grande, and state of California compliance with the Underground Injection Control Program, all as pertains to the state of California and created between Jan. 1 2012 and the present

(1) All correspondence relating to aquifer exemptions between the EPA and any California state agency, including but not limited to DOGGR and the Water Board from June 1, 2014 to the present; (2) All documents and records generated by the EPA Region IX and/or EPA headquarters relating California aquifer exemptions from June 1, 2014 to the present, including but not limited to letters, emails, memoranda, reports, presentations, and notes. Any and all audio recordings, transcripts, minutes, memos, notes generated from the US EPA from a teleconference held Aug. 12, 2016 from 10 a.m. to noon in Sacramento about the Fruitland Magnesium Fire Removal Federal / State Agency Coordination Meeting. Attached is an email from the US EPA's Paul Penn organizing this meeting with state stakeholders.

Any and all emails containing the subject "Fruitland Magnesium Fire" in the subject line or body of the message from June 14, 2016 to the date this request is processed.

Detail

All records, reports, data, studies, and communications regarding EPA Inspections of CAFOs in Western Washington conducted from 2010 to present.

I am looking for the most up to date cost estimate for the cleanup of the Lower Duwamish Waterway Terminal 117 site. The only cost estimate I can find for the site is based on the EE/CA which was submitted to EPA in 2010. However, I understand that additional cleanup has occurred as a result of the pre-design sampling, and that more cleanup may be anticipated based on findings from recent construction activities.

In addition, I am interested in obtaining the responses from Malarkey, City of Seattle, and Port of Seattle to EPA's 104(e) requests for the T-117 site.

Thank you.

We are seeking information for the Portland Harbor Superfund Site. Our request includes the following:

- the Administrative Record and/or Index of all available site documents
- all documents June 2012 to the present related to investigation, remediation, and related enforcement

Please contact us with any questions.

Under the provisions of the Freedom of Information Act, 5 U.S.C. 552, we are requesting access to and/or copies of information re: the following Oregon sites, Portland Harbor Superfund, regarding DIL Trust and Dillingham Ship Repair & Albina Shipyard. This request includes, but is not limited to: 1. All correspondence from the U.S. EPA notice letters informing any person or entities, including but not limited to, DIL Trust and Dillingham Ship Repair & Albina Shipyard or any of its predecessors of potential liability for cleanup and informing such persons or entities of the opportunity to conduct or participate in the investigation or remediation of the sites; 2. Any and all reports, memoranda, correspondence or inspection documents relating to any spills, leakage, storage, disposal or possible migration of hazardous materials or hazardous wastes; 3. Any and all responses made to CERCLA section 104(e) Requests for Information for the sites along with the 104(e) responsive supporting documentations; Any and all notices of violations, enforcement complaints, compliance or administrative orders, or consent decrees; 4. Any and all TSD or generator filings and reports; 5. All documents re: negotiations and/or agreements with any Potentially Responsible Party or entity; 6. Any documents or consultant's reports describing possible on-site or off-site contamination of soil, surface water or groundwater, investigations and remedial studies, and cleanup cost estimates; 7. Any and all documents or consultant's reports describing the historic operations and/or involvement of the above named entities; 8. All documents re: estimated or actual cost of any removal and/or remedial action or any other investigation or cleanup taken or planned at the sites; and 9. Any reports concerning the sites, including but not limited, to site inspection reports, site investigations or plans concerning remediation, remedial action plan(s), feasibility studies or on-scene coordinator reports.

See letter request from John Hahn dated Oct 27, 2015 concerning Quendall Terminals Superfund Site, which is provided herein as "FOIA-Quendall Term-Reg10-Oct 27 2015.pdf."

See attached request letter.

1. The topic was narrowed to Cook Inlet Development and Production.
 2. All correspondence, electronic or written, between the EPA and the DEC related to the above topic from January 1, 2010, until July 5, 2016.
 - a. Except compliance and enforcement documents related to the above topic only during the timeframe of
September 10, 2012 through July 5, 2016.
 3. All internal correspondence, electronic or written from EPA related to the above topic from January 1, 2010 until July 5, 2016.
 - a. Except EPA internal documents related to the ELGs only during the timeframe on that sub-topic from May
19, 2015 through July 5, 2016.
 - b. Except compliance and enforcement documents related to the above topic only during the timeframe of
September 10, 2012 through July 5, 2016.
 4. Any sampling information, studies, or other data related to Cook Inlet that was gathered, created, received, or reviewed by EPA since May 25, 2007.
- See attached request
Please see attached letter.

I am requesting information regarding the following sites within the Portland Harbor SF study area. USEPA alleges hazardous substances have been released at these locations. Port of Portland Terminal 2, 3556 NW Front Ave. 5555 N. Channel Ave. (Swan Island) Part of St. Johns Dry Docks (Willamette Cove) 14400 N. Rivergate Drive Blvd. (Oregon Steel Mills) 2700-2800 NW. Front Ave (Sulzer Pumps) or (Sultzer Pumps) The information I have is that the entities that operated at the above locations are: ATKN, Nevada formerly Guy F. Atkinson Co. (Nevada) and Guy F. Atkinson Co. of California Willamette Iron and Steel Co. (WISCO) and Willamette Iron and Steel works (WISW) Bingham Pump Co. Sulzer Pumps The specific documents that I am requesting are: Preliminary Site Summaries related to the locations cited above. General Notice letters issued to any of the above companies Any Orders or demand letters or Consent Decrees that involve the above companies. Correspondence between the USEPA and the above companies. Historical environmental reports generated for each of the listed locations. (This request is a revision to my prior Request EPA-R10-2016-009034

Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. 522, et seq., I am writing to request the disclosure of documents within the control of your agency. I hereby request copies of any narrative responses to the CERCLA Section 104(e) Request (or Supplemental Request) for Information letters sent to potentially responsible parties in the Duwamish 104(e) Request, received by EPA after March 7, 2013. On March 7, 2013, I received a disk from EPA with all narrative responses received up to that date. (index attached) We are now requesting any additional narratives received after that date. In the event that any requested documents are not disclosable in their entirety, we request that you release any material that can be reasonably segregated. Should documents within the scope of this request be withheld from disclosure, we request that you provide us with a "Vaughn index" that (1) identifies each and every document that is withheld, and (2) states with specificity the statutory exemption claimed for each document and an explanation of how disclosure of a particular document would damage the interest protected by a particular exemption. We are willing, of course, to pay all reasonable costs incurred in locating and duplicating these materials. If the volume of documents you identify pursuant to this request is considerable and copying would prove to be unduly burdensome and costly we would like to arrange to review the documents at your offices to identify and select specific records for duplication. If you have any questions regarding this request, please contact me at 206-359-3497. David Weeks
